## MUNYON AS A MAN.

# Munyon Never Doubts-Munyon Never Deceives-Munyon Never Hesitates.

MUNYON IS ALWAYS POSITIVE.

Everybody Associated With Munyon is a Munyon Enthusiast.

Munyon takes his own medicines and gives them to his own family. Munyon's professional and business associates are all Munyon enthusiasts. When first interviewed Professor Munyon I

fired this hot shot straight at him:
"I want to know, Professor Munyon,

"I want to know, Professor Munyon, if you actually believe what you say about your remedies?"

"I do—absolutely," replied the Professor deliberately, tightening the muscles of his strong face, "and I welcome your blunt frankness. I believe every word I say, and it is no blind faith, but positiveness that comes from actual positiveness that comes from actual knowledge. I have never introduced a medicine to the public until I was my-self certain of its efficacy, and I never claim that any medicine will cure any disease except the one for which it is a specific. It is this self-confidence—this total absence of doubt and evasion—that enables me to get and keep the confidence of the people. To advertise a lie, or to waver before any emergency,

#### HE IS WITH DEWEY.

#### Edward Martin of This City Nine Years in Active Service.

Carbondale's representative in the great victory at Manila is Edward Martip. He is a brother of P. J. Martin, of the Delaware and Hudson Iccomotive shop. He will be remembered by many of the young men of his own age as "Brunce" Martin, as he was familiarly called by the boys. He is now about twentynine years of age. He left here nine years ago and went to Buffalo, where he enlisted in the regular army. Not yet being of age he wrote home for the permission of his older brother the head of the family. Soon after his enlistment he was ordered west and took part in the last campaign against Sitting Bull. He saw bard service on the frontier for three years, and when his term of enlistment expired decided to change for the other branch of the service. He enlisted in the navy at New York six years ago and has been in active service on the water ever since. He sailed on the Adams with the South Pacific squadron two years ago and has been in China waters since. When Admiral Dewey left Hong Kong for Manila he did not take the Adums with him as it is an old wooder cruiser and would be of no use in a conflict. The crew was transferred to the other vessels, mainly the Baltimore and on that gallant ship Carbondale's sailor boy took part in the crushing detest of the Spaniards.

## THE MARKETS.

#### Wall Street Review

New York, May 14.-There was a very obvious disposition today in spekulative circles to leave the stock market alone, pending the development of the next move of the Spanish and American squadrons. Outside interest in the macket was small. The consequent losses in the international stocks decided the tone of the market. The offerings for Lon-don account were well absorbed in spite of the prevailing duliness and prices were lifted above the London parity. The strength of Sugar on the advance in the prices of the product and the favorable bank statement hardened prices in the second hour and wrought a few net gains, Fractional net losses were the rule at the close. The sales of stocks today were 148,500 shares. Furnished by WILLIAM LINN ALLEN
