# GETTING READY FOR

#### General Shafter Too Busy to Send Word to Washington.

PRESIDENT M'KINLEY AND SECRE-TARY ALGER BOTH HIGHLY COM-PLIMENTED THE GENERAL'S RAP-ID WORK AND ANNOUNCE THAT HE IS UNDER ORDERS TO DO AS HIS JUDGMENT DICTATES.

Washington, June 28.—Though there were the usual number of officials for a Sunday at their desks in the war and navy departments today there did not seem to be any expectation of important news from the scat of war. Secretary Alger explained this readily. In his view, the army has been moved, one of those stages incident to the progress of all campaigns and is now effeeting a new formation. The reports show that there is only one road, and that a poor one, from the sea where the troops landed leading to Santiago. Along this the army necessarily has been obliged to move in a single col-Strong reconnoitering forces were prudently thrown out ahead and it was these that engaged in the action of Friday morning. They developed the presence of the enemy in force directly shead and drove in their advance guards. Before undertaking a set battle our army must be formed in regular battle array, not single column front as it advanced along the road, but in broad open order across the country, the only feasible manner of conducting a battle successfully, As part of this plan the advance must halt and wait until the rear guard comes up. In the secretary's opinion this was going on yesterday. The forces left at Baiquiri were being hurried up to the front near Savilla, where the Spaniards are supposed to be in force: the field artillery was being drauged up the rough mountain roads and the quartermaster was hurrying along the stores as fast as they could be landed from the transports. this is very necessary, but not such as would call for an official report from General Shafter.

#### PRESIDENT GRATIFIED.

To say that the president and Secretary Alger are gratified with the success that has so far attended the progress of Shafter's campaign would be stating the case mildly. The president in quick appreciation of General Shafter's energy has sent a cablegram congratulating him and the men composing his army on the excellent work they have done. The message could not be obtained here, the officials taking the ground that it would be proper for General Shafter alone to make It public, but it is known to be couched in terms of praise. Secretary Alger added his tribute today in the course of a short talk with an Associated Press reporter. He said he felt sure Shafter would prove himself to be a wise, brave and prudent general. He was particularly impressed with one short statement in Shafter's despatch received yesterday, stating that he wanted nothing, which the secretary regarded as an evidence of the self reliant character of the man.

Nevertheless, the secretary is sending along reinforcements with all possible promptness. It is a good deal better to have 1,000 too many soldiers than one too few, in his opinion. He believes that General Duffield's troops, to the number of 1,300, which emfour days ago from News, will arrive at Balquiri tomorrow and within four days 3,000 more troops which leave Fort Monroe today will be at the scene of action. In addition, there will be a further movement of men and transports are ready. Possibly General Miles may go with these If the troops are not needed when they arrive, nothing will be lost, for they can be very well employed elsewhere and will have the advantage of season ing. The secretary took occasion to state again that General Shafter is be ing allowed the widest liberty of action, unrestricted by unnecessary or ders from Washington. He thinks the wisdom of this course is amply justi-fied by the results so far obtained. For this reason, it is not possible to accurately foretell General Shafter's plan of operations against Santiago, but the matter being largely in his own hands.

# OPENING COMMUNICATION. General Greely, chief signal officer,

received a dispatch last night from Licutenant Colonel Allen, in charge of the signal corps, with Shafter's army He said nothing about the military operations, but stated that he was del Este to Aquadores, which is only half a dozen miles east of Morro castle and very much nearer the advance of the American army. This will be done by a shore cable which already exists

between the two points.

A field telegraphic service has already been dispatched from Tampa, so that in the course of a few days at most General Shafter will have a telegraphic instrument in his own tent putting him in direst communication with Washington. The little band of signal corps men have been doing some of the most energetic and exhausting work of the campaign. The cable operators are also deserving of the greatest praise. There are only two at the cable terminus, which means turns of twelve hours each of the hardest kind of work under the most trying conditions of weather. General Greeley already has taken steps to have them assisted by other operators as soon as

# the latter can be gotten there.

APPRECIATIVE WORDS. Naval officials are gratified with General Shafter's expression of appreciation of the assistance he has received from Admiral Sampson, Assistant Secretary Allen has been striving earnestly to precure for the general, the tenders he desires for landing the heavier supplies of the army and the siege train. He has just secured several colliers at Key West, which on account their light draft serve admirably as tendors. These have been ordered to steam with all speed for Baiquiri. They should reach there by Wednesday. They are not fitted with heavy derricks such as the tenders carry but have material aboard which will enable Sampson's sailors to convert them speedily into powerful lifting machines capable of handling the heaviest cannon carried by the expedition.

### BOH ETANS ALL RIGHT.

The story printed by an English newscaper of the killing of Captain Bob Evans and some of his men in the cernium tower of the lows by a shell of the Spoulsh cruiser Vizeaya, is pronounced at the may, department to be Marcons ....... 0 5 2 5 0 0 0 0 0 -12 a cruel capars. crives from Sampson today and with a cable line near him, it is not imag-THE FINAL ASSAULT ined for a moment that he would fall to report immediately an occurrence of such gravity. Probably the sole foundation for this story was the attack made about a week ago by Sampson upon the forts at the entrance of Santiago harbor in which the Spanish cruiser, Reina Mercedes, was sunk and ne of the Spanish to pedo boats disabled. The report originated in a Span-ish source and the officials of both the war and navy departments are expecting that numbers of such canards will e put affoat throughout the campaign. The Spaniards proved their alertness at

this work yesterday. The war department, following the satisfactory example set by the navy department, has instituted a system of pulletining for the benefit of the public giving quick and concise information of important happenings. The first of these bulletins made their appearance vesterday giving Shafter's brief account of the driving in of the Spanish outposts. The newspapers had scarcely received this information before the Spaniards got out a bulletin from Captain General Blanco announcing the repulse of the America forces. The war department officials are somewhat discouraged at the prospect of having to meet this sort of bulletin service with a simple recital of cold facts.

#### AMATEUR BASE BALL.

#### Y. M. C. A. Defeated Minooka Saturday Afternoon at Athletic Park.

Undoubtedly the best game of ball thus far seen at Athletic park this season was played on Saturday afternoon between the Young Men's Christian association and Minooka clubs. The rain storm kept the patrons from the game, and twice the players abandoned practice before 4 o'clock, but ten minutes after that hour the storm passed over and left the diamond in excellent condition, but the outfield was rather slippery, making fielding difficult.

The features of the game was the pitching of Matthewson and O'Nelll. the former allowing only four hits and three bases on balls, striking out ten batsmen, while O'Neill gave nine hits. no bases on balls and struck out seven men. Running catches by White, Laffy. Philbin and Hastings were clev-Newport | erly made, Philbin accepting six out of seven chances in center. But one at the fly was hit to the Young Men's Christian association outfield, which proved the effectiveness of their pitcher. Minooka's runs were scored in the troops to Santiago just as soon as the fourth inning on two bases on balls, a

Crickets Defeat the Marcous. The Maroons and the Crickets, of Jessup, entertained a small crowd of base ball enthusiasts in the Minooka ground yesterday. The centest was marked by good stick work and some loose fielding. The home team took a lead in the fourth inning and retained it up to the eighth, when the visitors bunched their hits and passed their opponents by one run. The Marcons did not put up the game they

are capable of. Score:
