DELAY IN PORTO RICO CAMPAIGN

General Miles Fails to Receive the Orders to Take Command.

Shafters's Army Will Be Retained at Santiago—Difficulty Experienced in Restraining the Cubans Will Make a Military Government Necessary for Some Time to Come. Admiral Sampson Receives Final Orders as to His Part in the Attack on Porto Rican Ports-Little for the Navy to Do in the Present Instance.

Washington, July 19.-Because of a pounds. Any increase or diminution failure on the part of General Miles in the number will be charged for in to receive the orders the president prepared late yesterday, to take command of the military expedition against Porto Rico, that officer did not depart as was expected from Siboney. The mistake was soon corrected this morning, however, and as a result of some short telegraphic correspondence that followed during the day it was gathered at the department that the Yale would sart tonight. Contrary to the first intention and probably without General Miles' seeking, the Yale is to be convoyed by a naval vessel that Admiral Sampson has been instructed to select from among the vessels of his fleet. This may result in delaying Gen. eral Miles' progress somewhat as none of the vessels with Sampson is able to keep pace with the Yale. Nevertheless there is no doubt that the general will reach Porto Rico before the detachment of troops from Charleston. War department officials feel that they are fully justified in their deci-

sion to retain practically all of Shafter's army at Santiago by the press reports that reached them today indicating the growth of serious friction between the American forces and the Cubar troops growing out of the latter's exclusion from Santiago by General Shafter's orders. It is felt now that the garrison originally proposed immune regiments, would have been quite insufficient to meet any outside Spanish force that might come It is realized that the present situation is full of difficulty and the future is dark owning to the disposition evidenced by the Cubans to ignore of of modern warfare. This first symptom of friction has suggested to the officials innumerable difficulties that will arise in the future. Of course it would seem to be only politic now to avoid any rupture with the Cubans, provided they can be kept in leash and not involve the United States in the disgrace that would follow the sacking of helpless communities; but it begins to appear that for some time to come, and even after the conquest of Cuba is complete, the United States must maintain there a military government in order to meet the responsibilities which it has assumed to the

civilized world. The personnel of the Porto Rican expedition having been left in a large measure in the hands of General Brooke, it is not possible yet to give an accurate roster of the organizations that will enter into it.

The president announced privately today that while no date of departure of the troops to be sent from Chickamauga to Porto Rico had been fixed, he expected they would leave in about one week from tomorrow. He is awaiting a detailed report from General Brooke recommending what troops and supplies should be sent from Chickamauga. The present plan is stated to States. be to embark them at Newport News or Norfolk and those at Tampa either there or at Key West.

SAMPSON'S FINAL ORDERS.

Admiral Sampson has received final orders from the navy department as to the part the American fleet is to take in the campaign against Porto Rico. They are based on the view that the campaign is essentially an army movement, the duties of the navy being to lend every support and assistance to the land operations. The admiral is instructed to aid the army movements by dispatching convoys when required and by covering the landing of troops. As there is no Spanish fleet in San Juan harbor or other Porto Rican ports, the navy has a limited field of bor fortifications will be the main work, but this and all other operations of the fleet will be supplementary to the main operations conducted by the army. The strategists, military and naval, are agreed in the view that the taking of Porto Rico is primarily a military undertaking and Admiral

Sampson's orders are on these lines. The navy department is rapidly moving the large fleet of auxiliary craft, made up of merchant ships, large ocean-going yachts, tugs, etc., from Atlantic coast points to Cuban waters, where they will be placed on blockade duty, thus releasing the larger ships more active duty at Porto Rico and the coast of Spain.

Bids will be opened tomorrow in New York, in the presence of Colonel Hecker, chief of the transportation bureau of the war department, for the conveyance home to Spain of the Spanish army captured by Shafter. Meanwhite in advance of the opening a bid has come to the department from one of the big steamship lines proposing to carry 18,000 men from Santiago to

Commissioner Lambert Puts Out His Annual Statement.

Harrisburg, July 19.-Insurance Com nissioner Lambert has completed his twenty-fifth annual report upon the condition of life, accident, plate glass, surety and liability companies for the year ending December 31, 1897.

During the year 1897 the companies of this state issued 6,444 policies insur ing \$18,054,381 upon the lives of residents of this state, an increase over the business of the preceding year of 611 policies and an increase of \$3,342,724 nsurance. Companies of other states issued 496,022 policies in this state, insuring \$138,915,086, making an aggregate by all companies of 502,466 policles, insuring \$156,969,467. The total losses paid by all life companies in this state during the year 1897 was \$10,443,-944.56, of which home companies paid \$1,261,546.37 and companies of other states \$9,182,398.19.

The insurance in force at the end of the year 1897 upon lives of residents of Pennsylvania, including industrial polcies of small amounts, aggregated 1,-678,105 policies, insuring \$711,356,481, of which 40,279 policies insuring \$107,678,-828 were in companies of this state, and 1,637,826 policies, insuring \$603,677, 653 in companies of other states. The entire expenditures of Pennsylvania companies in 1897 were \$9,082,527.03, of from Holguin or Manzanillo and also which \$6,656,227.47 was paid to policy ders. In 1896 their entire expenditures were \$8,835,356.21, and policy holders received \$6,608,086.20.

Colonel Lambert calls attention to the inadequate assessment laws and refused to be bound by the amenities asks that something definite be given the department in handling the insurance of fraternal orders. The commissioner declares that some of the measures brought before the legislature bearing upon the department are mere blackmalling schemes. Reference also made to infant insurance, on which Judge McPherson rendered an opinion in January, 1897.

VOLUNTEER ARMY.

Fairly Good Progress Made in Recruiting Under Second Call.

Washington, July 19.-Fairly good progress has been made with the recruitment for the volunteer army under the president's second call for 75,000 troops. The plan adopted by the war department was to recruit all the volunteer organizations in the army up to their maximum enlisted strength before entering upon the recruitment of additional troops. The total number of men required to fill out existing regiments was 37,566, and according to the latest returns the total enlistments under this plan are 27,519 men. Indiana, Minnesota, Missouri, New Jersey, Rhode Island, West Virginia and Wisconsin have exceeded their quota, but all the others are behind in the supply of troops. Pennsylvania is behind only 80 men. The number required from that state was 4,163 and 4,083 have already enlisted New York was called upon for 3,704 and up to date 2,733 have enlisted. The worst delinquent is North Carolina, which has furnished only 55 soldiers to meet its quota of 783. Other delinquents are Colorado, Louisiana, Nebraska, Tennessee and Virginia, each of which has supplied less than half one-third the number of men required. Alabama, Massachusetts, Arkansas, Georgia, Mississippi, Oregon and Texas have done very little bet-ter and are all very much behind in meeting the requirements. Complaint has been made also that in several of the states an effort has been made to foist poor material on the government. The total enlisted strength of the regular army to date is about 44,000

I have no fears, however, as to the outcome."

GEN BROOKE'S FORCES.

Is Preparing His Men for the Porto Rican Campaign.

Washington, July 19 .- Major General John R. Brooke is expected to reach Chickamauga tonight and although he was authorized to use the First and Second divisions of his corps for the Porto Rico campaign, it is understood that he was given some discretion in the matter and that a change may be made in the formation of these divisions. The first division will leave the country in a very short while. Gen-eral Ernst's brigade which has been at Charleston for some days is ready to embark, and General Haines' brigade, consisting of the Third Illinois, Fourth Pennsylvania and Fourth Chio approximating 4,000 men was ordered today to proceed to Newport News for embarkation. In addition there will also go for embarkation four batteries of artillery consisting of 700 men and 1,000 horses, a hospital corps of 200 men and a signal corps of 200 men.

That these will all go Thursday there appears to be no dcubt and it is more than likely that a larger force than this will be started by that time. Chickamauga National Park, Ga. July 19 .- There is no longer any doubt that Camp Thomas is going to furnish a large force of troops for the Porto Rico expedition.

General Brooke will be at the park temorrow at which time all the details will be arranged.

The following organizations today were placed under orders to go to Newport News, from which point they will embark for Porto Rico.

The Second brigade of the First division, First corps, consisting of the Fourth Pennsylvania, Fourth Ohio and Third Illinois under command of Brigadier General Haines; light battery B of Pennsylvania; A, of Missouri; A, of Illinois; and the Twenty-seventh Indiana battery; the signal corps under Major Glassford, the reserve hospital corps under Major Smith and the reserve ambulance under Major Frank

That these will all go Thursday there appears to be no doubt and it is more than likely that a larger force than this will be started by that time.

President's Outing.

Washington, July 19 .- Next Saturday, if weather is pleasant, the president will take a few hours' outing, the first time in several months. Secretary Long today in-vited the president and the members of the cabinet to be his guest for an after-noon sail down the Potomac and next Saturday was selected, as on that day the president was likely to have a little leisare. The trip will likely be made on the Princeton, now at the navy yard.

White's body was fearfully mangled. It was found nearly 200 yards away. Koch was badly disfigured, but lived long enough to be taken to the hospital, where he died, Mrs. Hill was visiting at a house across the way and was killed in the falling debris. Deputy Sheriff Fred. Sheritt and Deputy Edward White escaped, but were painfully wounded.

All the buildings took fire. The works were also blown down and about forty partially wrecked. Fourteen freight cars were blown to splinters and several were burned Windows were broken in Oakland, Alameda and as far as Berkeley.

LOOKING FOR INVALIDS.

Search Will Be Made for Men Who Are Physically Unqualified.

Washington, July 19.-Information has reached the war department that notwithstanding the medical examination prior to muster, men have been collisted in the volunteer army who should have been rejected as unfit for military service. The adjutant general has issued an order that systematic inquiry with a view to eliminating such men from the organizations by the medical officers. A board of medica officers, the order says, should be appointed in each division to carefully examine and make recommendation in each of the cases submitted by indivloual or regimental medical officers. In every case where discharge from service is recommended, it should be seen that the certificates of disability embody a statement to the effect that the cause of the disqualification for the military service existed prior to the enlistment of the men, if such is found to be the fact.

Department and corps commanders are authorized to order discharges on certificates of disability.
