READY TO OPEN MONTAUK CAMP

BATTALION OF THE SIXTH CAV-ALRY ARRIVES.

It Reaches Jersey City at 4 a. m. and Starts for Montauk Point at 9 a. m .- More Troops Coming. Gen. Young Rushing Preparations to Receive the Troops-The Lack of Water-Indians Protest.

New York, Aug. 8.-The First battalion of the Sixth United States cavalry arrived in Jersey City this morning at 4 o'clock on its way to the new camp at Montauk Point, L. I. The men came from Washington over the Pennsylvania railroad and numbered about 300. They were under command of Captain Anderson. Nine coaches were required to carry the men and their baggage filled another car. Their horses came in a separate freight train, The cavalrymen left Jersey City for

Long Island city on the ferryboat Baltimore at 7 a. m., while the horses were shipped to Bay Ridge, from which place they were transferred to the Long Island railroad.

The train carrying the battalion left Long Island city at 9 a. m. for Mon-

General Young, temporary commander at Montauk camp, received notice by telegraph this forenoon of the coming of the battalion of the Sixth cavalry. General Young, with the few officers present to ald him, set to work to make preparations to receive the battalion, the first troops to occupy the Montauk camp. There are already on the ground sufficient rations and feed for the cavalrymen and their horses. General Young said he expected it would take all the afternoon for the troopers to unload their baggage and get their horses and equipment to that portion of the camp assigned them. Their tents will be erected late this afternoon. Gangs of men are at work putting down rails, driving wells, erecting frame buildings,

CAVALRYMEN EN-ROUTE, General Young kept a telegraph operator busy receiving and sending dispatches regarding the movement of equipment and provisions toward Montauk from various points He was notified that 500 Rough Riders and 1,200 horses and mules from Tampa and the Second cavalry as well as the Ninth cavalry, also from the south, were en route. It is probable that several thousand cavalrymen with their

horses and mules will be in camp at

Montauk by tomorrow night.

A dozen ambulances from the Red Cross society have arrived, and Colonel Farwood is going on with his preparations to provide for the care of the sick soldiers. In spite of the hard work that is being done the government will have a difficul task to perform to get the camp ready within a week for the reception of the soldiers from Santiago. There may be trouble in obtaining water. The work of driving the wells is progressing slowly. At present it looks as if the lack of water will be the main drawback to the camp. But when the wells are completed it is expected that there will be a supply of water for 20,000 troops, as well as for thousands of hor-

The railroad station at Montauk is The descendants Montauk Indians, who are occupying the old Indian reservation, have sent a complaint to Washington that they believe the railroad company is taking away the rights of the descendants of the Indians by running railroad track the reservation property. The railroad officials, however, say that this matter has already been decided in the courts and that the Indians have really no ground for complaint.

The battalion of the Sixth cavalry ar rived at the Montauk camp at 1.15 o'clock this afternoon. Some of the men showed the effects of the trip They were nearly overcome by the heat and leaned on their comrades for support. The troops went to the site selected for them and at once started the work of arranging company streets.

STERNBERG'S CIRCULAR.

Surgeon General Thinks That Sanitary Orders Were Disregarded.

Washington, Aug. 8.-The epidemic of typhoid fever which prevails in so many of the army camps is giving the war department a great deal of concern and steps are being taken to check the fever and prevent further spread of the disease. Surgeon General Sternberg today issued a circular calling attention to a former circular issued by the medical department April 25. The

If every woman who expects to become mother would heed and read that great ook, "The People's Common Sense Med "The People's Common Sense Med Adviser," by Dr. R. V. Pierce, chief ical Adviser," by Dr. R. V. Pierce, consulting physician to the Invalids tel and Surgical Institute, Buffalo, N.Y., there would be stronger mothers and healthier, happier children in this world. In this grand volume several hundred of its thousand pages are devoted to teaching women how to take care of themselves women how to take care of themselve during every trying and critical period or their lives and especially at the time of

approaching motherhood.

The author of this remarkable work has had a lifetime of practical experience in treating the special diseases and weaknesstreating the special diseases and weakness-es of women, and is recognized as one of the foremost of living experts in this partic-ular field of practice. His "Pavorite Pre-scription" is the most wonderful medicine ever invented to restore natural organic strength and power to the delicate femi

nine structure which is most intimately concerned in motherhood. Taken during the time of anticipation it deprives this ordeal of all its accustomed terrors and dangers; makes the coming of baby absolutely safe and comparatively painless; renders the mother strong and cheerful, and helps to endow the child with a strong, healthy constitution.

Mrs. Mabel Jordan, of Swofford, Lewis Co., Washington, writes: "I took Dr. Pierce's Pavorite Prescription until the very last day. We now have a fine, plump little girl over two weeks old. I suffered less pain than with any of the others, this being the sixth child, and she has good health. I got up on the tenth day and dreased myself—something I could not do with the other bables. Have been gaining in strength every day and feel well, all due to God and to Dr. Pierce's Favorite Prescription."

former circular was devoted to recommendations for the health of the troops and minutely pointed out what to avoid, and how camps should be conducted from a sanitary point of view, together with suggestions as to food and clothing of the soldiers. It is the opinion of the surgeon general that these conditions have not been carried

out and in his circular today he says: "The extensive prevalence of typhoid fever in camps of instruction indicates that the sanitary recommendations made in this circular have not been carried out. If medical officers have failed to make the proper recommendations as indicated, the responsibility rests with them. If the recommendations have been made and not acted upon by those having authority in the various camps, the responsibility is not with the medical department, but these recommendations should be repeated and commanding officers be urged to move their camps at frequent intervals and to maintain a strict sanitary pol-

General Sternberg hopes to have more favorable reports and to hear soon that the epidemic of typhoid fever has been checked. PICKETT'S CAMP OPENED.

New York, Aug. 8 .- In the stock market today profit taking began from the start in some of the recent favorites and held them back even while the rest of the market was rising buoyantly on the out-side orders which had come into commis-sion houses during the Sunday interval. The volume of these orders was large and indicated a growth of confidence by the outside public in the value of securities. But the disposition to take profits on the strength of this outside demand caused a feeling of doubt in the minds of room traders, and the rumor got into circula-tion that the large moneyed interests which bought stocks last week were sell-ing out. The professional bears the e-upon rushed to sell at about the time when the acumulated commission house orders had been executed. Earlier gains were wiped out in practically all cases, the market faling below Saturday's level. At this point very lage blocks of stocks be-gan to be taken again and before the close there was almost a complete recov-ery. A number of the industrials, notably Tobacco, Leather, preferred, the maiting stocks and the stocks of some of the iron and steel companies showed conspicuous advances. The late trading showed a decline in animation and a slightly yielding tendency in prices. The toal sales were
