### THIRTEENTH MAY YET GO TO CUBA

GEN. GRAHAM'S CORPS SLATED FOR GARRISON DUTY.

Such at Least Is the Well Grounded Story That Reaches Camp Alger. General Gobin Has Been Told That His Men Will Be Given a Cuban Assignment-Everybody in Camp Is Discussing the New Possibility.

Special to the Scranton Tribune.

Camp Alger, Dunn Loring, Va., Aug. 18, 1898.-Word reached here today that the second army corps is to do garri-son duty in Cuba and that it will leave for Havana about the middle of October. It is not an official state-ment but the fact that officers of the highest rank discuss it as a certainty gives every reason to believe that there is some foundation for it.

This morning your correspondent went to General Butler's headquarters. The general had been in Washington for two days conferring with the president and cabinet and was to busy looking over mail to be interviewed. However, Major P. S. Strong, the adjutant general was present, and was asked to give some idea as to the present status of this corps. He stated that General Butler will be leaving here in a few days and that as a result some other major general would be appointed to command the division as General Butler will be detached from his command the moment he leaves here to assume his duties as a military commissioner.

It might even happen that the senfor brigadier general would be temporarily appointed to fill the place, and this would very likely result in the appointment of Brigadier Gobin, of the Third brigade, General But-ler will take with him to Cuba only his personal staff. Major Strong also stated that the absence of the present division commander will in no way interfere with the removal of the troops to Middletown, Pennsylvania. That will not be interrupted.

GENERAL COBIN HEARS IT. The same information was obtained at brigade headquarters and at the headquarters of the Thirteenth regiment. General Gobin was not present as he was then attending the closing arguments of the case of the Third Virginia; but a member of his staff infermed your correspondent that Genera! Gobin had been told by General Butler that the entire corps will finally go to Cuba, to be located at Havana, at the end of October. The evacuation of Cuba will not take place till then. The Spanish troops will, during the continuation of the yellow fever seasor, he required to occupy their present position and to preserve peace, till it is safe for American troops to take their place. Then, in all probability, this entire corps which has not seen service, will be required, with another corps, to occupy the province of Hav-

The opinion seems to prevail at Divielon and at Brigade headquarters, and in fact is openly expressed that there will yet be trouble with the Cubans, and perhaps violent clashes, with will give the boys a taste of actual warfare. Colonel Coursen thinks that, while we are sure to go to Middletown, it is not at all improbable that the entire corps, and, therefore, the Thirteenth regiment, will in due time be ordered to Cuba as part of the garrison which the United States proposes to hold there for some time.

Much speculation is the order of the day in the Thirteenth, not only on account of this news, but also on account of the petition of the officers to Colonel Coursen, asking him to use his best endeavors that the regiment may be sent to garrison some of our foreign possessions. It is not known what effect this may have and the subject is the one general topic now discussed throughout the regiment.

AT DIVISION HEADQUARTERS. A general division court martial is being held today. Colonel Coursen is presiding and Adjutant Stover, of the Eleventh Pennsylvania, is acting as judge advocate.

The case of the Third Virginia is being closed today, and pleas are being made by the attorneys for the Virginians. The three trigade commanders Generals Gobin, Plume and Acting Brigadier General Burdett, are present at the hearing. Division and brigade flags have been

displayed-the division flag consists of a white back ground with the red four leaf clover of the Second corps in the centre. The brigade flag is a tapering pennant, red, white and blue, with the corps sign, the red clover inscribed

The weather has taken another turn and is now almost at the old temperaature so well known during the old days spent at Camp Alger. The work of discharging men from

the Division hospital on account of physical disability continues daily. Several men have received their discharge from the service the past week. and those who could not be discharged at once were sent home on sick leave and will be discharged there.

Privates William Beckman and Harry Meinzer and Musician McDermott, of C, were in Vienna last night at a

Adjutant Coursen, of the Second battalion, has returned to Camp Alger after a week's absence.

Lieutenant J. C. Harrington, of Company G, received the following signifleant telegram this morning: born this morning. Mother and baby doing well." The lieutenant is now all smiles. When Quartermaster Sergeant Smith read it he blandly said: "Anoth-

terday in a base ball game by a score Private Karl Gunster, of C, is ill at Division hospital.

MRS. FELLOWS IN CAMP. Mrs. E. D. Fellows, wife of Captain Fellows, of F, is here visiting her hus-

band. Corporal Carter, of A, is at Fairfax court house today, looking over the in-

teresting records. Wagoner Frank Mallot, of B, is expected in camp this evening.

HEALTH CONTINUES GOOD. The health of the Thirteenth is good, only one man was brought to Division

hospital today. All patients are doing A barrel of clothing and eatables was received this morning by Chaplain Stahl from the Kings' Daughters of the Green Ridge Presbyterian church for the members of A Company, who belong to that congregation. The boys

are accordingly delighted. Privates Edward Richards and James Williams, of C, have been called home on account of sickness in their respective families. Company E's ball team beat B's representatives yesterday by a score of 29

Corporal Gus Moore, of A, is disgusted. His new Kharki trousers has two distinct shades. He says it is hardly stylish even for a soldier of Uncle Sam.

on sick leave.

Lieutenant Harrington, of G. is officer of the day; Lieutenant Davis, of eral hospital was formally opened, F, officer of the guard; Lattimer Reese, of F, sergeant of the guard; William

## WASHINGTON, HEARS IT, TOO. Cuban Garrison.

By Associated Press Washington, Aug. 18.-Information is reported to have reached Camp Alger that the Second Army Corps have been selected for garrison duty in Cuba and will leave Middletown, Pa., about the

middle of October, It is reported further that the detachment selected for the detail wif, consist of about 60,000 men to be taken mainly from the two corps commanded by General Lee and General Graham. No officer would say that such orders have been received but it is understood that this information is authentic.

THE CAMP AT MIDDLETOWN. Harrisburg, Aug. 18 .- Major General Graham received word from the war department today approving his recommendation that the camp near Middletown be named in honor of General George Gordon Meade. Things are rapidly getting into shape under General Graham and before the close of the month it it expected that all of the troops of the Second army corps

will be comfortably installed. The Thirteenth, Twelfth and Eighth Pennsylvania regiments will soon be with the command. Among the arrivals at camp today was First Sergeant Girard, of Roosevelt's Rough riders, who has just returned from Cuba. He has been assigned as assistant hospital steward under his father, Lieutenant Colonel Girard, who is the chief medical officer of the second | The Market Shows Improvement and

### WAR ECHOES.

It is announced from Bellefonte that Governor Hastings is endeavoring to arrange with the war department to bring all sick Pennsylvania soldiera from Camps Alger, Thomas, Tampa and other places in the south to Pennsylvania at once by hospital trains. He is also calling upon the several hospitals of the state who have heretofore received a number of telegrams from different state institutions and has no doubt that the state hospitals, such as the University of Pennsylvania, the Medico-Chirurgical and the Jefferson in Philadelphia, and similar institutions in Pittsburg and other portions of the state will tender their aid as soon as they learn the soldiers are to be brought from the south.

The governor is not at all in doubt but that his appeal will meet with general response. Every Pennsylvania regiment has one or more hospitals within its territorial limits. The first response came on Tuesday from the Medico-Chirurgical hospital, of Phila-

Mr. and Mrs. Andrew Brown, of Scott street, Wilkes-Barre, received the following very interesting letter from their son, Andrew, who is now employed on the battleship Helena. The young man left his home about a year ago and has since been employed

on the boat. He says: "Dear Father: With pleasure I write to you to let you know that I am well again, that my arm, which had a large boil upon the elbow, is all right. A friend of mine by the name of Hawley wrote the last letter for me, as I could not on account of my arm. We are back to Key West again; arrived here the 3d of August. I saw in some of the letters which I received from Wilkes-Barre that work is very dull in the town where I used to dwell. Well, as we left Cienfuegos, things were pretty quiet, as we had all batteries silenced from Cape Cruise to Cienfuegos, in-cluding Manzanillo, Port Tunis, Trinidid and Cabanas. In Manzanillo we sank six gunboats, a receiving ship and a large transport, which the Cuban pilot, who is aboard our ship, said brought troops over from Spain. It is too bad we did not capture them on their way, as then she would not have landed her troops. In Port Tunis, in which place we were answered back with our firing, we had a pretty warm time of it for awhile, but we stayed there and shelled away at them, firing 250 four-inch shells and about 500 sixpound shells, but in the meantime they were not slow in letting shells drive back at us, as they were dropping around pretty lively, but none struck the ship except small pieces of shrapnel, which just came over our backs and tore the navigator's pants at the knee and putting a small gash in a fellow's head by the name of Mc-

Carthy. "On our way to Key West we met the Eagle, which was formerly owned by the New York Yacht club, but now belongs to the United States navy. The captain on her said that General Miles and his army were ordered out of Santiago and to go to Porto Rico at once, which, he said, made him think as though the war was over on the isand. Let us hope so. This will be all for this time. Hoping to hear from you soon, from your son."

News was received at Camp Thomas Tuesday night that 50,000 of the voluneers will soon be mustered out, but side from the general statement that all volunteer cavalry and artillery will pe disbanded there was no intimation is to what particular regiments will

Every regiment at Chickamanga would like to remain in service, says the Philadelphia Press. Ample eviience of this will soon be afforded. Just as quick as tomorrow's great review is over every outgoing wire will e hot with pleas to prominent politiians. At every turn in the affair of this war political influence has been nunifest and the commanders here beieve that now will be the tug of war and every colonel of Camp Thomas hopes that his command will win. Preparations are being made to let 2,000 of the sick men who are conval-

escent go home on thirty days' leave of absence. The first of these left Tuesday night. Sixty men from the Fifty-second Iowa went in two private cars, accompanied to Des Moines by

Assistant Surgeon Nott. The Red Cross society has at present forty-five nurses in camp and will increase the number to 125. The work is in charge of Miss Maxwell, late super-Private Charles Whipple and Charles intendent of the Presbyterian hospi-Bacon, of D, are home for thirty days tal of New York city, assisted by Miss Crumlin. On Tuesday the G. H. Sternberg gen-

Bourke. day and night, attending to four paday and night, attending to four patients in each tent. It is absolutely dry around the tents, and the drainage of the grounds is excellent. Army Corps to Be Part of tents everything is found for the convenience of the patients, and in no hosrital in the east are the wards more perfectly arranged than in the tents of the new hospital. Men are at work sinking two artesian wells, which will furnish all the water necessary.

Major Geffin has had erected near the south flank of the camp a bacteria ological laboratory, where he proposes to have a thorough investigation as to the cause of the sickness of the camps. This department has been placed in charge of competent men, with large experience in the work.

The First Pennsylvania regiment's

sick will be taken away on Friday in

the special train from Philadelphia.

They will number about fifty.

Mr. and Mrs. Mathew Hoffman, of Wilkes-Barre, have recently received a letter from their son, Lieutenant George Hoffman, who is a member of the United States Engineer corps with Shafter's army in Cuba. Lieutenant Hoffman had a spell of sickness but has recovered and since the fall of Santiago has been busily engaged making maps of the territory which will be used in describing the campaign and

the various movements of the army

and the location of the military opera-

tions and batteries. The lieutenant ex-

pects to be kept there for some time.

## IRON AND STEEL TRADE.

Prospects Are Cheering.

Pittsburg, Aug. 18.-The American Manufacturer will say tomorrow: "It may be said that the iron and steel trade is considerably better this week than it was at last reports. Our local report shows an improvement. and at several other points prospects are much more cheering. At Philadelphia ithe most favorable change seen for years is shown in the spirit of the trade. Prices remain about the same but there is a general firming up of every direction. Several furnace companies are out of the market for months to come and there is a general feeling that a large amount of business is pig iron will be done during the next two weeks. Bessemer pillet pri-ces have advanced suddenly, as large transactions were closed. The mer chant bar mills are in better shape than they have been for some months and although prices are low they are not weak. Skelp has improved and there is an unexpected rush of orders for merchant steel. Structural orders are fair, and the plate mills are expecting a large slice of the Austrianor-der that will soon be placed. At New York there has been no material change but trade is fair. The Chicago market shows a more decided strength and there are more buyers. Southern pig iron has made another advance. A large volume of business is doing in plates, and better prices are being paid for structural material. A large tonnage in merchant steel has been disposed of, and numerous sales of black sheets are reported. At Cincinnati the total pig iron sales are more satisfactory than for some weeks. Southern furnaces have refused orders for 2,500 tons at \$6.10, Birmingham. The car works are fairly busy, a good trade in merchant steel is being done, while galvanized sheets and corrugated roofing are in fairly good demand. The pig iron trade at St. Louis is improving. In the Wheeling district the improvement continues but it is rather slow. There is a better outlook for Bessemer steel, and a fairly good demand for all grades of finished iron is reported. The demand for skelp is decidedly better. Cleveland reports stiffer prices in pig iron, a big demand for sheets, and wrought iron active."

## TROLLEY CAR WRECK.

Several Persons Are Injured at New Castle.

New Castle, Pa., Aug. 18.-This evening when the Heptasophs picnickers were returning from Cascade park one man, Cooney Hitchue, of McKeesport, Pa., was killed and several injured in a trolley car wreck. There were about 10,000 people in attendance at the picnic and on the return trip the New Castle traction trolley cars were crowded with passengers.

As a train was rounding a curve the train jumped the track in front of a train going in the opposite direction Hitchue was horribly crushed. Among those injured are: James H. Wyant and two-year-old son, of McKeesport, badly cut and bruised, but will recover,

## BODIES RECOVERED.

Remains of the Philadelphia Girls Are Swollen and Discolored.

Philadelphia, Aug. 18,-The bodies of Maud Hoffnagle and Bessie Foust, the young girls who committed suicide on Tuesday by jumping into the Delaware river together from the deck of ferry boat, was recovered today. Both bodies were bruised and swollen, and same to the surface within a few hours of each other and a short distance from where they were seen to disap-There was nothing found on them which aided in any way to indicate the motive for the double sui-

The families of both girls agree that the affection existing between them was of a close and unusual nature.

## MENDING THE CABLE.

Admiral Dewey Picked Up the Severed End on Friday.

Hong Kong, Aug. 18 .- A dispatch from the correspondent at Manila for the Associated Press confirming the capture of the town says the American troops now occupy every position formerly held by the Spaniards of whom 6,000 are prisoners. Not a single shot was fired at the fleet.

The dispatch also says that Admiral Dewey picked up the end of the severed cable on Friday, but that the line s not yet in working order. Merchantmen are leaving Hong Kong daily for Manila. A great rush of trade is expected.

Washington, Aug. 18 .- Admiral Cerera will not return to Spain immediately. The reports from Annapolis which said he would leave there for Washington today are declared at the navy yard to be incorrect. The ad-miral has made no application to leave the United States, and it is the be-lief that he will be the last of the Spanish prisoners to go home, as he appears to be desirous of seeing his men on their way homeward before he

The navy department has not taken up the question of the final disposition of the Spanish prisoners, although it has passed on one or two special cases in which the circumstances made speedy action advisable. One of those was the case of Dr. Jureda, the venerable Spanish naval surgeon, who was held with the other Spanish prisoners at Annapolis. The surgeons report that Dr. Jureda is very feeble, and while he might be able to reach Spain if released now, he would not be able to make the trip a month hence. The navy department accordingly directed his release, and the Spanish chaplain will be allowed to accompany him to

Ten Deaths Occurred From It in Hamburg Yesterday.

Hamburg, Aug. 18.-Ten deaths from

ill on the streets.

### DUTIES OF THE STAFF.

What the Ten Departments Do for the Army.

From the New York Tribune. The appointment of civilians to staff offices has caused much inquiry as to the functions of these departments, which shows that civilians have only an imperfect idea of the duties of the men who have gone from their desks, their stores, law offices and counting rooms to the front, and who have exchanged the conventional garb for the

blue of Uncle Sam. There are ten staff departments. The heads of these are known as adjutant general, inspector general, quartermaster general, judge advocate general, surgeon general, commissary paymaster general, chief of ordnance chief of engineer corps and chief of signal corps. These heads all have the rank of brigadier general, and each department has deputies and assistants with ranks ranging from colonel to second lieutenant. There are in all 487 officers in the staff departments of the United States army, of whom the largest number, 168, are captains and the smallest number, 10, brigadier gen-

vera's fleet, has also received special attention by the department. It appears that Captain Moreu is not only an officer of the navy, but is a member of the Spanish parliament. With the prospect that the parliament would reassemble at an early day, Captain Moreu was desirous of returning to Spain and appearing in the sessions, In particular he expressed the desire of telling the Spanish parliament of the generous treatment accorded to him and all other Spanish prisoners by the United States. The officials here felt that such a statement from Captain Moreu could but have a salutary effect. His release was ordered ac-
