Would Not Confirm Mayor's Appointments—Report of Health Board.

Select council met in regular session last evening and the only discordant action taken was on the mayor's appointments of Dr. Kelly and J. W. Burke for members of the board of health. Mr. Neuman made a vigorous speech in favor of confirmation, but the appointments were turned down by a strict party vote. A communication from the mayor withdrawing Mr. Burke's name was read at the latter's request and the council received it. The following report was received and ordered filed:

To the Honorable, the Select and Common Councils, of the City of Carbondale. Gentlemen: I beg to submit the subjoined report of the health board of the city for the year 1897.

The most noteworthy accomplishment of the organization was the completion of a new code of rules which has met with the approval of the city's executive and which, it is expected, will greatly facilitate the work of the board in the future. The articles relating to plumbing, having embodied suggestions of the local plumbers, were made especially comprehensive and their enforcement assures thoroughly sanitary work in that direction.

Mortality statistics show the health of the city to have been exceptionally good during the year recently closed. There were 144 cases of diphtheria with 26 deaths; 133 cases of measles with no deaths; 9 cases of scarlet fever with 2 deaths; and 26 cases of typhoid fever with 7 deaths.

There was nothing in the nature of an epidemic. The total number of deaths from all causes is 248, making a death rate per 1,000 of the population of 13.7-9, considerably less than that of Scranton and probably as low as any in the state.

The births number 337 and the marriages 83. The receipts of the secretary's office were \$28.50, from the sale of material permits, transcripts, transit and pig permits.

The sanitary condition of the city compares favorably with that of former years. Some months ago the board moved into its new office, which, with new furniture, it finds a great convenience.

There were 469 nuisances reported and 435 abated. Visits to infected houses by sanitary policemen, 629; fumigations, 139; carcasses disposed of, 20; dogs, 3 calves, 2 cows and 2 horses; plumbing plans approved, 23.

A requisition from the board of health was referred to the committee. A resolution authorizing the fire chief to have repairs made on Columbia Hose house and get hose couplings, under direction of building committee, was adopted.

A resolution authorizing the building committee to furnish the mayor's office-furnishings to not exceed \$200—was adopted.

Body adjourned to meet April 2 for the purpose of letting contract for Spring street sewer and pass ordinance. It may be left for disposal.

Cupid is usually pictured as a frolicsome playful boy, always smiling or laughing, but with just a trace of mischief in his make-up.

This is the artist's ideal. In reality, Cupid in these days is a matronly figure with a chap. He is beginning to learn that life is not all a summer holiday. He is fast learning that the delicate and important organs concerned in matrimony have no right to tamper with love or matrimony.
