FATHER MATHEW MEN IN CONVENTION

Quarterly Session of the Societies of the Second District.

THREE VERY IMPORTANT QUESTIONS

Project of Admitting Associate Members, Helping Financially Poor Societies and of Giving Special Attention to the Formation of Cadet and Ladies' Societies are Discussed--Diocesan President Lavin and Others Make Addresses.

A quarterly convention of the Catholic Total Abstinence societies of the Second District of the Scranton Diocesan union, was held yesterday afternoon at St. Mary's hall, West Market street, under the auspices of the Father Whitty Young Men's T. A. R. The societies comprising the district were represented by four delegates and an interesting session was the result.

The convention was presided over by R. A. Maloney, of the Father Whitty society, president of the district. After the usual introductory routine, Charles Lavin, of Wilkes-Barre, president of the Diocesan union was introduced and made an address of congratulation and encouragement and concluded with the advice that more effort be expended in the up-building of the cadet and ladies societies. Addresses were also made by J. C. Gallagher, of the West Side, and Michael Jennings, of Avoca, a veteran total abstainer, who proudly wears a Father Mathew badge which was pinned on his breast by the great apostle of temperance, himself, in Ireland, nearly fifty years ago.

Resolutions of condolence were adopted on the death of John McTiernan, former president of the Second district.

FUND TO BE DISTRIBUTED.

After a lengthy discussion as to the disposition of the funds left over from the national convention held here last August, a motion was passed instructing District Secretary W. P. Quinn to distribute to the societies their pro-rata share of the surplus.

Three subjects introduced at the previous convention were then taken up for discussion. The first was an amendment to the constitution, which will permit members to form a society without becoming associated with the financial benefits feature. The second was a project to establish a fund to assist societies that have depleted treasuries. The third looked to the appointment of a standing committee to aid in and encourage the formation of cadet and ladies' societies. No definite action was taken on the first question; the second was declared impracticable and the third was adopted, the chair appointing the following to act on the committee: Father Mathew's, J. C. Gallagher; St. John's, John Joyce; St. Cecilia's, Miss Bolton; St. Leo's, J. H. Devine; St. Peter's, M. J. O'Toole; St. Aloysius, J. J. Brown; Father Whitty's, Anthony Lofsky; St. Mary's, Theodore Sherman; St. Paul's, Thomas J. Mahon; St. Patrick's, Patrick Boyle; St. Joseph's, John Connolly; St. Irene's, Mrs. Edgar Connell; St. Aloysius' cadets, William Daniels; St. Peter's cadets, J. R. McLain; St. John's cadets, Thomas Harrison; Father Mathew cadets, John Harrison; St. Paul's cadets, W. E. Ryan; St. Mary's cadets, Joseph Lynch; St. Joseph's cadets, M. J. McCrea.

DELEGATES ENTERTAINED.

The place of holding the next convention was left to the discretion of the board of government.

WRECK NEAR MOUNTAIN PARK.

A broken wheel caused the wreck of a part of a Jersey Central freight train near Mountain Park Saturday. The north and southbound tracks were torn up and traffic blocked for six hours. The wreck occurred at 8 o'clock in the morning. The train was No. 421 in charge of Conductor Samuel Elke, of Ashley, and Engineer Hineman, of White Haven.

There were no trainmen on the cars which left the track. Brakemen forward and rear were riding on the train jumped to escape the effects of a possible total smashup. They escaped injury. Four cars were completely wrecked and three others badly damaged.

DRIVER BOY INJURED.

Arthur Reese, employed as a driver at the Pine Brook mines, of the Lackawanna Iron and Steel company, met with a serious accident Saturday morning.

He was riding on a front bumper of his car, and jumping off to put in a "sprag," was thrown forward in such a manner as to bring his left arm under the car.

The arm was wrenched and the flesh and sinews badly torn. He was removed to the Moses Taylor Hospital. He is about 18 years of age and a son of Mrs. Richard R. Reese, of Lafayette street.

H. H. WINTERS INSTANTLY KILLED

Grasped the Two Carbons of an Arc Light and Got a Frightful Shock.

HIS HANDS VERY BADLY BURNED

Mr. Winters was Vice-President of Dunmore Electric Light, Heat and Power Company and was assisting Lineman Armbrust to Fix a Defective Lamp When the Accident Occurred--Was a Son of the Late Dr. Peter Winters.

H. H. Winters, vice-president of the Dunmore Electric Light, Heat and Power company, was instantly killed in Dunmore Saturday evening by electricity. Thirty-five hundred volts of the electric fluid, about four times the voltage necessary to kill, struck him lifeless while he was aiding one of the company's linemen to repair a faulty circuit.

While talking with a group of friends in the postoffice, Mr. Winters was told by Patrolman Bulger that the arc lamp in front of Murphy's hotel was out and was affecting the service of other lamps on the circuit. Mr. Winters sought Lineman John Armbrust and went with the latter to fix the defective lamp.

Armbrust climbed the pole and lowered the lamp. He cautioned Mr. Winters to be careful in handling the mechanism of the lamp and was making his way down the pole when Mr. Winters was heard to groan and then fell lifeless.

GRASPED THE CARBONS.

He had grasped the two carbons in the lamp, completing a deadly circuit, which was made more deadly by the contact of his feet on the street car rail.

The body was carried into the hotel and, Dr. Frank Winters, the unfortunate man's brother, summoned. While calls were hurriedly sent to Drs. Murphy, Garvey and Brown, Dr. Winters pronounced his brother dead. The hope that he could be resuscitated led the four physicians and Frank E. Wago, general manager of the company, to work over the body for an hour and a half. Artificial respiration and other means were employed, but to no avail.

He had been killed in the fraction of a second by an abnormal voltage of 3,500.

The flesh of each hand had been badly burned by the current. Mr. Winters was familiar with the construction of arc lamps and it is presumed he accidentally came in contact with positive and negative carbons or had mistakenly supposed he had shut off the current by means of a switch in the top of the lamp.

PROMINENT YOUNG MAN.

Mr. Winters was 25 years old, and one of the prominent young business men of the borough. He was a son of Dr. Peter Winters, deceased, and was soon to be married. On the death of his father he inherited over \$15,000. He was a member of the Patriotic Order Sons of America, Knights of Malta and Junior Order United American Mechanics. One year ago he was elected clerk of the courts, Emil Bonn; county commissioners, Giles Roberts and John Demuth; assistant commissioner's clerk, E. E. Robathan; deputy postmaster, D. W. Powell; Attorney W. R. Lewis, mail carrier John H. Phillips.

RUNAWAY AT GREEN RIDGE.

Robert Van Storch was thrown from a wagon and had his leg injured.

A horse attached to a delivery wagon owned by Morel Brothers, florists, ran away Saturday in Green Ridge. Robert Van Storch, the driver, was thrown out and had his leg badly injured.

The wagon was filled with potted plants, flowers at the time all of which were destroyed. The wagon was reduced to a wreck before the horse was stopped.

SALARIES MAY BE INCREASED.

Proposition Will Be Considered at Board of Control Meeting.

A matter of great interest to city teachers, a proposition to increase their salaries, will be discussed and probably decided at this evening's regular meeting of the board of control. Whatever action is taken will be in continuation of Saturday evening's meeting of the teachers' committee, which debated the subject at length.

At the committee meeting an increase of 10 per cent. in salaries and an addition of ten teachers to the number already employed, was suggested. It was argued that the pay of teachers in Scranton is lower than in any other city in the state, but that the increased assessment gave opportunity for reform. Normal school graduates are now paid \$25 per month for the first year and those holding, in addition, high school graduation certificates receive \$28 during the first year.

Last year's estimate for teachers' pay was \$12,000, exclusive of the high and training school. The estimate for 1898 is \$16,000. A part of the proposed increase is to be for ten additional teachers.

It is by no means certain that the changes, which are to be recommended by the teachers' committee tonight will meet with immediate approval by the board. Several members contend the proposed increase is suggested by political patronage and not by necessity.

DISCOVERED A GEM.

Manner in Which the Music of Pierrot and Pierrette Was Found.

history of the finding of this duet seems like a fairy tale. It was in the spring of '92, on Kemer Strasse in Stuttgart, Germany, that two young men accidentally found a deserted music studio. Heaps of stray pages of manuscript lay scattered on the floor, half hidden by dust, relics of inkpots and cobwebs. Turning some of the sheets that lay in a pile, with the toe of his boot, one of the young men noticed a peculiarly decorated sheet of music. Picking it up and humming the melody, he found that he had unearthed a wonderful piece of music. He searched through the room till the last scrap was found. This music was the first printed edition of Burgin's beautiful duet. It was published long ago by the celebrated Italian publisher, Ricordi, at Milan. After seven years desire Mr. Hemberger has been able to place this really wonderful piece of music before the public. It is written in four numbers. The first number bears a serenade of intensely amorous conception, it is followed by a midnight scene with the quaint striking of the Italian chimes and is sweet and soft, and is sonorously portrayed by the reed instrument. The second number is a love duet that language cannot describe. The third is the betrothal ball or engagement reception in which every dance of the long ago is illustrated. The fourth is the nuptial carnival and illustrated the different ballets of masques, such as Columbine, Pantaloon, Polichello and the Cavalier of Captain Facense. Altogether it is the most beautiful composition of its kind that has been written.
