SPAIN'S ANSWER NOW AWAITED

Will Probably Not Be Received Before Tuesday.

Much Speculation in Regard to an Amendment That It Is Said the French Ambassador Succeeded in Persuading President McKinley to Make—Hostilities Will Not Be Suspended Except Upon Assurance of a Full Acceptance of Our Conditions by Spain-All States Are to Be Represented in the Next Army to Be Sent to Porto Rico.

best informed as to the probabilities declare that the answer of the Spanish government to the terms of peace outlined by the government of the United States is not to be expected before Tuesday. This opinion is based upon a knowledge of the time when the United States' communication was received in Madrid, which was not until an early hour this morning, the time required to decipher it, the necessity for an extended consideration of the matter by the Spanish cabinet, and also the necessity for carefully framing the rejoinder. It is not meant by this statement to question in any manner the full plenipotentiary powers of M. Cambon, the French ambassador, in dealing with the subject. On the contrary, they are in latitude wider than those usually conferred in such cases. But his position is somewhat similar to that of the president himself, who is obliged to recure the sanction of the United States senate to any treaty of peace that he may prepare, for the ambassador must submit to the Madrid cabinet for its anproval any agreement that he may enter into. But in the drafting of such an agreement he is fully authorized to proceed in his discretion, and to guard against any possibility of repudiation of his action he has been given the minutest definition of the concessions that will be made by the Spanish government on every point that by any possibility could be expected to arise in the course of the ne-

It was not known to our government that M. Cambon had such powers when he appeared yesterday afternoon at the White House to receive the American answer, but once the president was satisfied that he was competent to deal in an authorized manner with our government, the production of his credentials was hailed with satisfaction as tending to hasten the reaching of an agreement without loss of time and in the most direct manner, for technically the United States is now treating with Spain without the intervention of any third power. It may be said also that M. Cambon is proceeding with straightforwardness towards his object, and that there is no fear of devious diplomacy being introduced into the negotiations.

gotiations.

CAUSE OF SPECULATION.

There is much speculation as to the nature of the amendment in the answer of the United States that the ambassador succeeded in inducing President McKinley to make, after the document had been so carefully constructed by his cabinet. All that can be knowingly stated is that it covers that part of the answer which deals with the future of the Philippines. It is known that the Spanish efforts were concentrated upon the retention of the islands, and the Madrid cabinet was willing to make almost any sacrifice in its power to secure that end. Whether or not the ambassador prevailed in this is not known but there is reason to believe that the success he attained was limited and that the United States proposes to retain some foothold a little more important than a simple coaling station in the islands. Had our demand been limited to a coaling station there would have been no doubt of its acceptance and it is even probable that the concession might have been made of a considerable tract of land for a naval station and a supporting zone. But it is believed that there was strenuous objection to the cession of the city of Manila, the metropolis of the group, and particularly to the reference to a commission of the question of the future government of the islands, for the Spanish government is desirous that its full sovereignty shall remain unaffected and without question. It is assumed that It was this point which was the subject of amendment at the hands of the resident yesterday though what form that change took is still unknown. As some mention has been made in the public discussions of the possibility of the acquisition of one of the Caroline islands it may be stated authoritatively that the matter has not been considered by the cabinet up to this time. HOSTILITIES MAY BE SUSPENDED

The progress made in the negotiations has given rise in some quarters to an expectation that hostilities are to

be suspended very soon.

This will depend entirely upon the attitude of the Spanish government and the nature of its answer to our demands. It has been made clear to the French ambassador that hostilities will not be suspended except upon the assurance of a full acceptance of our condition and he has undoubtedly informed the Spanish cabinet that it de-

pends upon Spain when the war shall cease. Meanwhile, as a proof that our government has not interrupted the execution of its campaigns, an order was issued from the war department today for the dispatch of an entire army division to reinforce Generals Miles and Brooke in Porto Rico. This will be known as the provisional division and will be commanded by Major General Wade, at present in command at Camp Thomas, Chickamauga. He is ordered to turn over that command to Major General Breckinridge, inspector general of the army, and to report to Secretary Alger in Washington for instructions before departing for Porto Rico, bringing with him his adjutant general and his aides. The provisional division will consist of fifteen full regiments and General Wade will select them, not from the troops under his old command alone, but with particular reference to an equitable representation in the Porto Rican campaign of

all of the states of the Union.

UNJUST CRITICISM. Secretary Alger feels that his department has been subjected to some unjust criticism upon the selection of troops for active service and pronounces as without foundation the allegation that politics have dictated these assignments. In the case of the Fifth Illinois volunteer regiment, which was withdrawn from the Porto Rican expedition in favor of an Indiana regi-ment just as the troops were about to hoard the cars, it has been already explained by authority that the change was made in recognition of the justness of the complaint that Illinois already had two regiments in active service at the front, while Indiana had not one. Even in that case, however, Secretary Alger did not make the selection of the regiment to be held back; he simply instructed the general commanding the expedition to select one Illinois regiment for detention without designating it.

Secretary Alger is hastening the preparations at Montauk Point for the reception of the Fifth army corps now at Santiago. Surgeon General Sternberg has just dispatched Colonel Forwood, of his bureau to the site of the camp with instructions to erect at once hospital capable of accommodating no less than 500 soldiers, General Shafter has been authorized by a cablegram from Secretary Alger to notify his soldiers of the good fortune in store for them in order that the men may be cheered up to wait with patience for their removal. This cannot be effected immediately, owing to the condition of the men themselves. The present plan is to begin as soon as possible the transportation to Montauk Point of such of the soldiers as have recovered from the fever and those who have not yet contracted it. The sick must wait for physicians say that the climatic change involved in bringing them north would prove fatal in many cazes. But the delay is not likely to be ex-

tended. COURSE OF FEVER.

Surgeon General Sternberg says that convalescence in fever of a type as mild as that at Santiago does not usually occupy more than ten days, although as the season runs on and the virulence increases this period is greatly extended. As soon as that period

is passed the men will be embarked for The matter of transports for this work is already under consideration and is likely to be adjusted very satisfactorily. The navy department has concluded that it can dispense with the four big American line steamers formerly known as New York, St. Louis, St. Paul and Paris and the war department has begun negotiations for chartering them. Mr. Griscom, the president of the line, will meet Colonel Hecker, in charge of transportation tomorrow by appointment at the war department to make the necessary arrangements by which the soldiers of the Fifth corps can make flying trips

on these vessels from Cuba to the north. The war department has corrected a statement made yesterday as to the remarkable casualties among the officers of the Twenty-fourth infantry, in connection with the death of Captain Dodge. What was meant to have been stated was that every captain of the regiment, had been either killed or incapacitated by wounds or disease since taking the field in the present cam-

SURPRISE AT CAMP THOMAS. Major General Wade Is Ordered to Washington.

Chickamauga, Chattanooga National Military Park, Ga., July 31,-A genuine surprise was sprung at Camp Thomas this afternoon- Instead of further troops being ordered out as might be expected, Major General James F. Wade, commanding the army at Camp Thomas, was ordered to report forth-with to the secretary of war at Washington. In compliance with the order General Wade and the members of his staff proceeded immediately to Chattanooga and left thence at 10 o'clock for Washington. General Wade and his staff will

reach Washington some time tomorrow afternoon

Owing to almost continuous rain at the park from 11 a. m. until tonight the day was very disagreeable and the soldiers remained in quarters. The regiments are expecting their pay during the week and the task of paying the men will probably begin not later than Wednesday of this week.

Key West, Fla., July 31 (5.40 p. m.)-Reports have reached here that Neuvitas, on the north coast of the province of Puerto Principe, Cuba, been bombarded by the ships of the blockading squadron, evacuated by the Spanish and subsequently burned. No details are known and the only information of the affair was that given to Captain Maynard, of the gunboat Nashville, by Lieutenant Colonel Rojas, of the insurgent forces at Gibara, last Tuesday, Colonel Rojas himself had the news at second hand, although he carried private dispatches from General Garcia, which were delivered to he commander of the Nashville.

The American ships that have been in the vicinity of Neuvitas lately are the Prairie and Badger. The latter captured three Spanish vessels coming out of Neuvitas harbor and took them to the Dry Tortugas. All were flying Red Cross flags, but when boarded were found to contain a number of Spanish soldlers, only three of whom were sick. The Budger is expected here shortly. The Nashville reached Gibara on Tuesday, when she captured the schooners Gibara and Exprese

ENSIGN SNOW'S PURPOSE. When Ensign Snow left with a prize rew to bring the Gibara here it had peen practically determined to raise the American flag over the town. that time only Red Cross society and Cuban flags were flying, and there was small question as to whether dissensions might not arise between the Americans and Cubans in consequence of the Garcia-Shafter incident. In such case Captain Maynard was resolved to seize and hold the place.

The steamship Tabasqueno, flying the French flag, was captured by the Hawk at Sagua la Grande yesterday and brought here today by Ensign Schofield, Cadet Kear and a prize crew of ight men. She is a Mexican ship of 800 tons and was bound from Vera with coal and provisions, and also carried a number of mules. Captain Androcka was in command with a crew of twenty-nine. The Hawk took her without difficulty.

CONCHO ARRIVES.

The United States Transport Brings 157 Sick Men. New York, July 31,-The United

States transport Concho, Captain Samuel Risk, which sailed from Santiago July 23, with 162 sick officers and men arrived here today. The Concho arrived at Hampton Roads the 27th inst., and was placed in strict quarantine by the United States medical officer at that place. The Concho remained at anchor for three days and during that time five deaths occurred on board Not being permitted to bury the dead on shore, the transport was obliged to proceed to sea where the bodies of the five men were prepared for burial and consigned to the deep. The Concho was then ordered to proceed to New York.

Health Officer Doty on going on board the transport was received by In. A. Monas Lesser (of the Red Cross), surgeon in charge, who reported a total of 157 sick men on board. All were in as good condition as could be expected and Dr. Doty decided to have all the sick removed to Hoffman and Swinburne Islands. Only two of those on board are wounded, the others, suffering chiefly from malarial fevers, many of whom are convales cent.

Bedford, Pa., July 31.-There has een no conference here between Governor Hastings, Secretary Martin, Senators Quay and Magee, neither has there been any arrangements for such meetings.

The governor is at Bedford with his family on his vacation and telegraphed to Secretary Martin and Attorney General McCormick to meet him here to conclude arrangements to furnish opportunity to Pennsylvania soldiers in the field to vote at the November elections. The arrangements are about ompleted and the executive will make a public utterance on the subject in a few days.

REMOVAL RUMORS.

Camp Alger May Be Abandoned for Sea Girt.

Washington, July 31.-The plan for grand review of the troops at Camp Alger before President McKinley and cabinet is not likely to be executed. An announcement has been made that the review which was to take place next Saturday, would be postponed until the 13th, but the prospect is that this is preliminary to giving it up entirely owing to the prevalence of sickness and the possible removal of the camp Removal rumors are again current the latest report being that the camp will be moved to Sea Girt, N.
