The sixteenth annual commencement exercises of the Holy Rosary academy and parochial school in St. Mary's hall last evening was, as heretofore, a brilliant achievement on the part of the pupils of the school and their teachers. The hall was crowded to the doors and, despite the sweltering heat, not a word of complaint was registered by the good-natured crowd. The clergymen present, who were seated near the stage, were the Rt. Rev. Bishop Hoban, Rev. Father Quinnan, of Pittston; Rev. J. J. B. Feeley, of St. Peter's cathedral; Rev. P. J. The programme was opened by a national march executed on pianos by Musters James Casey and David Fitzserald. This was rendered in a superb Style and was received by the throng with a whirlwind of applause. Then followed a march, entitled "Greeting," on the plane and played by Miss Anna Golden in an excellent manner. This was followed by one of the most interesting features of the evening, namely, the conferring of graduation medals and diplomas upon the graduates, of whom there were two, Misses Nellie Moran and Anna Golden.

This task fell to the lot of Rt. Rev. Bishop Hoban, One of the patriotic features of the evening was a song, entitled "Marching to Cuba," rendered by a number of little boys and accompanied on the plane by Master James

"Trot of the Cavallers" was given on pianos by the following young ladies: Misses A. Golden, C. Heffren, K. Sullivan, Hazel Davis, Margaret Noon, Clara Wells. Heffron: mandolin, Miss K. Jordan: pianos, Misses K. Sullivan, A. O'Connor, M. Flanagan. They were compelled to respond to an encore. A march, "Roys of '98," was cleverly rendered by Miss Anna Golden.

The seniors next executed a sword drill and recitation in a way that draf cemetery, evoked hearty applause. "The Fairies" Carnival," an operetta, was given by a large number of the pupils arrayed in costumes of dazzling brilliancy which added much to the gayety of

STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

Mrs. JOHN WILLIAMS, Englishtown,

N. J., writes: "DRAR MRS. PINEHAM:-I cannot begin to tell you how I suffered before taking your remedies. I was so weak that I could hardly walk across the floor without falling. I had womb trouble and such a bearing-down feeling; also suffered with my back and limbs, pain

in womb, inflammation of the bladder, piles and indigestion. Before I had taken one bottle of Lydia E. Pinkham's Vegetable Compound I felt a great deal better, and after taking two and onehalf bottles and half a box of your Liver Pills I was cured. If more would take your medicine they would not have to suffer so much." Mrs. JOSEPH PETERSON, 513 East St.,

Warren, Pa., writes: "DEAR MRS. PINKHAM:- I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb. I had the backache constantly, also headache, and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would bent so fast I would feel as though I was smothering. I had to sit up in bed nights in order to breathe.

"I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound, and used three packages of Sanative Wash, and can say I am perfectly cured. I do not think I could have lived long if Mrs. Pinkham's medicine had not helped me.'

THE DIVINING ROD.

From the St. Louis Globe-Democrat.

Sometimes Is Successful in Water Searches and Sometimes Not.

The pros and cons of the theory of

the divining rod are again being dis cussed in the English newspapers. The superintendent of a fire brigade testi-fles to a case within his experience in which a water finder was commissioned to operate on an estate of the exist-ence of which he was previously ignorant. He got to work, soon found the presence of water, and fixing upon the nearest and most conveniently placed spring, gave the probable depth at which water would be discovered i sufficient quantities as 75 feet. At 7 feet the water came in, and at 77 op erations had to be stopped, as the flow became too heavy. Some of the tools had to be left in the well, as there was not time to remove them all. The well supplied the cattle, horses and pigof the farm on which it was bored through the dry summer of 1896, never failing in its flow, Twelve months of ter a second well was sunk, barely a stone's throw from the first. The water finder was asked if one stream would affect the other, as they were so near, He replied: "No, they are two disincly different streams, running in lifferent directions." The second well was as successful as the first. This corespondent regards the power to find water as the result of a force, magetle or otherwise, over which the findr has no control and which he is unble to explain. He also says that the operation of finding water produces a narked degree of nervous fatigue in the operator. On the other hand, the liscomfiture is announced of a professional water finder who made a tour in the Island of Jamaica, where in the dry season water is a precious boon. He traveled through the island, rod in

hand, but met with little success, At one village in the Santa Cruz mountains he pegged out part of the course of a subterranean stream, and then retired to lunch at a neighboring hotel In his absence some wags removed his egs and lined out a totally different ourse. On his return the diviner took up the new direction and continued for 100 yards, not discovering his nistake until it was pointed out to him. At one point where he predicted water at a depth of 40 feet there was no sign of it when 150 feet had been bored, and after going down 200 feet the borer could not be extracted. The same result occurred in many other places, and finally the diviner left the island abruptly. People are now asking who is responsible for the money
