THE MARKETS. Wall Street Review.

New York, April 14.-There was professional buying of stocks today which gave the market a firm tone all day. The extreme advance from the low level at the opening was a point or over in most of the leading stocks but except in a few cases. The professional buying was more or less influneed by the very estentatious espousal of the buil side by a large and daring by distribution of buying orders. Union Pacific preferred.

And then, though he cannot guess why, the people around all laughed, and his mother-in-law bridied, and his wife re-
