ONS BETWEEN RUSSIA D ENGLAND STRAINED.

Balfour Admits a Check In hina-He Tells the House of Commons That the Facts Set Forth In the Times Despatch Are Substantially Correct-"The Matter Is Engaging the Serious Attention of Her Majesty's Government," He ten davs. Added-The Order for the Departure of the Military Squadron From Gibraltar Countermanded.

London, Aug. 11 .- In the house of commons today A. J. Balfour, the first lord of the treasury and government leader, admitted that the facts in the Pekin despatch to the London Times today were substantially as therein set

The correspondent of the Times cabled that the Tsung-Li-Yamen had given formal assent to all the conditions imposed by the Russian Charge d'Affaires, regarding the contract for the Niu-Chang railroad extension loan, those conditions being in direct conflict with the terms of the signed contract and designed to block the completion of the contract, the whole movement being designed as a blow at British concessions.

After making the admission referred to today, Mr. Balfour added that the matter was "engaging the serious at-tention of the government." This statement was received with cheers.

A despatch received here today from Gibraltar says the departure from that place of the British military squadron, which was fixed for today, has been countermanded and the squadron has been ordered to remain at Gibraltar while awaiting further orders.

It is not known whether this change In the admiralty's plans has any connection with the situation in the Far East.

#### STRAINED RELATIONS.

Vancouver, B. C., Aug. 10 .- Mail advices from Pekin show how strained are the relations between England and Russia. It would appear that China leans toward England. A Pekin correspondent writes that the high officials of the Chinese Imperial government, with but two conspicuous exceptions, have had their eyes opened at last to the false friendship of Russia and that the gratitude of China for the aid in recovering the Liao Tung Peninsula has been misplaced. They have also begun to perceive the disinterested help of Great Britain. The North China Daily News says:

"It is perfectly true that Hong Kong and Shanghai banking corporations having arranged a loan to the Imperial Chinese railways for the construction of the intended line from Shan Haikuan to New Chwang, the Russian charge d'affaires sent to the Tsung-li-Yamen a formal written protest against it. Does Lord Salisbury propose to sit down quietly and allow the Russian charge d'affaires to annul the contract between an English bank and the Chinese government?"

A Pekin syndicate represented by Chevalier Luzzati scored again when the Tsung-li-Yamen signed a second contract with them, that time giving them control of the mining privileges and the necessary railroad and water outlet to navigable rivers in three northern prefectures of Henan

Pritchard Morgan, M. P., has left for was seriously, and at present thought Japan with the intention of returning to again press his scheme for a government bureau of mining. While such a scheme might be beneficial to the government and incidentally also to Morgan, there is not the slightest prospect of success. Even if the Chineswere willing, and they are not, still Russia would never consent to allow another service similar to the customs service to be inaugurated in China with

an English head and English staff. It is said that the Belgian loan con tract which was signed by Railway Director Shenga was accepted at £90. with annual interest at the rate of per cent. The first instalment is to be £14,000 to be used in building a railway between Hankow and Nsinyang. While the loan is to amount to £4,-500,000, the contract provides that all the materials required shall be homemade, failing in which they are to be purchased from a Belgian syndicate. Should the syndicate be unable to provide material not procurable in China, it is to be procured by public tender. The syndicate is declared to be Bel-

gian only in name, being composed of Russian and French capitalists.

## MARCH TO MIDDLETOWN.

General Davis Will Remove His Troops from Thoroughfare Gap.

Washington, Aug. 11 .- A dispach from Thoroughfare Gap, Va., says the Second division of the Second Army corps, under command of General Da vis is to continue his march and eventually locate at Middletown, Pa.

The plan contemplated by General Davis is to march his troops in a northeasterly direction to Leesburg, Va., from there to the Potomac and cross the river at the Point of Rocks and on to Frederick. The next prominent point on the route is Emmittsburg. Md., and from there the division wil pass through Hanover, York, and Harrisburg, on to Middletown. The distance by this route is about 140 miles and General Davis expects to average fourteen miles each day. The army wagons that started on the way to Camp Alger yesterday to transport the First division to Thorughfare were hastily ordered to return today. At Camp Alger it is said that the orders directing the movements of the troops will be changed so that the Second division will remain at Thoroughfare Gap and the first division will go to Middletown, Pa., or that the Second division will proceed as ordered and
