THIS AND THAT.

Dr. and Mrs. Gates are enjoying a visit from Mrs. Gates' father, Rev. Ransom Dunn. Yesterday was his eightieth birth-day, and telegrams and letters of congratulation were received from friends in various parts of the country. Dr. Dunn has been over 60 years in the ministry. and more than 40 years a professor in Hillsdale college. One of the features of the commencement was the presentation to Dr. Dunn of a gold headed cane and of a volume of autograph testimonial letters from many friends. These letters from ministers whom he has baptized and prominent professional and business men who have been under his instruction, are interesting souvenirs of a long and useful life with wide influence. Friends who have met Dr. Dunn while in the city called last evening at the home of Mrs. Gates to greet this able and interesting gentieman. They find him far from an old man, but full of vigor of intellect and rich stores of knowledge and a fine sense of humor, making him a most agreeable companmaking him a most agreeable compan-ion. He is an eloquent public speaker. Dr. Robinson, of this city, heard him when a young man, and says that the sermon left a deep impress on his life and influenced his decision to become a preacher. Dr. Logan also knew of the work of Dr. Dunn in the days when both were ploneer preachers in the west.

A recent issue of the Atlanta Constitu tion containes an article about an interesting collection of photographs of naval officers owned by Hon. Henry T. Dunn, present collector of customs for the port of Brunswick, Ga., who is an uncle of Attorney Arthur Dunn, of this city. Soldiers' Relief Association Receiving Many Applications for Aid.

The announcement that a meeting of the executive committee of the Soldiers' Relief association was to have been held yesterday was a mistake, It was not intended to meet until Thursday of next week.

An evidence of the urgent need of relief was shown in the five new applications received yesterday. While they have not been investigated each case appeared to be a deserving one. The relief committee has at its disposal about \$800 in cash and \$1,500 in sub scriptions. It is apparent that the cash and subscriptions will be soon consumed and that the relief committee's responsibilities will increase the longer the regiment remains away. On this account an effort will be made at once

to secure new subscriptions. While Hon. Alfred Hand, president of the executive committee, is out of the city, his office will be filled by the vice-president, Captain W. A. May.

SELECT COUNCIL REFUSES TO ACT

Will Not Furnish School Board with Copy of Assessment.

FACTS INCONTROVERSYSET FORTH IN A REPORT PRESENTED FOR THE JUDICIARY COMMITTEE BY SANDERSON - RESOLUTION THAT ACCOMPANIED THE REPORT. A COPY OF THEM WILL BE SERVED ON THE BOARD OF CON-

As predicted by The Tribune after it had given proper publicity to the matter, select council has given a black eye to the board of control's proposition that the city furnish for the board's use in recording the school tax a copy of the recent assessment. The resolution requesting the copy involves an expenditure of \$800 and much trouble instead of a cost of \$100 and little work under the previous system.

The pertinent facts in the controversy are contained in a report made by the judiciary committee of select council last night. The report was read by Mr. Sanderson and is, in part,

The section of the act on which the demand is based is as follows, viz.: "The city clerk or other competent person authorized by city councils shall make for the use of the school board a true copy of ompleted assessment and shall duly

certify the same to the said board,"

Nowhere in the act does it provide for compensation for this work. The city clerk is an officer of the city created by act of legislation, elected as prescribed therein and his duties are clearly de-fined and his salary fixed. This act atempts to add to those duties, which, if he is compelled to perform, he must perform under the salary he now receives-in other words, he must do tedious and expensive work for another corporation, which derives its own taxes and is sup posed to pay its own expenses, under the salary he receives from the city.

NO APPROPRIATION. No appropriation has been made for this purpose and none ought to be, except un-der the stress of necessity. It has been decided that where additional duties are mposed on an officer without provision

for compensation, he must perform them nder his existing salary. But the act allows the authorization by city councils of another "competent per-son." It seems to your committee, there-fore, that, as this is work for the benefit of the board of control, that competent person is the secretary or other person designated by the board and we herewith

eport a resolution to that effect.

As the city, if it acceded to the deand of the school board and directed he city clerk to do the work, might pos sibly be put to heavy expense, as a mat-ter of justice to its clerk and as we can-not think the board was aware of the results, we take the liberty of laying be-fore councils some of them: Heretofore column has been left in the tax duplicate for the insertion of school taxes which has been done by the secretary of the board at a cest of \$100. In this chape they have been handed over to the city treasurer and have facilitated the work in his office by having but one set of books to refer to. If the board follow their present intention, the city treasurer will have to search two sets of books r go to the expense of money and time n having them copied into one book.

We are informed by the city clerk that the copying of the assessment books would involve an expense of at least \$400; that the cost to the school board of making the duplicate would amount to as much more and thus an additional cost o the taxpayers of \$700 over the cost f the old method, which was \$100, would e incurred. We are further informed that copies could not be furnished inside of twenty-live days, that twenty days yould be consumed in making the duplicate and at least ten days would be ne ssary for the city treasurer to copy them into one book, or nearly two months before taxes could be colected. If one person attempted to copy the assess-ments and make the duplicates it would

take three months. JUSTICE OF DEMAND.

In view of these facts it is difficult your committee to realize the jusice of the demand of the school board. t seems to us that the board was not aware of the attendant expense to the taxpayers and that due regard for their interests would at least permit the fol-lowing of the old method at a cost of \$190 gainst a cost of \$800 if the new is fol-

The following resolution recom mended by the committee accompanied the report: "That the secretary of the poard of control of the Scranton City School district or any other compe tent person designated by said board is hereby authorized to make copies for the use of said board, of the city assessment books for the current year; provided that said copies must be made in the city clerk's office from which the assessment books must not be removed, and, provided further, that the city shall be liable for and put to no expense on account of said copy-

The report and resolution were adopted along with Mr. Roche's amendment that a copy be served on the board of control.

CAPT. MAY DECLINES.

Would Be Unable to Accept Command of the New Regiment.

Captain W. A. May, ex-commander of Company D. Thirteenth regiment, who has been suggested for the colonelcy of the regiment that is to succeed the Thirteenth, would not accept the port if it was tendered him. He made that statement to a Tribune reporter who questioned him yesterday on the subject.

"While I feel honored by being menioned for such a conspicuous and responsible position," said Captain May, I could not accept it. My duties as a business man are too exacting to permit even a consideration of the thing and they are steadily increasing. If I more independently situated I would feel differently about it."

Captain May remarked, as a comment, that his position in the matter was so well understood that his name would never be formally suggested for the command, much less would it be offered him.
