THE MARKETS.

Wall Street Review New York, May 18 - The sull compaign manusurated yesterday on the Stock ex-hange promised well during the early part of today, but before the close the advantage gained carlier had all been loss rel prices as a rule were lower than last light. At the opening the bull continnlight. gent had to face a series of declines for Americans in Lendon; but the early adcance was continued with vigor and confidence, led by People's Gas and Rock Island which gained about 4 per cent.

each. The Grangers all showed streighth except Rock Island. The unsettled ione of Tobacca and the large volume of transactions in it gave the first check to the advance. When very heavy offer-ings of Sugar were joined to those of

Tohacco, the buil campaign received an offectual check for the day and was not renewed. The weakness in Sumar and Tobacco became more pronounced as the day progressed, the extreme decline in both stocks reaching to within a small fraction of 4 points. This proved too heavy a burden for the market to carry and prices fell away in a very dull market until near the close when there was some animation on realizing. Total sales were 25.100 shares.
