

GENERAL SHAFER'S EXPLANATION

WAR DEPARTMENT DID NOT INTERFERE WITH HIM. He Alone Is Responsible for the Santiago Campaign—The Department Simply Ratified the Terms He Made with General Toral.

Santiago de Cuba, July 28 (delayed in transmission).—Major General Shafter is desirous it should be known that the United States war department has in no way interfered with the conduct of the campaign in Cuba.

Major General Shafter says he has not made certain statements attributed to him in an interview on the subject of the attitude assumed by General Garcia, and he explains that the alleged trouble between himself and General Ros, the civil governor of Santiago, is a very small matter.

General Shafter has requested that these statements be published in view of the fact that the war department has been criticised for interference during the campaign.

The judges and the other officials connected with the administration of justice may, if they accept the supremacy of the United States, continue to administer the ordinary law of the land, as between man and man, under the supervision of the American commissioner in chief.

FOR RELIEF COMMISSION.

The Yacht "May and Ice Plants" Are Offered to the Government.

Philadelphia, July 29.—Dr. French, general secretary of the national relief commission, today received a communication from Alexander Van Rensselaer stating that he placed his yacht "May" at the disposal of the national relief commission as a supply vessel, at his own expense with the assurance that any orders the commission might impose upon him would be faithfully executed.

The commission has now a large quantity of supplies on hand, which will be immediately made ready for shipment and placed upon the yacht "May," as she will sail from Philadelphia on Aug. 4.

The May will also carry a complete apparatus for manufacturing ice, which is to be used at the relief commission's storehouse at Porto Rico. This ice plant is of the most modern type, capable of making sufficient ice for the daily demand of the division hospitals, and is the gift of Messrs. Potter, Vanuxem and Van Rensselaer.

Dr. Pepper founded the Medical Times and was its editor in 1870-71. He was medical director of the Centennial exhibition in 1876 and for his services therewith received from the King of Sweden the decoration of knight commander of the Order of St. Olaf.

Dr. Pepper received the degree of LL. D. from Lafayette college, and was similarly honored by Princeton in 1885.

Dr. Pepper has been the editing of the "System of Medicine by American Authors," published in 1885-6. It is recognized as the best American authority on medical questions.

Dr. Pepper took the chief part in organizing the Philadelphia Commercial museum and was president of the board of trustees.

by the division hospitals at that port. This ice plant has been presented to the relief commission by a citizen of New York.

BIG JULY BUSINESS.

All Records Passed for the Volumes of Trade for the Present Month.

New York, July 29.—R. G. Dun & Co., in their Review of Trade, will say tomorrow: "Big business in January is expected, but big business in July means more. It is the month of all others when trade is naturally light, but more business is being done this year than in any previous July of which there are records."

The official report of the iron production for the first half of 1898 shows an increase of over half a million tons compared with any previous half year, and what is far more important, the consumption in manufactures appears for the half year to have exceeded the output.

ing friends of the deceased. At the cathedral it was placed upon a bier covered with black and placed before the sanctuary railing. The church was open all night and it was nearly midnight before the last persons had passed through the church to view the body. All night long it was guarded by watchers from the Ancient Order of Hibernians, under charge of John H. Maloney, the county president, and the St. Lawrence society, and until the hour of service arrived watchers stood beside the bier, silent in their devotion.

THE MARKETS.

Wall Street Review.

New York, July 29.—The insignificant net change in most stocks are a fair indication of the neglected condition of today's market. The assurance of early peace with Spain, the assurance of early money and the already secured crops are not sufficient to induce buyers to take stocks. Holders are equally averse to selling at the existing level. The dullness of today's stock market was only varied by manipulative movements of the industrial specialties particularly the rubber stocks. Sugar, Brooklyn Transit, Metropolitan Street railway and New York air brake. People's Gas reacted from yesterday's advance and Manhattan suffered from realizing on the favorable decision in the dispute over back taxes.
