ANNUAL INSTITUTE OF THE SISTERS

OPENED YESTERDAY IN ST. THOMAS COLLEGE HALL.

Rev. Bishop Hoban Delivered a Short Address at the Beginning of the Morning Session—Mrs. B. Ellen Burke, of New York, Spoke on "Educational Outlook."—Miss Burke Gave a Valuable Talk on History—Programme Arranged for Today's Sessions.

The gentle Sisters of the Immaculate heart surely never did wrong enough to merit the penance of having to attend a teachers' institute in July's blistering heat, but they seem not to regard it in any degree as a penance for an assembly of brighter, happier faces than those under the white coils in the hall of St. Thomas' college during the sessions would be hard to find in any assembly.

At recess time they chat and laugh much after the fashion of the public school teachers at their own institutes.

At the first session yesterday morning Rev. Bishop Hoban and Rev. Thomas F. Coffey were on the platform. After prayer, Bishop Hoban gave an address, which contained much encouragement for the listeners. He spoke of the great responsibility left to the teacher in the soul of the child, often warped and imperfect from hereditary causes and imperfect environment. The teacher is a co-worker with God in developing its nature along right lines.

DIFFERENCE IN METHODS. In speaking of the difference in methods he said that those of Pestalozzi and Troebel are not held in such veneration abroad as in the United States. It is right to give much care to the artistic in education, in Belgium this is done. In Sweden it is more mechanical, but the results in the former country are more beneficial.

In conclusion the bishop spoke impressively of the effect of the teacher's character upon the child. The influence of beautiful lines is thus frequently observed in the public school. The teacher may not teach dogma in the public school as must the Sister who, in her own personality, may show its effect and thus lead the young nearer to God.

Mrs. B. Ellen Burke, manager of the Catholic institutes, New York, addressed the Sisters on "Educational Outlook." Mrs. Burke is the lady who made such a favorable impression last year at the institute. She described the department of education and spoke of the power of the state superintendent in New York, which is great, and whose decision was never known to be reversed by the supreme court.

In referring to parochial schools she said that their standard was as high as that reached by other schools, and that the convent pupil finds it as easy to enter the high and normal schools.

CULTURE EPOCHS. Miss Helen Frances, of the State Normal school, Buffalo, N. Y., gave a pleasing talk on "Culture Epochs." In following out the theory advanced by some great thinkers that the development of the child is similar to that of the human race—namely in the degrees, imaginative, washing, strength and developing thoughtfulness, she placed on the board Zeller's system as follows:

Table with 2 columns: Religions and Secular. 1st grade - Fairy Tales, Robinson Crusoe, Stories of Thuringia. 2nd grade - The Patriarchs, Abraham, Joseph, Moses. 3rd grade - The Niebelungen and King, Lied-Siegfried. 4th grade - The Life of Christ. 5th grade - Henry I, Charlemagne, Arminius, Teutonic, Migrations, Crusades, Attila, Barbarossa. 6th grade - Discovery of America, Reformation, Thirty Years War, Frederick the Great, Wars Against Napoleon William I.

Mrs. Burke then gave an interesting account of the last Child's Study congress held under Catholic auspices in New York.

TALK ON HISTORY. Miss Burke occupied the first period in the afternoon, speaking on history and giving many valuable suggestions. Mr. Walsh, of Brooklyn, who was to speak, failed to put in appearance.

Mrs. Burke spoke on "Programmes." She said that the programme should be as simple as possible and while the teacher should conform to its outlines, it should still be flexible. Disconnected subjects should not follow each other except for read.

Christian doctrine is usually put the first thing in the morning, as it is the most important subject, the basis of all the other work. Mathematics occupies the second period, as, generally speaking, it is most difficult for the child. Following this is the language work. In the afternoon should come the history and geography. The writing work should have its regular period, not after intermission or when the children are fatigued; the same with the drawing in the lower grades.

Physical exercises should be mainly corrective, marching with a book up on the head, and exercises which will develop the chest are to be recommended. At the age of fourteen and thereafter exercises to promote grace and ease should be given.

Mrs. Burke then took up the subject of spelling. There are children who seemingly cannot be taught to spell, and they are almost unexceptionally defective either in eyesight or powers of attention. Spelling today is better than five years ago. About ten years ago it was exceedingly bad, as it was at the time when the method was adopted of teaching without the book.

USE OF SPELLING BOOK. The results at first were appalling, but it was simply carelessness. Mrs. Burke approved of using some spelling book in the majority of cases. This will be found best at least where the schools are large.

The teacher must know how to spell. She must cultivate the sense of sight, the power of perceiving and remembering in her pupils. The child must not be taught words whose meaning he does not know. Oral spelling helps the written work. People know how to spell when they can write a word correctly and unconsciously.

STORE ORDERS NOT LIABLE TO THE TAX

Commissioner Scott Says That Store Orders Are Exempt—Another Revenue Ruling is to the Effect That Receipts Given by Local Express Companies and Baggage Men Are Not Liable to the Tax—Final Ruling on Flavoring Extracts, Essences and Similar Articles.

Of late there has been much speculation among store and company officials in this vicinity as to the exemption of a store order from the stamp tax. The following is an extract from a ruling received yesterday by Collector of Internal Revenue, T. F. Penman from N. B. Scott, commissioner: "An order for merchandise and not for the payment of money is not liable to stamp tax under the provisions of the Act of June 13, 1898."

Another ruling received yesterday is the treasury department's final decision on certain extracts, essences, etc. Under this ruling, which follows, was given, revenue officials had not been able to answer definitely scores of inquiries from druggists and others who sell the articles:

NOT TAXABLE. The following preparations are not taxable: "Lemon extract for flavoring ice cream, etc." "Vanilla extract for flavoring ice cream, etc." "Extract of white vanilla." "Oil of lemon." "Essence of rose, for flavoring cakes, candy, etc." "Glycerine." "Spirits of turpentine." "Sperm sewing machine oil."

The following are held to be taxable as medicinal preparations: "Liberty brand-hazel, or hamamelis." "Liberty brand of Jamaica ginger, which is also trade-marked." "Spirits of camphor." "Cold-pressed castor oil."

Another ruling which has been anxiously awaited by local express companies and baggage men is as follows: "Mere local operators for the delivery of packages, baggage, and such like, within the limits of the same town or city are not required to give bills of lading. Although such operators may give a receipt for articles to be delivered, such receipt is not required to be stamped. A mere carrier, as, for instance, a person with a horse and wagon, who does a local delivery business in a city or town, is not included within the above requirement. The carriers, which were intended to be included within the terms of Schedule A, under the head of 'Express and Freight,' are such as are engaged in the transportation of express matter and freight from one place to another in the ordinary course of commerce and trade."

SOME RULINGS. Following are several rulings received by Collector Penman yesterday: "There is no difference in the rate of taxation between that on chattel mortgage and on a mortgage of realty." "Each assignment or transfer of the mortgage or the renewal or continuance of any agreement or contract, by letter or otherwise, requires a stamp duty at the same rate as that imposed on the original instrument."

No stamp is required upon the transfer by assignment of promissory notes. "A stamp is required upon assignment of a policy of insurance. "In reckoning the stamp tax on transfers of certificates of shares, the tax is reckoned on the face value."

"The treasurer of savings associations issues his check and at the same time an order, which are fastened together and both presented to the bank, one stamp only being required. "The exemption granted to co-operative building and loan associations, etc., is confined to the stock and bonds issued by the associations therein mentioned, and, therefore, does not relieve them from other stamp taxes. "Powers of attorney to sell or transfer government bonds are taxable."

In the contest yesterday the witnesses examined were from the Nineteenth and Twentieth wards. The examination was conducted without any incident. Mr. Holgate in asking questions about money or valuable consideration, asked each witness whether he got a day's pay for voting. Those examined were as follows: John Molesey, Ernest Glasser, Patrick Connelly, John J. Burns, John J. Burke, John J. Kennedy, Thomas J. Quinn, Michael Langan, Martin Gaughan, Edward Standel, Anton Hum, John C. Heffron, Patrick O'Hara, Michael Padden, John Padden, John Burke, P. M. J. Burns, John J. Burns, Henry Renard, William Roche, John Loftus, Patrick McDonough, John O'Connor, Michael Kane, John F. Gallagher, James McHale, Patrick Breen, Michael Golden, Patrick A. Walsh, Patrick Cunningham, Michael Cook, Stanley Drodowski, James Donahoe, Patrick McGuinness, Michael Durkin, John McGill, James Murray, Edward McGuire, Michael Kennedy, Michael McGuire, Michael Hughes, John Papuzinski.

CHIEF HICKEY ON DUTY.

Has Recovered from His Recent Serious Accident. Chief P. J. Hickey, of the fire department, who was trampled upon and seriously injured by a team of fire department horses on June 30, yesterday resumed work at his office in the city hall.

He has lost considerable flesh since the accident, but looks to be and is in good physical condition, considering the nature of his accident, barring a slight lameness which will disappear in a few weeks. During last week he spent several days in the country and was greatly improved by the change.

Chief Hickey was fortunate in possessing an accident policy in one of the standard accident insurance companies and is about \$100 the richer by virtue of this protection. It is a coincidence that a president of the Scranton Firemen's Benefit association, recently organized to receive the local department's share of the state tax on foreign fire insurance companies, about \$2,300, he is the first beneficiary of the fund. The association received its charter but a few days before Chief Hickey was injured.
