FAREWELL BANQUET.

Was Tendered to C. S. Seamans By

Prominent Knight Templars. A banquet of elaborate proportions was given at the Hotel Jermyn last night in honor of C. S. Seamans who leaves here temorrow for Denver where he has extensive business interests which will keep him in Colorado for an indefinite period.

The donors of the feast, which was a subscription affair, were members of Melita and Cocur De Lion commander-ies, Knights Templar. Mr. Seamans recently finished his exalted office as eminent commander of the former organization. The place he occupied in the city's Masonic and Templar circles is revealed in the personnel of last right's guthering and the quality of the iod-speeding. A committee of Melita. nembers, as follows, arranged the affair; E. Sirs T. F. Penman, C. L. Van Buskirk and R. A. Zimmerman and Sirs A. H. Shopland and T. B. Howe. At 8.45 o'clock the company began the discussion of the tempting menu. There were present:

C. R. Acker, A. J. Colbern, Jr., W. L. Carr, W. S. Dieni, J. D. Ferber, J. T. Fenr, H. C. Gorman, H. M. Huli, T. B. Howe, E. T. Howe, C. E. Hale, Myron Kasson, A. F. Kizer, B. T. Lavey, E. P. THE WASHINGTON EXCURSION.

Plan Made Known to the Pennsylvania Railroad Company.

Concerning the proposed excursion to Washington, reference to which was made in yesterday's Tribune, Secretary Atherton, of the board of trade, conferred with Local Passenger Agent Mullen, of the Pennsylvania road. If the company can secure information that the Pennsylvania troops will ren-dezvous at Washington and that they will not reach that city before the middle of next week it is probable that the excursion will be arranged.

As already explained it has been suggested that the board of trade here and accredited persons in Luzerne ounty join with the railroad people in furthering the plan after an agreement has been reached for sharing the profits for the benefit of relief funds for the families of soldiers in the Ninth and William Dickery, of New York, called Thirteenth regiments.

At next Monday night's regular meeting of the Scranton board of trade the matter of furthering a relief fund procompanies from this county will be

FIGURES ABOUT THE ATTENDANCE

Presented to the School Board by Superintendent Howell,

NUMBER OF BIDS RECEIVED FOR NEW NO. 3 BUILDING WHICH IS TO RE ERECTED AT THE CORNER OF PITTSTON AVENUE AND HICKORY WAS APPROVED-APPROPRIATION FOR KINDERGARTEN WORK REC-OMMENDED BY A SPECIAL COM-

last evening's meeting of the poard of control the following report was submitted by Superintendent of Schools Howell:

To the Board of Control, Gentlemen: Permit me, please, to present the following statistics which have been compiled in the same manner as the statistics are compiled in large cities throughout the United States. All our calculations in school work are based on the full enrollment. To make a calculation based on the average daily at-tendance of the pupils is unwise, because the average daily attendance is frequently lowered by sickness and a hundred other causes. If promotions were made on the daily average attendance our whole graded system would fall in twenty days. If we had based our monthly reports on the average daily attendance last year when hundreds of children were sick with the measles, we thould have had an average in some chools of less than twenty pupils per eacher, and our grades would have been isturbed from Primary C to Grammar

We have our calculations on the average enrollment of pupils and not on the average daily attendance, first, because education is compulsory, and we must make ample provisions for pupils; second, because it is the most constant, unvarying and regular number that we have to deal with in making up our perentages for monthly reports.

AVERAGE IS LARGER. Today the average number of pupils per teacher is larger than it has been for ten years. We have been continually

increasing our average attendance, at the enrollment as recorded between 18 and 1898 will show a constant increas For the years 1895 '96, '97 and '98 we hav had an average enrollment of forty-fi- pupils per teacher, a higher average the we have ever before attained in the hi- tory of our schools.

RECRUITS LEAVE TODAY.

They Start for Mt. Greina Today to Fill Up the Ranks of the Thirteenth Regiment.

Two hundred and ninety recruits and ten officers of the Thirteenth regiment will leave here this morning for Mt Gretna, Colonel Coursen yesterday concluded arrangements for transportation.

The force will leave at 10 o'clock in a special train on the Delaware, Lackawanna and Western road. There will be six passenger coaches and an express car. The most precious freight in the latter will be the pair of horses purchased yesterday by Colonel Boies and several of his friends for the ambulance recently purchased by popular subscription through The Tribune.

The business of assigning the recruits to certain companies was performed at the armory yesterday morning. They were apportioned among Companies A, B, C, D and F. Companies E, of Honesdence, enlisted and examined their recruits independently and will report

The companies will take to camp an average of about thirty-six men each. This number includes seven extra recruits for each command to guard against possible rejections. The train will contain a total of 288 recruits and the following officers: Colonel Coursen, Captain Dimmick, of A; Captain Kamback, of B: Lieutenant Foote, Captain Smith, of E: Captain Fellows, of F; Captain McCausland, of G; Captain Corwin, of H, and Second Lieutenant David W. Davis, of F. The latter was sent here yesterday by Colonel Morrell, inspector general of the Pennsylvania division, as the latter's representative in escorting the recruiting force to camp. He has orders to compile en route an official list of the recruits for use at division headquarters and a duplicate list for the regimental and brigade records.

While the men were gathered in company groups Colonel Coursen gave them instructions as to personal baggage which for each man should include nothing more, he said, than extra underclothes, socks, a towel, soap, a shaving outfit and a lunch. He advised that each take an extra blanket, although they would be equipped by the government with blankets, one for

each man. The team purchased for the ambulance is the best that could be procured for that particular purpose. They are dapple grays, native bred, seven years old, and weigh about 1150 pounds each. The weight will be reduced in service to about 1050 pounds, about the figure best adapted to the purpose. The horses were purchased from J. Holcomb, of 1349 Capouse avenue, and were selected from among a number of teams offered. They were examined by a vet-

erinary surgeon before being accepted. The price paid for the team was \$250. shared equally by Colonel Boles, E. L. Fuller, John Jermyn, L. A. Watres and the firm of Simpson & Watkins. They will be delivered at the train this morning and put in the express car with a horse to be taken along for Major F.

An Association of the Principals of City Schools is Formed.

NTELLECTUAL ADVANCEMENT AND INTERCHANGE OF VIEWS ON QUESTIONS OF EDUCATION, AND ALSO FRATERNAL MATTERS ARE THE OBJECTS OF THE ASSOCIA-TION-A BANQUET WILL BE HELD AFTER THE NEXT MEETING-FA-PER READ BY PROF. PHILLIPS.

The principals of the city schools nave organized an association and have called it the "Principals' Round Table." One day during the recent institute of city teachers, Superintendent Howell announced that a meeting of the principals would be held the same after-noon in one of the rooms of the high

school. The date was April 14. Over one-half of the principals at tended. D. A. Stone was chosen chaircan and stated the object of the meeting. He said that it seemed expedient to form an organization, the object of which would be intellectual advance-ment and fraternal engenderment. Perpiexing questions in school management and government often arise, and a free interchange of ideas results in much good.

Everyone present agreed that such an association was needed. A committee consisting of Messrs. Cruttenden, Hughes, Kemmerling, Hawker and Owens was appointed to draft a constitution and by-laws. The committee made its report at a meeting held on April 22. Henry Kemmerling was chosen prezident; Miss E. R. Steven-son, vice president; Miss Josephine D. Lees, secretary; and Mesars, Cruttenden and Hughes and Miss Hurley, a committee on programme.

THE NAME CHANGED.

The constitution fixed the regular meeting date as the second Monday of each month. Upon motion of Miss Stevenson the subsequent meeting, which was held yesterday, was held at No. 36 school. At yesterday's meeting the name was changed to the "Principals" Round Table."

A banquet will follow the next regular meeting on the second Monday of June. It will be at either the Jermyn or the Nash. A committee consisting f Messrs, Cruttenden and Hughes with the president and secretary was appointed to make arrangements for the anquet

Mrs. Torrey invited the association to meet at her house next. The invitation was accepted. Mr. Owens was elected corresponding secretary. The meeting concluded with a paper on the Relation of the Grammar School to the High school" by Prof. George W. Phillips. Mr. Phillips said that the different grades of a public school system are so closely related that the specific bearing of one toward another is not easy to define. The grade next below the high school should lean so close upon it that the pupil may come into his new environment with the least friction when he enters the high school. A knowledge of the requirements for this new condition should be one of the characteristics of the grammar school.

The age limit is not so much a consideration as it is sometimes regarded. When it is considered that a high school course usually covers a four-year pertod, it becomes highly necessary that the child enter upon it at an early age. especially in consideration of the fact

that many wish to take subsequent work along different lines. Professor Phillips believes that the grammar schools should not be imposed with the studies that properly be long to the high school. He believes that there is great good in promoting pupils from grammar school to high chool, and from high school to lege than from grade to grade. That the transition to a higher department of education always broadens the mind,
