This will be promptly done.

The surrender of General Toral not only means the fall of Santiago, but by the terms of surrender the whole eastern end of the island falls into the hands of the United States without firing a shot. The terms of surrender include that Toral must relinquish his arms and refrain from destroying the fortifications.

The Inspired View Taken in Germany of Irene Incident.

SC.3 ANTON, PA., FRIDAY MORNING, JULY 15, 1898.

MOUTHPIECE OF GERMAN OFFI-CIALDOM SAYS THAT DEWEY HAD NO RIGHT TO FEEL MIFFED BE-CAUSE THE GERMAN COMMANDER DECLINED TO RECOGNIZE THE PHILIPPINE INSURGENTS AS BEL-LIGERENTS.

Berlin, July 14 .- The Cologne Zeitung denounces the story of the German warships Irene interference at Subig Bay, Island of Luzon, Philippines, as a fabrication.

The Lokal Anzeiger says the Amercans are unreasonably excited about the Irene incident. Even if it occurred, as Admiral Dewey reports, the Irene did not interfere but retired immediately upon the arrival of the Americans. Therefore every courtesy was shown that the Americans have any

right to demand of a neutral country. But, if the Irene did prevent Aguinaldo's landing it is no business of Dewey. If the American admiral sees fit to make common cause with the insurgent chiefs, it is none of our affair. Germany still preserves her neutrality towards Spain and does not intend to recognize Aguinaldo and his horde as belligerents. The matter is so plain that we do not believe any diplomatic step will be taken, and do not doubt for a moment but that the

American officials will admit the correctness of the German proceedings. The foregoing is believed to be in-

MILES AND TORAL HAVE CONFERENCE

Dramatic Meeting on Wednesday Between the Two Commanders -- Toral Explained Why He Was Compelled to Refer to Madrid.

Before Santiago de Cuba, July 13 (4 p. m.), via Kingston, Jamaica, July 14 (1.30 p. m.)-White flags still flutter over the opposing lines. The truce has been extended until tomorrow noon and negiotiations looking to the surrender of Santiago are proceeding. Both sides have yielded somewhat, General Toral, the Spanish commander, realizes the hopelessness of further resistance, and the American commander, General Shafter, is inclined to reduce the harshness of the terms which he at first proposed to impose upon the enemy.

It appears that on Monday General Shafter did not again ask the uncon ditional surrender which General Toral had refused on Sunday, but offered as an alternative proposition, to accept the capitulation of the enemy, and to transport the Spanish officers and troops to Spain, they to leave all their arms behind and he to accept their parole. It was this proposition which General Toral declined yesterday.

A PERSONAL INTERVIEW.

This morning it was decided to hold personal interview with General Toral. General Miles and his staff who got no further than General Shafter's headquarters last night, accompanled by General Shafter and his staff, rode to the front shortly before 8 o'clock, under a flag of truce. A request for a personal interview with the Spanish commander-in-chief was made and acceded to, and at about i o'clock General Miles, General Shafter, General Wheeler, General Gilmour, Colonel Morse, Captain Wiley and Colonel Maus rode up, passed over our entrenchments and went down into the valley about half way between the The interview that followed lines. lasted almost an hour.

The situation was placed frankly before General Toral and he was offered the alternative of being sent home with his garrison or leaving Santiago province, the only condition imposed being that he should not detroy existing fortifications and should leave his arms behind.

TORAL DECLINES.

This latter condition, the Spanish general, who does not speak English. explained through his interpreter, was impossible. He said the laws of Spain a general no discretion. He might abandon a place when he found it untenable, but he could not leave his arms behind without subjecting himself to the penalty of being court martialed and shot. His government he said, had granted him permission to evacuate Santiago. That was all. Further than that, he was powerless to go. Without saying so in words, General Miles said the tenor of Gen eral Toral's remarks all betrayed his realization that he would not hold out long. When General Shafter explained

that our reinforcements were coming up, that he was completely surround ed and that new batteries were being posted, General Toral simply shrugged his shoulders, "I am but a subordin-ate," said he, " and I obey my government. If it is necessary we can die

of age, with a strong, rugged face and fine, soldierly bearing. His brave words inspired a feeling of respect and admiration in the hearts of his adversaries. Nevertheless, the Spanish general's anxiety to avoid further sacrifice of life in his command was manifest, and he did not hesitate to ask for time to communicate the situation to Madrid, although he dubiously shook his head when he spoke of the probable General Miles, at the interview, did

not attempt to assume the direction of the negotiations, but as general of the United States army, he vouched for the conditions General Shafter offered.

HEAVY RAINFALL.

The rain now falls in sheets every day, drenching the soldiers, washing out the roads and swelling the streams into torrents. In fact our base of supplies is actually threatened by the mountain streams. Two bridges have been carried away this afternoon, after a downfall in which an inch and a half of rain fell.

The belief is common among our of-ficers that the end is close at hand and that Santiago will be ours before next Monday without further fighting. Already the movements of the army for the future as outlined are based on the fall of the city. The plans of the generals are not to allow our troops to enter the city except a garrison of immunes which will remain there, proof against the vellow fever.

The rainy weather has accelerated the spread of malarial and other fevers In some of the regiments over a third of the men are unfit for duty. General Chafee, in addition to General Durfield, is suffering from fever

BRINGING WOUNDED SOLDIERS.

Pathetic Incidents at the Arrival of the Breakwater.

Newport News, Va., July 14 .- The transport Breakwater arrived at Fort Monroe this afternoon from Santiago de Cuba, bringing 140 wounded and sick soldiers. Hundreds of people stood on the nier and watched the work of transferring the soldiers to the wharf. The scenes witnessed yesterday when the City of Washington arrived were re-enacted. It was a reproduction of the same drama of pathos and enthusiasm in which sobs and cheers were mingled.

The men were carried from the vessel on stretchers, some groaning on account of excruciating pain while others were singing the "Star Spangled Banner." The soldiers were placed in the hospital tents where their wounds were redressed and a change of clothing placed on them. Some of the men are seriously wounded, but the surgeons believe that, with a few exceptions, all will recover.
