# **AMERICAN TROOPS** FOR HONOLULU THE ST. PAUL SAILS FROM SAN

FRANCISCO.

Col. T. N. Barber, of the First New York Volunteers in Command of the Force for Honolulu-Men for for Manila Sail in the Same Transport-California Red Cross Society's Work.

San Francisco, July 28 .-- It was or-iginally intended that Lieutenant Colonel Lee Stover, of the First South Dakota, should be in command of the men on the St. Paul when that transport leaves this port today, but Col-Thomas N. Barber, of the First New York infantry, who is to sail on the vessel, being the senior officer, has been instructed by General Merriam to assume control of the troops on the trip from here to Honolulu. After leaving that place, however, Lieutenant Colonel Stover will be supreme in command until the vessel arrives at Manila

All the medical officers in the Eighth Army corps have been instructed to institute inquiry with a view to eliminating from the various regiments all enlisted men who, although unfit for military duty, have passed medical examination and been mustered in. Five new cases of typhold fever have developed at Camp Merritt. There are now thirteen cases of fever at the camp.

A message from Secretary Alger, received at Los Angeles, says that the Seventh California volunteers will go to Manila

The Culifornia Red Cross has made a statement showing that \$20,405 has been received, of which \$400 is a special fund for a hospital ship. When the last bill has been paid for the Manila equipment there will be a little over \$11,000 in bank.

### THE HEALTH OF OUR TROOPS.

Gen. Shafter's Report Causes Uneasiness in Washington.

Washington, July 28 .- The report of General Shafter showing that there was a total of 3,770 cases of sickness in the army in Cuba has given the officials of the war department considerable concern, but the reports heretofore made that the yellow fever cases were of a mild type encourages the hope that the death rate is to be small. The large number of fever cases reported (2.924) shows that not only yellow fever but typhoid and other kinds are numerous.

Surgeon-General Sternberg says yellow fever spreads rapidly, and, having once got started in the camp, it is sure to infect many soldiers. Speaking of the other fevers, he said that not only in Cuba but in the camps in the United States there had been many cases, and it was the history of all new armies that fevers, especially typhoid, became quite common. That was due to the change of climate and the mode of life of the new soldiers. Even where the water was pure cases would arise. Soldiers bought and ate things not furnished by the commissary, such as milk and other things peddled about the camps. Often those foods caused sickness. Another feature he mentioned was the indifferent care which some men took of themselves when they men took of themselves when they stopped in itself made bears amongst the folned the army. It was his belief traders, although it was attributed to that as the men became more seasoned

come reports of about the same tenor. In the castern market operations in all branches of the trade have been on a small scale. At New York some orders for pig iron of the cheaper grades have been placed, with southern brands mostly in demand. Values are slightly irregular. The finished lines continue rather dull. At Philadelphia the pig iron business is low, with reports contradictory. More iron is being melted and stocks are decilning in mill and foundry yards. A little more bar fron is being sold and contracts are being made for sheets for the balance

of the year at present prices. The plate makers are busy and are hurrying shipments. Chicago reports com-paratively few sales. The pig iron market is quiet, but southern grades are a trifle stronger. A large amount of billets has been sold during the past week. A fairly good movement in bars is reported, and sheets are in good demand. At Cincinnati there is a fair demand for pig, with the soft southern grades most called for. Considerable new business in sheets has been booked. The structural trade is quiet. In the Cleveland market pig iton shows no new features. Bar and sheet prices are low and other lines remain about as they were. In the Wheeling district the mills are well employed on numerous orders of small size. The reduction in output has helped the pig iron situation.

SHIPPERS ARE FAVORED.

### Decision in Test Case Against Express Company.

Chicago, July 28 .- Judge Tuley, of the Circuit court, today ruled in favor of the shippers in the test case brought by the Illinois Manufacturers' association, granting a writ of mandamus ternoon, when there was a decline al compelling the United States Express though final prices showed have net ad company to accept for transportation packages for shipment without the payment of one cent excess of the regular rates. The case will be appealed by the defendants. The court held it was not within the domain of the shipper to issue the bill and the law expressly provides that the No. 3 do., 31c.; No. 2 white, 31%a22c.; No. 3 do., 31c.; options firmer, closing %c. and the law expressiv provides that the person issuing the receipt shall affix the stamp. # MIDNIGHT ASSASSINS.

### Dr. Skinner Is Called from His Bed and Fatally Shot.

New York, July 28 .- Dr. Richard Ekinner, coroner at North Hempstead, L. I., was probably fatally shot at his residence shortly after midnight this morning.

Dr. Skinner retired about 10 o'clock last night and about midnight there came a summons at his door for him to attend a patient. He went to the front door and told the man who was there that he would dress as quickly as possible. While Dr. Skinner was putting on

his clothing with his back to the winshures. dow, the report of a shotgun was heard, he received a big charge of shot and fell to the floor. The person who did the shooting escaped in the carriage in which he had arrived, and from which,

presumably, the shot had been fired. The shooting aroused Dr. Skinner's household, and his wife and son and cervants were soon at his side. They

saw that he was badly injured. Doctors arrived about on hour later. They succeeded in stopping the now of blood and under their care Dr. Skinner improved, but is not yet out of danger

Dr. Skinner said that his visitor did not till him where the patient lived who wanted him. He was informed that it was a desperate case and that if he did not respond the patient might die.

Dr. Skinner is about sixty years old. He is one of the prominent physicians of Queens county and has been the coroner of North Hempstead for a number of years.
