Brilliant Concert of the Scranton Saengerunde in Natter's Hall.

ATTENDED BY A LARGE AUDIENCE

Several Very Interesting Social Events Conducted Last Night--One of Them Was Given to the Young People's Society of the Hickory Street Presbyterian Church--Louis Minnick Committed to County Jail. John Cannon's Finger Cut Off.

Natter's hall was early decorated last night and the large merry gathering of the members of the Scranton Saengerunde, their wives, sweethearts and friends formed a scene that long will be remembered. The event was the post-Lenten reception of that society. The fore part of the evening was spent in song, and at the conclusion of the programme dancing was the feature.

Schmidt's orchestra furnished the music, and the opening number of the concert was a selection by them, then followed two selections excellently sung by the glee club of the Saengerunde. "The Song for Me" was next rendered by John Steuber and he was obliged to respond to an encore, and following this was a humorous sketch by Anton Fisch and Berthold Schott, the comedians of the club. Undoubtedly the most enjoyable number was the rendition of a popular ballad by the four odd members of the Saengerunde, Philip Robinson, Louis Keiner, William Baumgartner and Gus Scholtz. Paul Heinrich delivered a recitation and a selection was rendered by the orchestra; another song by the glee club, and a duet by George Frueh and William Baumgartner concluded the concert.

SOCIAL EVENTS. The entertainment and social of St. John's Total Abstinence and Benevolent society held last night, were attended by a large number of the society's friends, and the talent who participated were favorites at the house. James White was chairman of the evening, and those who appeared were: Professor Prosser, Kelley and Sullivan, dancing comedians; Eiden and Gordon in club singing specialties; Campbell brothers, in acrobatic feats; John Rynders, the well known dog dancer; Kenney and Cavley, in the latest songs, and Michael Reap, the promising tenor whose work last night was of a high order.

St. Joseph's German Catholic society of St. Mary's church held their annual ball in St. Mary's last night, and the vast crowd in attendance evidenced that the boys of St. Joseph's society have not receded any in the estimation of their friends. Philip Meyer was headmaster of the evening, and was assisted by his committee, H. J. Crookston, Vincent Blosck, Mathias Weber, and Bernard Kroff. The Keystone orchestra furnished the dance music.

Germany hall was thronged with the members and friends of the Welcome Dances of last night, the occasion being the Easter dance given by Professor William Walters, conductor. He was assisted by the following committee: John Melberger, William and John Fink and Henry Walters. Andrew Hayes furnished the music.

When the members of the Young People's society of the Hickory Street Presbyterian church assembled in the old "white church" in the rear of the postoffice, last night to attend the regular meeting, an unusual scene of activity was presented.

Rev. W. A. Nordt, the pastor, and a few members of the society were busily engaged in arranging tables filled with choice eatables, and in a few moments the tables were set and the members of the church who were all and ready to attend.

to spend money that ever originated in this board. As a part of Mr. Barker's arrangement of Mr. Davis' resolution for the purchase of three lots at \$1,100 each on Filmore avenue, near the present No. 18 building, Mr. Barker said the present building was ample for its accommodation and that within a few years to come, with the addition of from two to four rooms. The proposed purchase of lots was only "an entering wedge for a probable attempt in the near future to secure from \$20,000 to \$30,000 for the building in a locality which now contains only twenty-five pupils.

Mr. Leonard moved that the resolution be referred to the building committee with instructions to secure better terms. Lots in the locality mentioned were not worth anywhere near \$1,100 each, he said. Mr. Evans said that \$400 each was the average value of lots in that neighborhood. Mr. Leonard's motion was lost by a vote of 12 to 6. Mr. Barker's motion to table the original motion was lost by a vote of 10 to 5.

We further recommend that at the end of the year when the policy expires the insurance on the boilers be discontinued, as we consider the steam pressure in the boilers too low to render insurance necessary.

On motion of Mr. May permission was given Mrs. Underwood, superintendent of the kindergarten work of the Scranton Kindergarten association, to address the board at the next meeting.

TOWER A PAN-AMERICAN EXPOSITION. A novel electric tower will be erected on the Pan-American exposition grounds in 1898. In building this tower the object is to symbolize the progress made in the development of electrical power during the century. It will be of immense proportions, with a massive base, which will firmly support the steel framework. This framework will support two spiral tracks, over which it is proposed to run observation cars to and from a spacious lookout platform many hundred feet above the grounds. Upon the platform will be erected an electric trolley, surmounted by a mammoth transparent globe, in which will be displayed the most powerful electric light ever devised. They expect it to be seen at a distance of at least fifty miles. In order to avoid any possibility of accident, the tracks will be provided with a steel guard fence reaching half way up the height of the cars. The cars will also have safety appliances and brakes. These precautions will render the trip up or down entirely safe. The dimensions of this gigantic structure are as follows: Base, 125 feet square on the ground and 80 feet in height and 80 feet square at the top. The steel tower will be 220 feet in height from the base to the top of the observation platform. The temple on the platform will be thirty feet high. The sphere at the top will be fifty feet in diameter. It is estimated that the cost of the tower will be at least \$150,000--New Ideas.
