THE SCRANTON TRIBUNE-THURSDAY, JULY 14, 1898

THEY THINK TORAL This is the Opinion Now Prevalent in dent.

FIRST REPORTS FROM SANTIAGO WERE NOT SO ENCOURAGING. SHAFTER PEREMPTORILY OR-DERED TO QUIT HIS DICKERING AND GET DOWN TO BUSINESS. SHOWS THAT HASTE MUST BE MADE.

Washington.

82

Washington, July 13 .-- While the longexpected fall of Santlago did not take place today, it is evident that the crisis has been reached. Within the next twenty-four hours Santlago will either surrender or receive such a paptism of fire as seldom falls to the lot of a besleged town. "If he refuses I will open on him at 12 noon tomorrow with every gun I have and have the assistance of the navy, who are ready to bombard the city with 13-inch shells." That is the programme laid down by General Shafter and it is to be carried out to the letter. General Shafter is still commanding, according to the war department officials, and although dispatches have been received from Major General Miles, signed major general commanding, it is said that he has not displaced General Shafter in direct charge of the operations.

The public in one of these telegrams from General Miles was given the first notice that our government in the course of negotiations with General Toral, had offered to send the Spanish forces in Santiago back to Spain. A few days ago it was stated that the president would insist upon unconditional surrender, but it appears that conditions had been modified, as indicated by General Miles. This was done from a desire to avoid useless bloodshed for General Toral's army, removed to Spain, would be harmless to prevent our further operations in Cuba and would serve as good a purpose as would the destruction of the Spanish army. To allow the Spanish general to withdraw to the interior and fall back on Havana, on the other hand, would put us under the obligation of overcoming that additional force when it comes to the siege of Havana.

ANOTHER OBJECT.

Our government also is moved to make this proposal to remove the Spanish forces to Spain through a strong desire to close up the operations at Santiago at the earliest possible moment. This desire has been materially strengthened by the appearance of yellow fever within the American lines. It was at first supposed that the men were falling ill with malaria and climatic fever, so the cases were reported as simply suspicious. Now, however, comes the final admission that they are genuine yellow fever cases. Their appearance has determined the authorities upon a more active prosecution of the campaign.

Orders either have or soon will go forward to General Shafter to discuss no more with the Spanish commander the terms of surrender but to proceed to assault the town with all the force at his command as soon as the present truce expires. It is expected by Shaf- ian. ter that the navy will co-operate and while Secretary Long has received no direct advices on that point from Admiral Sampson, he fully credits this expectation. Reluctant as the war department is to sacrifice the many lives

that might be lost in an assault it is

thought at first that this first outward show of force on the part of the Ger-man ships might lead to an inquiry by WILL SURRENDER this government as to the purposes of Germany. Thus far, however, there is no disposition to make such inquiry or to attach serious import to the inci-

DISPOSITION OF PRISONERS.

President Is Inclined to Send Them Back to Spain.

Washington, July 13.-The disposition of the prisoners of war held by General Shafter is a matter to which the president and Secretary Alger have PRESENCE OF YELLOW FEVER been giving considerable attention. The putting of them aboard several of the transports and sending them to Spain has been discussed. To forward them to their native land would remove the possibility of the men again taking arms against the United States and would relieve General Shafter of a burden which he should not be compelled to carry. Already he has enough refugees on his hands to absorb all the rations which he can at this time spare. The probability seems that the question of the disposition of the prisoners may be deferred temporarily until the fate of Santiago has been decided.

HOPE OF RESCUE ABANDONED.

None of Victims of Tunnel Accident Can Be Recovered.

Cleveland, O., July 13 .- All hope rescuing any of the victims of the water works tunnel disaster was given up late this afternoon. A rescuing succeeded in penetrating the party tunnel 6,100 feet. This is within about 400 feet of where the bodies of the leven victims are supposed to lie. The men who entered the tunnel today stated that after reaching 6,100 feet they found their passage blocked by wreckage, caused by the force of the

explosion. The tunnel is still filled with danger ous gas and several members of the party who went in today were brought o the surface in an unconscious condition.

----**KRUPP PROCESS A SUCCESS.**

Test of Armor Plate Made Under It Results Successfully.

Washington, July 13 .- The ordnance bureau of the navy department today tested a six-inch steel plate made by the new Krupp process. The plate was manufactured by the Carnegie com-pany and is one of the first samples of the kind which has been tried. It was tested by Carpenter projectiles fired from a six-inch gun. The first shot at a velocity of 2,050 feet per second was shattered upon the plate. The second shot at 2,239 velocity went about half way through the plate. The point of the third shell at

plate.

New York, July 13,-The firm of D. 5. Van Aken & Co., have been awarded a contract to build docks and a short railroad at Santiago de Cuba to facilitate the movement of American troops. The government has placed at the disposal of the men who will leave as soon as possible, the ship Rouman-

mechanics and 250 laborers and they will carry material for building docks, floats, railroads and for dredging,

deemed to be better policy to make it than to allow the men to rot away with fevers and other diseases during the long period that would be required to perfect the reduction of the city by a long investment.

SURRENDER EXPECTED.

An expectation is still entertained here, however, that this assault will be unnecessary, through Toral surrendering before it begins. It was, perhaps, the spread of this belief, caused a knowledge of the more energetic steps in prospect, that tended to remove largely the feelings of depression manifested at the opening of the day upon the circulation of rumors of the appearance of yellow fever in the American camps.

Regarding the future of Santiago nothing has been officially stated but it is significant that orders were issued from the department this afternoon to prepare the First and Second regiment volunteer immunes for immediate departure for the front. This would seem to be indicative of a purpose on the part of the government to garrison Santiago with these fever-proof men after its capitulation, thus permitting the removal of the regular troops to more healthy points.

GOOD NEWS FROM DEWEY.

Turning to the far east it was refreshing to receive today good news again from Dewey. In fact it is beginning to be remarked that that officer is usually able to make felicitious The administration is very reports. much pleased with the readiness shown by the admiral in meeting the grave issue presented to him at Subig bay and just reported as he did. Naval officers, too, were not a little gratified at the speedy retirement of the German cruiser Irene, after the appearance of the Raleigh and Concord. A comparison of the ships shows that the Irene was much the superior to either of the two American vessels and in tonnage was almost as large as the Raleigh and Concord together From this it is inferred that the retirement of the Irene was from motives of general policy, rather than from any indisposition to try conclusons with the two American ships.

In official quarters here there appears to be no disposition to look upon action of the Irene as a menace which will require explanation. It was
