YEAR'S POSTAL BUSINESS.

The Decrease in the Local Office

Amounted to Nearly \$200. in these columns to the fact that the falling off in local postal receipts amounted to about \$200 in May and June. In footing up the year's business it is found that this amount marks the decrease since the close of the fiscal year in 1897.

The total receipts from box rents, sales of stamps, postal cards, envel-opes, etc., amounted to \$11,572.87 for the year just closed. For the year ended June 30, 1897, the receipts were \$11,-767.46. The falling off during the past twelve months represented \$194.59, This, of course, is not a very large sum, but it is significant as it proves that the business of this city and vicinity is not on the increase, but in stead is decreasing, though the ratio for the year is very small, representing a little over one and a half per cent. There is cause for congratulation that the decline was so small, as it shows that conditions are not so bad

as was supposed. During the year there were 28,215 one cent stamps sold at the Carbondale postoffice. There were 366,192 two cent stamps sold. The postal cards numbered 64.759. The amount collected for box rent was \$297.18.

An Accident Which Shows the Dan-

gers of Spontaneous Combustion. A little girl was walking unconcernedly down Main street Friday evening and several passersby were astonished to see a great volume of smoke issuing from under her arm. Her attention was called to it and she at once threw a bundle of matches into the street. Investigation showed that fire was smouldering all through them, They were all right when she left the store a few minutes previous. As they were securely wrapped so that no friction was possible, the accident is attributed to spontaneous combustion due to peculiar atmospheric conditions,

Paris, July 17 .- The arrival of the steamer La Touraire from New York. at Havre today, with the survivors of wrecked steamer La Bourgogne, was the occasion of a sad scene and a sensational demonstration on the part of a great crowd which had assembled. The tears and sobs of the relatives of those who were drowned when they found that the last hope was gone, were heartrending, contrasting markedly with the transports of joy of friends of the saved.

The survivors of the disaster were extremely reticent, and their stories failed to develop any new detail.

THE MARKETS.

New York, July 16.—Wall street apparently remained unconvinced today that values of securities had been increased today by the capitulation of Santiago and prices stubbornly refused to advance in face of that event. The upward tendency of American in London was viewed with apathy and the few advances at the opening hour were not up to the London parity. The accumulated orders in commission houses were of very small volume, the outside public being apparently taken up with other interests than speculation in stocks. The bears were confident and aggressive and were prompt to take advantage of the absence of buying demand to attack the market. Total sales were 103,500 shares.

Chicago Produce Market.

Chicago, July 18.—Decided strength in corn prevented a decline in wheat today. July wheat left off ½c, higher and September 38435½c, lower. Corn gained ½a ½c, and oats declined ½a¼c. Pork lost ½½ače, and ribs 2½c. Lard closed 2½c. higher. The increasing receipts of the new crop and excellent weather for harvesting and threshing together with disappointing cables started wheat weak. The decline was checked by the strength developed in corn during the first fifteen minutes. July opened ¼c, higher at 72½c, sold off to 73½c, then rallied to 73½c, bid, the closing figure. September began ½a¼c, lower at 67½a 75½c, declined to 72c, rose to 67½c, then reacted to 67½a 67¾c hid at the close.
