STRIKE TIES UP WEST RIDGE MINE

Men Claim Their Time Has Been Unfairly Reduced.

TROUBLE CAUSED BY SYSTEM OF A NEW INSIDE BOSS FOR KEEPING TIME OF DRIVERS, RUNNERS AND MINE CANNOT BE IMMEDIATELY

A strike by a certain class of inside imployes of the West Ridge Coal com pany tied up the mine yesterday. ew of the men have retained an alorney to prosecute the company for in alleged unfair time dockage. They say the colliery cannot be started until their wrongs have been righted.

A boss recently employed by th ompany, an Olyphont man, and who has been in charge of the inside worknen, is charged with causing the trou-The men claim he established : iew time system three weeks ago which unjustly reduced the time of lrivers, runners, gatemen, etc., one iour each per day. This dockage, the men say, was on the actual time

Five of the employes affected carried their grievance on Thursday to Sec retary E. A. Clark, the company of ecial, who has immediate supervision of operations in and about the colliery. They failed to convince him that they had been unfairly dealt with. He gave them no satisfaction they said.

Yesterday the men brought on strike of sufficient proportions to stop operations at the mine. Work was started at the usual hour in the morning, but at 7.30 o'clock about forty inside hands ceased working. This number included all who claim to have been affected by the time system, and several who were in sympathy with them. The absence of the men was sufficient to make impossible the operation of the colliery.

The fire men who carried the grievince to Secretary Clark on Thursday. retained City Solicitor McGinley yesterday as their attorney. He was directed to bring suit against the company for wages. Each man sues for pay for five or six days' work, the total amount of time which they claim was unfairly deducted.

T. Cramer Von Storch, president of he company, in an interview with a Pribune reporter last night disclaimed any knowledge of the details of the trouble. A few men had stopped work, he said; he did not know how manypossibly a dozen. He had not considered the trouble as being of sufficient import to inquire much about it, and supposed work at the colliery would e resumed this morning as usual. The men say there will be no work

in the mine today for the reason that no men will be found to fill the places of those who have quit. About 250 men have been employed In and about the mine and breaker.

Of this number over 150 were inside

THRILLING BICYCLE RUNAWAY. Occurred Last Evening on Steep

West Lackswanns Avenue Hill. An unknown man and a bicycle dash ing at a hair-raising speed down the steep portion of West Lackawanna avenue from Chestnut to Ninth streets last evening about 6.30 o'clock served the crowd of pedestrians, who pass along this thoroughfare at that hour, with a thrilling sight. To those at the foot of the hill it looked at first as if the man was trying to see how fast he could race down the hill, but it quickly dawned on them that he could not control his machine.

Happily there were no cars ascendng to cross onto Ninth street nor were there any cars on the Delaware, Lackawanna and Western crossing, a block below, and all waited to see what would happen, powerless to assist the helpless fellow. Just as he neared the Ninth street crossing at a terrific pace a little girl ran out across the avenue apparently just in front, and a collis-

on seemed inevitable. Whether the rider realized this of grew dizzy was not disclosed, but suddenly the wheel went over and he was hurled along the Belgian block pave The impact was awful. He struck on his right shoulder and face. Several men ran out and picked up the prostrate form and carried him into Ross hotel, nearby. He recovered partial consciousness and some friends who happened to be in the crowd procured a carriage and took him away. They thanked the men who had succored their friend, but did not state who he

He was a large, powerfully built colored man, and his escape from instant death was wonderful. The wheel was uninjured, except for the twisted bandle-bars.

A LITTLE GIRL BITTEN BY A DOG

Her Left Ear and Neck Are Seriously Lacerated.

SHE IS THE 12-YEAR-OLD DAUGH-TER OF MRS. EMMA LANCE, OF CLARK'S SUMMIT, AND WAS VISIT-ING ON WYOMING AVENUE-CHAS. TROPP OWNED THE DOG-IT WAS A VALUABLE BIRD DOG AND WAS SHOT BY PATROLMAN SALTRY.

Mabel Lance, a 12-year-old girl, was badly bitten on the left ear and neck yesterday afternoon at 6 o'clock by a bird dog owned by Permanent Man Charles Tropp, of the Crystals. The ear is seriously facerated and it took two stitches to sew up the gash in the fleshy part. The wound in the neck is serious, the brute's teeth having sunk deep and in dangerous proximity to the jugular vein.

The little girl is a daughter of Mrs. Emma Lance, of Clark's Summit. She has been visiting Mrs. Hiram G. Terwilliger, of 241 (upstairs) Wyoming avenue, for a month. Her mother came down yesterday to remain over

In the rear of 241 Wyoming avenue is a small yard, and it extends back to the rear of the Crystal's premises Mrs. Lance said that her daughter was down in the yard with some other little girls and they were throwing kindling wood into a new coal box.

The dog was scouting around, and when it saw the occupation of the girls it ran towards them and jumped upon ier daughter and inflicted the injuries. The girl screamed with terror and the dog ran away.

They brought her into the house and arranging a temporary bandage on the wounds then brought her to Dr. Capwell's office, in Terrace Row, two blocks away. By the time they got there, the injured ear was almost black and the neck had swollen. The doctor cauterized the wounds and dressed them. She is sure to suffer torture for a few days, and Dr. Capwell told her mother that she will require great care and constant attention.

Patrolman Saltry was on Wyoming avenue beat and he was informed. He went to the hose house, got the dog from Mr. Tropp, took it into the alley. and ended its existence with a bullet from his revolver. Mr. Tropp prized the dog highly, but nevertheless consented to have it shot. He told a Tribune reporter that he refused \$50 not long ago for it. He said it was the first instance the dog ever displayed the slightest disposition to bite anybody.

MR. TROPPS VERSION. Bird dogs will follow any object thrown in the air. That is their instinct; consequently it was sport for the youngsters in the vicinity of the hose house to throw sticks, stones, and

blocks for the dog to follow and eatch in its mouth. Sometimes the youngsters would try to pull a stick or block from the dog's mouth and in that way they were in danger of arousing its Mr. Tropp said that's how this little girl happened to be bitten. He said he warned the children every day not to

tease the dog, Mrs. Lance and Mrs. Terwilliger were positive the girl was n the back yard at the time, not many and that al was not aware of the dog's presence until it attacked her. The little girl was able to be aroun-

the house last night, but she was suffering severe pain.

WANAMAKER SPEAKS

He Makes a Severe Attack on the Management of the State Treasury -- Challenge for Republicans.

Reading, May 6.-John Wanamaker addressed a largely attended meeting here tonight.

Mr. Wanamaker opened his speech Mr. Wanamaker opened has specified by referring to the present war with John Connolly, the fireman, were specified by the said Spain must take the brought to this city on the train leav-Spain. He said Spain must take the consequence of her own madness and cruelty, and for one he would not be sorry if the official Spaniard is without a footing in the world. Turning to Pennsylvania affairs, Mr. Wanamaker said that Pennsylvanians have borne the odium of acquiescence in the conduct of public affairs and that they will

do so no longer. He then made a severe attack on the management of the state treasury and said that the spirit of the law requiring the state treasurer to retire at the end of his term was violated, because when a state treasurer is inducted into office he retains his predecessor as general

manager. Continuing, Mr. Wanamaker said: The proceedings of the last legislature and the records of previous legis-latures, and the set up jobs of canditates and unfinished business of the

last lesiglature for the rext legislatue portend a storm of trouble, the end of which no one can forecast. I chal-lenge denial that the Republican party did under its bess leadership fight hard last winter to do the following six things:

 Put a tax upon the public schools in the effort to take away their needed support for the beneat. of W. H. Ardrews and other brewing interests in the state. 2. It whitewashed the crimes of the oleo business, and the committee charged the state \$17,000 for sixteen

3. Its penitentiary investigating committee charged \$15,000 or \$1,250 for each man and \$200 hotel bill.

4. The anthracite coal bill disclosed ing but the committee's bill of 5. The Lexow committee of W. H. Andrews and Quay's to blackmall to Philadelphians probably cost \$5,000, or at the utmost \$10,000 actual expenditure at honest and usual rates of

expenses charged to individuals, and Senator Andrews fought desperately to get \$65,000. 6. Two high officials of the state were compelled to resign for complic-ity in unlawful aiding and abetting with the state treasurer to use the state money, afterwards secured by bond and subsequently borrowed from the People's bank, where \$505,000 was

retained on deposit by the state Wanamaker said that he was in favor of corporations and ready to aid always to protect vested rights. He never fought but once in his life with corporation, and then it was not as an individual, but as postmaster general of the United States. His fight then,

he said, was against telegraph companies for lower rates. He then recurred to the political hisory of the state from 1895 to the present time, and severely scored Senator

Quay. Mr. Wananiaker concluded as follows. When we consider the vicious lives, unenviable character and smirched reputations of the practical politicians, great and small, who at present dominate the government of this state, there can be no other feeling than that of infinite shame that the government of this grand old commonwealth can be in any manner or degree controlled by men whose very names are by

words, and east scorn upon their bear
