Fourth District Sewer Again Caused Great Injury on Phelps Street.

OUNCILMAN GILROY ADVISED PROPERTY OWNERS TO BRING SUITS AGAINST THE CITY-WASH-VINE-EIG PIPE DRAIN ON THE SOUTH SIDE RENDERED USELLSS. CULVERT UNDER WASHINGTON AVENUE NEAR ELECTRIC BECAME

That Fourth district main sewer is again causing trouble or rather wa Thursday night and words both loud and deep were uttered yesterday by the exasperated residents of Phelps street about that same sewer and Common Councilman Gilroy. Both are blamed in about equal proportions for the sufferings the Phelps street property owners are compelled to endure.

Yesterday the men whose properties were flooded Thursday night were engaged in scouring them and putting them into presentable shape again. A sorry, disagreeable task it was. Water had to be bailed out of basements and then several inches of mud with the consistency of glue must necessarily be scraped and washed off walls and floors. It was a difficult task to remove the effects of the flood and it is small wonder the exasperated property owners gave full vent to their feel-

Almost each succeeding year they have been annoyed and injured by floods of greater or less proportions and yet adequate relief seems to be some distance away. Councilman Gilroy visited the flooded district Thursday night and when the property owners protested against the public policy that permitted such an occurrence, the city father advised them to sue the

"Make them settle; sue them at one and ask enough; that's what I would do," said the councilman.

"That's what you did do," replied one of the property owners, to whom this advice brought little comfort.

GARDENS DAMAGED. Aside from the damage done to build ngs, many of the gardens back of the ouses had the rich top surface washe away and the growing crops ruined Good-sized bills of damages will have to be paid by the city to these injured property owners. Permanent relie from the annoyance is what they just y demand, however.

The Fourth district main sewer ha been a constant source of damage sine t was constructed. Within the las few years councils would probably have projected legislation to greatly dimin sh the possibility of such damage a that wrought by Thursday night's storm but for the lack of tact shows by the common councilman from the

For several years Mr. Gilroy has de voted himself with great energy to two things: Securing the payment of the damage claims resulting from the grading of New street and funds for the opening of Wyoming avenue. To obtain the latter especially he has an tagonized all forms of public improve nents in all parts of the city and stated on the floor of the council that he would attempt to defeat any prope sition that did not provide funds for

The death of one of the viaduct ordi nances is due largely to his efforts and since then the West Side council men have been arrayed solidly agains him. To say in councils that a meas ure is fathered by Gilroy is usuall sufficient to secure its early and vio-

## ITEM CUT OUT.

When an effort was made by him t have included in the last appropriation ordinance an item of several thousand dollars for the repair of the Fourth dis trict sewer it was one of the early item: cut out. Subsequently \$611 was restor ed for that purpose, the city enginee and street commissioner assuring the estimates committee that so much money was absolutely needed to make improvements where the sewer passes under Washington avenue.

The committee also gave much weight to the urgings of Select Couneliman Roche, of the ward, who vigor-ously protested against leaving the sewer in the shape it was in. work of making repairs is now in progress and was not damaged by the freshet of Thursday night,

The property owners of Phelps street feel that they have suffered quit enough and are discussing the advisability of appointing a committee to la their grievances before councils and ask for immediate and permanent re-

But Thursday night's storm did oth er damage. It washed down the side of the North Main avenue filling at the Mount Pleasant ravine and creat ed a new expense item of several hun dred dollars. The dirt was washed from beneath the sidewalk on the eas side of the avenue and into the sewe below. A cribbing will have to be built on the bank to hold in place the new filling.

# BIG PIPE BROKE.

On the west side of the Stafford Meadow brook culvert, which runs be neath Pittston avenue, a 29-inch iron pipe, leading from the street catch basin to the culvert channel, was brok en by the force of water and dirt. The filling beneath the sidewalk washed away or into the broken pipe A big expense is involved in making

epairs at this point. Near the northern terminus of North Washington avenue the culvert beneath that thoroughfare near Electric avenue became blocked. In a few minutes a small lake of from five to ter feet in depth was formed. The water overflowed the dam made by Washington avenue and created more or leshavor before it found its way via the Delaware street sewer into the river, To chronicle the flotsam and jetsam distributed about the city and to enumerate each individual loss or damage would require a page in The Tribuns Everything connected with the downpour considered the cause of the dis-

The old brick yard bed in the field between Eynon and Elm streets is a lake, and great quantities of cat-fish can be had for the effort.

# DEATH OF MRS. HARRIET THROOP.

the Was the Widow of the Late Dr.

B. H. Throop. The death of Mrs. Harriet Throop, although not unexpected since she has been in a serious condition for some ime, still came as a great shock to her many friends yesterday at noon. Although having reached what is considred extreme age, her intelligent mind and lovely spirit had lost nothing of their charm through the years. Mrs. Throop was born in Ellington, Conn., January 31, 1817. She was married in Schuylkill Haven in 1842 to Dr. B. H. Throop, who later became one of the pioneers of Scranton, and one of the venithiest citizens.

A strange and rapid fatality has camed to pursue the family, as now from a household containing father, nother and five children but one, Mrs. Mary Phelps, and a young grandson. Fenjamin, son of the late Dr. George throop, remains.

Mrs. Throop was beloved by a vast ircle of friends who appreciated her trace and gentleness. Her Christian ife was one of great activity in spirital and practical experience. She has een for many years the honored presdent of the Woman's Guild in St. cike's church, where her assistance and counsel will be greatly missed.

St. Luke's parish has recently been rely afflicted in the death of many rominent parishioners and general regret is felt over this latest blow. The little family remaining-the inalid daughter and small grandsonare left lonely indeed on the earth.

### LARGE DAMAGES ARE ASKED.

#### ceple Trespass Suit Was Heard Before Arbitrators.

There was a hearing yesterday afteroon in the arbitration room of the ourt house in the trespass suit of Mrs. Winifred Teeple, of Mayfield, against he New York, Ontario and Western Railway company. The case is subsitted to arbitrators and they are Atorneys M. W. Lowry, George D. Tayor and W. H. Roe, Attorney C. P. Malley, of Willard, Warren & Knapp, ppeared for the plaintiff, and Attorey J. E. Burr for the defendant.

The action is for \$25,000 damages for he death of Andrew H. Tceple, husand of the plaintiff. She is including ter five minor sons as plaintiffs. Mr. Teeple was a brakeman in the employ of the defendant company, and on Dec 1897, he was killed on the branen anning from the main line to the Raymond colliery in Winton.

It is alleged that the accident was sany. The evidence brought out yesday was for the purpose of showing that a brake gave way when he was to the plaintiff's. wisting it, and thus was precipitated under the cars and killed.
