REVISED LIST OF REJECTED

#### Members Who Did Not Come Up to Requirements.

OF THE SIXTEEN MEMBERS OF THE DRUM CORPS ONLY FIVE ARE LEFT, TEN HAVING REFUSED TO VOLUNTEER AND TWO FAILING TO PASS THE PHYSICAL EXAM-INATION-THREE HUNDRED AND THIRTY-TWO RECRUITS FOR THE NINTH REGIMENT ARRIVED YES-TERDAY - RELIGIOUS SERVICES COULD NOT BE HELD OWING TO THE STORM.

From a Staff Correspondent.

Camp Daniel H. Hastings, Mt. Gretna, May 8 .-- Mud is the word. In some places it is not over six inches thick, but as a general rule it is of dangerous depth. Rain has fallen almost incessantly since Wednesday night and the camp in consequence is in an awful condition. Drills have been entirely suspended and the only thing the men employ themselves at is eating, sleeping and trying to keep dry and warm. In none of these particulars, it should be added, do they attain any great degree of success. To add to the ordinary miseries, a burricane blew up this morning and played sad havoc with the tents. From daybreak until after 8 o'clock, when the fury of the storm abated, the men were compelled to hold on to the ropes of their canvas houses to prevent them from being leveled by the wind. Such tents as were not thus cared for could not withstand the furiwithout some damage

The Thirteenth and Ninth regiments stables went down in a heap and the mess tents all along the line caved in on the tables and benches, breaking dishes and heaping everything beneath in a confused mass. Streams of water cut their way in every direction through the company streets, invading the tents and soaking everything bad way, and few of them will be able to sleep with any degree of success.

Governor Hastings is doing everything in his power to alleviate the decoffee and sugar were issued by his orders and all the hav and straw in camp or on the cars were directed to be distributed among the men for bed-

CONDITION OF RECRUITS. The recruits who have been coming in by the hundreds since yesterday others. They had to take the tents

that the non-volunteers and "cripples" deserted and in most instances they and other improvements taken posses. ble to the extreme. Generals Wiley sion of for the further improvement of and Gobin and the regimental and comfirst. How soon the division will be in far as it was possible to do so. shape to move from this weather-benighted place can not be stated with any degree of accuracy, and "positive" stories on the subject are absurd. It hard. About 800 of these from differ took two days to examine half the di- ent parts of the state had been asvision. The other half and the recruits are yet to be examined. When these and the mustering and polishing are completed the forepart of next week will be at hand, it is safe to say. The examinations in the Thirteenth regiment were completed this afternoon, when the commissioned officers of the field and staff who are here without exception, as far as is known, successfully withstood the test applied by Surgeen Major Hall, U. S. A.

The work of examining the lieutenants, non-commissioned and enlisted men was concluded this morning by and Lieutenants Keller and Blanchard, served. There were some gloomy faces, The following table shows the results, giving the number of men examined, weather, rejected, accepted and the number needed to fill out the quota:

Compile. Exam- Re- Ac- Needined. jected, cepted, ed. Headquart's . . В ..... Co. E ...... \*\*\*\*\*\*\* Co. H ........ 55

THE REVISED LIST. The revised list of the men rejected by the surgeons is as follows: Headquarters-Chief musician, Edward D. Richards.

Company A—George L. Peck, David Jones, Conrad Freuhan, Edward S. Geary, George Kline, Ralph D. Ritten-house, Fred D. Rulty, Samuel Contlett, Company B—Second Lieutenant William C. Scott, Frank C. Benore, Charles Col-well, John Bartosch, Charles Dippre, Geo. Fisher, James Moir, Jr., Fred Weber. Company C.—Second Lieutenant David W. Davis, Charles Van Valen, Robert W.

Company D-First Sergeant C. F. Pros Joseph P. Cleary, H. D. Campbell, H. B. Stanton, C. H. Schadt, S. E. Snyder, Company E-Thomas E. Kellon, Will-lam B. Cranels, P. J. Moran, George W.

Company F .- T. M. Beels, H. A. Mott, Robert P. Diehl, M. Arneman, H. A. Col-lce, Charles Cadwgan, Thomas J. Davis, Henry P. Davis, Edward Edwards, A. H. Foster, A. E. Meredith, L. D. Watson, Charles Wallace, Daniel Williams.

Franz, M. W. Bailey, Samuel Pritchard, C. W. Jones, Christ Leitner, E. F. Mc-Guire, Mackey McDonough, George H. s, Grove W. Woolford, Walter

Of the sixteen members of the drum corps only five are left, ten having refused to volunteer and two falling to pass the examination. Sergeant wards, of Company F, is one of the men whose case was considered and even received a certificate. The men who go home with the "invalid" squad will be given certificates signed by the governor setting forth that they volunteered but were repected for physical incapacity.

NINTH REGIMENT ARRIVED.

Three hundred and thirty-two men for the Ninth regiment arrived today. The Thirteenth men are expected Tuesday. The joint service arranged for the Ninth and Thirteenth regiments this morning did not take place owing to their meeting house, the Y. M. C. A. tent falling prey to the wind.

The regular army men are much impressed with the fortitude of the Pennsylvania soldiers, under their trying difficulties. The cheerfulness and the vord is used exact, displayed by the men amidst their miserable surround ings is a patent of patriotism that should have a prominent place in the history of this war. Two men are in the hos pital today, when The Tribune correscondent looked in on them they were both sitting up in bed smoking.

A division hospital is to be estab lished in one of the big cottages in the park so that in case any severe cases of illness should result from the dangerous weather, they can be properly cared for.

Mrs. Charles Leitner, wife of Company H's cook, came here this afternoon with her infant child determined to leave it with its father if he insisted going with the soldiers. To her great joy she discovered that her husband had been rejected and sent home. T. J. Duffy.

#### BAD DAY AT CAMP HASTINGS.

Rain Poured Down in Torrents and the Soldiers Were Cold.

By Associated Press. Mount Gretna, Pa., May 8.-Camp Hastings was submerged in mud and water today, and the 9,000 or more soldiers and the recruits who are encamped in barracks were subjected to condition of weather that has been the worst in the history of the Pennous blasts and but few of them escaped sylvania National Guard. From 2 'clock this morning until 4 o'clock this afternoon it rained in torrents without cessation. In addition the wind blew furiously during the early hours of the storm, and many of the tents were blown over and the occupants were forced to turn out in the rain and

get them in shape today.

In all three of the brigades the men were given a test of their mettle, but in the First brigade particularly were the hardest experiences met with. Without exaggeration it may be said within. Tonight the soldiers are in a that the regiments of the First brigade were forced to spend the night and all the day in water and mud to their shoe-tops and it was only by active work that more tents did not blow down. Those companies not fortunate plorable condition. Double rations of enough to have a company mess or orders and all the hay and straw in up that it was impossible to get teams through with supplies. By nightfall, however, the men were all cared for and huge camp fires were lighted

around which the men bivouacked. A TRIFLE BETTER OFF.

The Second and Third brigades were just a trifle better off, being on high morning are faring worse than the ground, which permitted most of the water to drain off, but the suffering there was of a severe character. The commands managed to secure subsistence after some difficulty, but with the had been ransacked and the flooring rain and cold their condition was pitiathe tents of the men who came here looked after the comfort of the men as pany officers personally turned out and

The recruits, who arrived yesterday and last night and who were rendezvoused in barracks in the grove ad joining the Chautauqua grounds, fared signed to hard wooden beds, and through some miscarriage of prepara-tions fully 90 per cent, were without blankets, and it became so cold that they were forced to keep moving or huddle together in heaps to keep varmth in the bodies. Last night 2,000 regular army quartermaster's office to e distributed among them, but owing to slow-moving regulations they failed to get them, and the recruits were subjected to their first hard experience.

Supper was served all right last night but the driving rain prevented the es of the morning meal until late, and in the main exposition building, filed with late arrivals, nothing was to be Lad until noon today, when cofthe regimental surgeons, Major Parke fee and sandwiches and hard tack were but on the whole the recruits kept cheerful and laid all the blame to the

ARRIVAL OF RECRUITS. Today a number of recruits arrived from Altoona, Pittsburg and other

western points in the driving rain, Governor Hastings tonight ordered that no more recruits be taken to the bar-racks until the weather conditions change. They will be housed at Lebanon or kept in cars at Conewago. This morning there was but few on

the sick list, but during the day several slight symptoms of pneumonia developed. Major Halberstadt, surgeon the Third brigade, was ordered to open a general hospital in the Chautauoua grounds, and assume charge. This is only a precautionary step in case serious results may follow today's experience, and Governor Hastings desires it to be known that there is no reason for alarm among the soldiers'

Comparatively few visitors came to camp today, and those who came from nearby cities got back as quickly as possible. The Pennsylvania and Reading Railroad companies side tracked their cars and permitted those coming from a distance to take refuge there. Scarcely one in a hundred attempted to reach the camp and all lunched in the cars until the trains started for

Notwithstanding the storm the work of examining officers, enlisted men and recruits was pushed forward. Battery B, of Pittsburg, was mustered in during the afternoon. As far as can be learned all the officers were accepted but two, Colonels Washabaugh, of the Sixth regiment, and Magee, of Eighth. They are held under advisement. It is expected that the mustering of the regiments will begin tomor-

## CHASED BY SPANIARD

Officers of the French Steamer Olinde Roddrigues Report that the U. S. Cruiser Montgomery is in Danger.

(Copyright, 1898, by the Associated Press.) Port-au-Prince, May 8.—The United States cruiser Montgomery, Commander G. A. Converse, is supposed to have been engaged with a much larger Spanish cruiser last night, northwest of Cape Haytlen, a seaport town of Hayti, on its north coast, ninety miles north of Port-

While the French steamer Olinde Rod-While the French steamer Offine Rock drigues, from Havre, on April 16, for Haytien ports, was at Cape Haytien, a Spanish warship is said to have been watching her, mistaking the steamer for an American vessel. When the Olinde Roddrigues left Cape Haytien, the Spanish warship approached her and allowed

her to continue on to this port on recog-nizing the French flag.

The United States cruiser Montgomery left Cape Haytien soon afterwards and the Spaniard, which is presumed to have been watching for her, is said to have pursued the American cruiser, both of them putting on full steam. The Spanlard, according to the story told by the the pursuit, which was witnessed from the bridge of the Olinde Roddrigues, by the officers of that vessel.

The two warships, they say, went in the same direction, with the Spaniard behind. The latter appeared to be a formidable vessel and much the larger nd faster than the Montgomery. By nightfall, it is added, four dis-

charges of cannon were heard, which were believed to be the result of the Spaniard firing upon the American war-ship. Darkness, it is further said, pre-vented any further observations being made, though the French officers say the moon was so bright that the battle ould have been continued, especially as the sea was beautifully calm, only a mild wind blowing from the land.

Strange to say, it appears that all the passengers of the Olinde Roddrigues were selow at supper while this exciting incident was occurring, but the officers of the steamer, which arrived here today, say they are confident the Montgomery was overmatched and that the only means to escape was to run close in during the darkness

The arrival is rumored late this eveships and others at Porto Rico; and a battle is expected on Tuesday. It is also reported from Cape Haytien

that Admiral Sampson's squadron has been sighted to the north. The vessel which pursued the cruiser Montgomery is supposed to have been the Spanish warship Viscaya; and it is sug-gested that possibly the Montgomery enticed the Spaniard within striking disance of Admiral Sampson. The crew of the German ship Bolivar, which arrived today, say they heard cannonading to the northward about 4 o'clock this after-

Advices from Cape Haytien say that resterday, off Moleste, St. Nicholas, two spanish warships captured a schooner bound for Cape Haytien.

### NEARLY TRAPPED.

The Morrill and Vicksburg Drawn in Range of a Spanish Masked Battery Near Havana.

(Copyright, 1898, by the Associated Press,) Key West, Fla., May 8.-Only poor marksmanship on the part of the Spanblankets arrived, consigned to the ish gunners saved the Vicksburg and the cutter Morrill from destruction off Ha-vana yesterday. For over half an hour they were under the fire of the guns of the Santa Chara water batteries, but both escaped without material injury, although Scharpnel shells from eight-inch guns exploded all about them, and both now show the pitted scars of the

Spanish builets.

The wily Spaniards have arranged a trap to send a couple of our ships to the bottom. They baited it as a man would bait a rut trsp. A small schooner was sent out from Havana harbor shortly before daylight yesterday morning to draw some of the Am ricans into the amuscade. The ruse worked like a charm. The Vicksburg and the Morrill saw the schooner saw the schooner, gave chase and were led right in front of a masked battery on the crest of a rocky eminence which juts out into the waters of the gulf. Before the two United States vessels were aware of the scheme they were in the midst of hot fire from the battery. The atm of the Spanlards was, however, very bad and the Vicksburg and Morral, after sending back a few shots, scamp-ered back to sea out of range of the battery. Both sustained some slight dam-age by fragments of shells which exage by fragments ploded near them.

## WOODFORD AT WASHINGTON.

The United States Situister to Spain

cord at y Received. Wasington, May 8.-General Stewart L Woodford, United States minister to Spain, arrived in Washington from New York this evening shortly before 9 o'clock. He went almost directly to the White House where he was given a most cordial reception by the president. He remained in conference with the president until a late hour, the entire Spano, American situation being informally and horoughly discussed.
General Woodford declined to be inter-

viewed upon the subject.
It can be said, however, that the prestdent not only gave General Woodford a cordial reception but warmly congratu-lated him upon his conduct of American interesis in Madrid. The president as-sured him that his work in Madrid throughout the delicate crisis met with

#### WORLD'S GREATEST NAVAL ENGAGEMENT

(Concluded from Page 1.)

bardment of the remaining fortifications at Manila. The forts at the entrance of the bay

were dismantled on Wednesday, after they had capitulated. It is said the American commodore ordered the cable to be cut because the Spaniards refused to permit him to use it pending the complete surren-

der of the city.
It is said that the Spanish ships did not get under steam until after the alarm was given. It is said also that the Spanish commander informed the governor general that it was advisable to surrender in the interests of humanity, as it was impossible to resist successfully, but that he and his men were willing enough to fight and die.

DESPERATE BRAVERY. Even when the Spanish flagship was Challenge price shot half away, her commander, though wounded, refused to leave the bridge while it was burning and sinking, her stern shattered by a common shell and her steam pipe burst. After the lighting was over, Comm-

dore Dewey sent an ultimatum to the city battery, ordering it to cease firing designs, the 8c kind. or he would bombard. The Petrel chased a gunboat up the river Pasig, and the Spanish captain

came in a boat to negotiate conditions The American captain lenge price replied: "Unconditional surrender or To this the Spaniard answered: "We are willing to fight. Please allow us to drasine, the 8c kind.

send for ammunition, because our store

is exhausted.' On a proposal to the existing author-ities to continue temporarily under the American flag, pending the termination of the war, the Spaniards delayed their decision and kept wiring to Madrid. The Americans requested the privilege of using the wire, and when this was

refused they cut the cable. The Esmeralda, from Hong Kong, arrived right in the middle of the battle During the adjournment for breakfast an American cruiser was detached to meet her, as it was believed she might be a Spaniard. When it was found that the new arrival was a British vessel, she was warned to keep away. The Esmeralda, therefore, moved up the bay ten or fifteen miles.

There are still two or three Spanish gunboats about the Philippines, but no resistance from them is probable. One recently captured an American bark.

#### TROOPS FOR DEWEY.

Hurry Orders to Gen. Merraim to Get the Expedition Rendy to Start.

San Francisco, May 8.-That part of Dewey's report stating that he had not enough men to hold Manila if he should take it has resulted in rush orders to General Merriam here to get the relief expedition ready at the carriest moment. It is believed here that the expedition will leave this city by Saturday, a week from loday. The City of Peking is due today, but it is doubtful whether she will be on time, as she is somewhat slow. Orders have been received to secure a transand the stenmer Australia practically been turned over to the government. The department has been or-dered to prepare both the Australia and the City of Peking to receive troops, and as the two ships can only carry between them about 2,500 men other boats on the list of "possibles" will be immediately purchased or chartered. The Australia is all ready to sail except for the work on her that will be necessary to arrange quarters for men.

The City of Peking will have to be docked and her cargo discharged. The cargo ought to be lifted from her hold in two days if three shifts are worked. The steamer must then be dry-docked and cleaned, and it may be necessary to send her to Mare Island for mechanical

supplies, ammunition, etc. The troops to be sent will be those from California, Washington and Oregon, and the Shoup Guards of Idaho. The California troops are already here, and the others will arrive in three or four days. Five thousand will be sent with the first expedition and 4,600 more will follow San Francisco this morning wellater. comed the Seventh regiment, California National Guard, the price and flower of Los Angeles citizen soldiers.

The troops arrived at ILI5 o'clock a. m. and received a cerdial greeting by the throng gathered at the ferry. The exact numerical strength of the regiment is 1.090 men, including regimental officers, The California troops went into camp at the Presidio today and are new ready

#### NO NEWS OF SAMPSON.

for service.

The Destination of His Fleet is Not Definit ly Known.

Washington, May 8.-If any news has been received at the navy department today or tonight from Admiral Sampson it was not of a charcter that could be made public without endangering the successful working of the plans of the strategy board. It may be stated positively, however, that so far, the depart-ment has heard nothing of an engagement or of anything approaching one, between the fleet and the Spanish forces. It is expected by the officials that there will be nothing like the delay experienced in the case of the Philipp.he light in hearing from Admiral Sampson in case of an engagement in the West Indies without in any wise admitting that Porto Rico is Sampson's objective point, it is pointed out that even allowing the Span-ish the retention of cable communication from that island to the outside world, there is an independent cable from St. Thomas that cannot come under Spanish centrel, running as it does through the chain of French and British isla... southward from St. Thomas and thence southward from St. Thomas and thence to Hayti, where direct cable connection can be had with New York.

From the character of the

From the character of the ships under Sampson's direct command, the officials feel little doubt of the successful outcome of a fight between his force and the Spanish flying squadron. Outside of the flagship New York, which is partly armored, all of the vessels with Admiral on with one exception are tronclads and moreover their armor be-
