WILL UNCLE SAM WIN?

That Is the Question That the Cale-

As usual the Caledonians will have

their annual athletic games this year,

and many new features will be seen.

They will hold forth at the Driving

park on July 4, and have a great com-

prove most interesting is the obstacle

race. There will be high fences to go

over, low ones to crawl under, barrels

to get through and clothes to put on.

Among the clothes will be an Uncle

Sam suit and the committee would, no

doubt, like to see the winner wear the suit of Uncle Sam. By all means he

THIS AND THAT.

Last night when Mr. James L. Connell returned from a day's outing at Lake Henry he was surprised to find several members of his family cocupying perilous positions on the roof of his handsome it seemed that the entire bill in the locality surrounding Clay avenue was swarming with boys. It transpired that about 7.39 a Spanish flag was discovered floating from Mr. Connell's residence and immediately a "regiment" under the com-mand of General Charlie Whyte, Colonal C. Bass and Lieuterant Sullivan proceeded to march on the offending object. The youngters carried American ar Cuban flags which were followed by two field pieces. The "soldiers" took possession of the house and pulled down the Spanish flag when it was used as a mat by sev-eral indighant efficers. It was ther burned in the presence of the throng, atter two small colored boys, who had expressed a desire to have it for a tent were taken into custody. Of course all this excitement was the result of a joke perpetrated on Mr. Council and there is every reason to believe that his brother Mr. C. R. Connell, was the instigator of the plot. At any rate it has been many moons since the boys on the hill have and so much fun, and the event is set down their calendar as worthy to be placed along with the Fourth of July.

DENTLER'S WORK HERE IS FINISHED

Has Closed the Recruiting Quarters in the Mears Building.

CAPTAIN ELLICOTT, OF PHILADEL-PHIA, IS HERE TO MUSTER IN RE-CRUITS FOR REGIMENT OF EN-GINEERS-NAMES OF MEN BELECT-ED YESTERDAY-EXAMINATION IS RIGID AND ONLY VERY INTELLI-GENT MEN, SOUND PHYSICALLY ARE ACCEPTED.

Lieutenant Dentler closed the recruiting office in the Mears building yesterday at noon and almost simultaneously recruiting quarters for the First Volunteer Corps of Engineers was opened at the armory on Adams avenue, with Captain Eugene Ellicott, of Philadelphia, in charge. Dr. C. L. Ferrish, of the I niversity of Pennsylvania, accompanies Captain Ellicott as examining

When Lieutenant Dentler closed the loors of his recruiting office yesterday eight more men had been enlisted and today at noon a detail of thirty-one men will be sent on to Fort Me-Pherson, Atlanta, Ga., to join those who have preceded them. These thirty-one make a total of 175 recruits from Scranton and immediate vicinity, It was three weeks yesterday since Licutenant Dentler began his work, assisted by Sergeant Harrington and Privates Brown and Emery. In comparison with Wilkes-Barre, the only other city visited, it might be said that it took four weeks' good hard work to get 151 men down there and the class of recruits does not compare with those sent from our own town.

DENTLEKS ORDERS.

Last Saturday Lieutenant Dentler received orders to stay long enough to get 180 more men. Sunday evening orders came to stop recruiting. Thus he la ks 149 men of having the 180 and the regiment now has 1.123 instead of 1,272, as it would if the lieutenant could have staved a few weeks more.

As it is, the Eleventh goes to Porto Rico, its probable destination, with more than most of the regular infantry Over at the armory thirty-five re-cruits enrolled by C. C. Conkling, for

the Engineer corps, were examined and up to 5 o'clock nineteen had been passed. Mr. Conkling had exercised great care in selecting his men, but he physical examination was on a par with the regular army, very rigid. Part of those recruited will be sent to Peekskilt-on-the-Hudson and another detail will follow tomocrow. They leave here on the 8 o'clock Delaware, Lackawanna and Western train.

Captain L'ilicoit will be here only a ew days. He wants all the men he an get. They must be strong, moral and physically sound, fairly well educated, and of good intelligence. He takes all recruits as second-class and the grading comes after the corps is organized and officered. It tests with the individual as to what class he remains in. The percentage of engineeers us compared with other branches of the service is small, but they must be above an average in point of capabildelight in the instruction of these little lity and intelligence. Most of the men people and finds his reward in the secured at Philadelphia were college
