Mrs. Donne, who was sleeping in room on the first floor, was awakened by the noise and found the place in flames. She hurriedly aroused the other inmates of the house and an alarm was sent in. The furniture in the room where the plaster fell was ruined. The loss is covered by insur-

LIVE NEWS OF

Funerals of David I. Jones, Miss Hannah Meredith and Miss Emma Phillips -- Were Largely Attended. Surprise Party for Mrs. John Thonas .- Joseph French Injured in the William Roese Fined by Alderman

There are twelve cases of measles among the inmates of St. Patrick's orphan asylum on this side. There are two forms of measles, one mild and the malignant forms, and fortunately not any of the above cases have thus far proved of the latter class. The early part of last week several of the children were taken ill with what developed into measies and on Friday several more became ill with the same disease. Extreme measures were immediately adopted by those in charge and all cases were isolated.

Dr. J. J. Carroll is in attendance and does not consider the situation at all dangerous. There are about 150 inmates and every care is being exercised to prevent a spread of the dis-ease and a possible though not probable development of it in a more serious form.

The orator had his subject well in hand, having recently re-turned from Florida. While sojourning in that land of flowers he talked with many people direct from Havana, Ma-tanzas, Sagua le Grande and other points in the interior of Cuba. The reverend gentleman passionately exclaimed: "The newspaper accounts of the horrors in Cuba have not been one whit exaggerated. In fact all the awful truth has not been told." In his prayer, adverting to the press of Cincinnati, he said:

TROLLEY COAL TRAIN.

Will Be Run in This City Commencing Today. Today Scranton can boast of having

the first coal train known to the world to be run by electricity. In other words, the ingenious en gineers and mechanics of the local

traction company have devised and

equipped a new style trolley car to be devoted solely to carrying coal. It is in appearance an enlarged "jimmie," with a foot-square box projecting from the center and supporting a trolley There are platforms at either end, not altogether unlike the ordinary platform, the principal dissimilarity being that the deck is open for a distance of two feet next to the car ends, which are trap doors opening at the bottom and designed to make the car unload automatically, the bottom of the car raising to the center from each direction. The car in dimensions is 18x5x5 and in build is very substantial looking and not altogether ungainly. Its capacity is about ten tons. The

box is placed on an ordinary truck. The company gets its coal for the Providence road power house from the Columbus washery. Formerly it was carted with teams in the ordinary coal wagon. Later on a small coal car was

built and was propelled by means of an ordinary car to which it would be 'trailed." This new arrangement saves the expense of an extra car and besides does not take up so much room

on the street. The car will be run from the wash-ery out Washington avenue to Green Ridge street, down Green Ridge to Capouse, along Capouse to Carbon and out Carbon and Providence road to the power house. Switches have been put in at either terminal of the coal route for the accommodation of the car.

A CERTAIN CURE CONSTIPATION.

Regulations as to Diet, Exercise, etc., as Prescribed by One of the most Eminent Physicians.

Constipation affects mostly those who are dyspeptic or who sit too much or too long. It cannot be cured by medicines The following is the prescription of a leading physician:

1st. Take on rising a teaspoonful of Carlabad Sprudel Salt in a glass of wa-ter as hot as you can sip it. Then take a brisk walk out of doors, if you can; if not, keep on your feet and move about indoors. If the trouble is chronic and serious, take another dose in from thirty to sixty minutes. Wait at least half an hour before eating your breakfast.

2d. Never sit down to read or work after breakfast until Nature has found relief. "But I haven'ttime." You will have time if you rise an hour earlier than before, and a cure is worth that.

3d. Use laxative food—use a gruel of rolled oats and water, no milk; and use HONEY with wheat griddle cakes or with bread. Never touch toast, or milk except in coffee. Don't eat blackberries or cheese, and never drink tea for breakfast. Use coffee at breakfast, if you can: f not, hot water. Chew all food thoroughly and never use a liquid to help masticate it. Never use acids or sour fruits, and fruit when cooked is much easier digested than if uncooked.

4th. Why use Carlsbad Sprudel Because, first, there is no reaction to follow it. You know what that means, if you have taken physics and ound yourself worse off than before, the second day afterwards; second, be-cause the Genuine Carlsbad Sprudel salt aids the stomach as well as the

bowels in their functions. You can take the Carlsbad Sprudel Salt less and less steadily as you improve; but never be without a bottle andy. Be sure to use only the Genuine Carlsbad Salt, which is obtained from the celebrated Carlsbad Sprudel Water, and has the signature of Eis-NER & MENDELSON Co., Sole Agents, New York, on every bottle.
