THE BASEBALL GAME.

At End of Sixth Inning Carbondale and Honesdale Had 5 Runs Each.

A fair sized gathering was that which assembled at Alumni park yesterday afternoon to see Carbondale defeat Honesdale at baseball. After six inhings had been played, the score 5-5, the Maple City boys left to catch the train for home, while the disgruntled spectators gave free expres-sion to their displeasure. The an-nouncement that in case the game ended in a tie another game would be played next Tuesday for \$50 did not pacify them in the least. They paid to see a game of ball, nine innings, and there was no good reason why should have been disappointed. To be sure the management needs the revenue of another game to meet expenses but that fact hardly justifies vesterday's shortage. The game might have been started on time, a half hour earlier, and been finished.

However, the clubs were pretty evenly matched and when they meet again every lover of baseball should witness the contest. O'Gara pitched yesterday and aside from a little wildness at times did excellent work, keening Honesdale's hits few and scattered At 5 o'clock each club has five in-nings and five runs to its credit.

LEG FRACTURED IN BED.

Peculiar Accident to a Woman Who Resides Just Above This City.

One of the most peculiar misfortunes recorded in the medical history of this section is that of Mrs. Peter Curnow, who lives at the Ontario and Western railroad yard just above this city. She has suffered a fever sore on one leg for twenty years and has been bed-ridden because of it for the past five years. Monday while turning in bed she heard two snapping sounds, which were followed by some pain. When Dr. D. L. Balley arived, he found that both bones had been fractured. Amputation will follow if the patient is considered strong enough to undergo the ordeal successfully.

MULES CREATE A STIR.

A team of mules from the Richmondale colliery were frightened by the Germania yesterday. A lad was holding them in front of Roberts & Rey-nolds', but he became scared and jumped out. At the Harrison House the mules struck Ole Oleson's cab and turned the vehicle bottom side up and the horse was reversed in the thills. Opposite the Columbia hose house a light road wagon hooked to a horse stood near the curb. The runaway mixed the wagon and horse up so thoroughly with a neighboring electric pole that the knot wasn't untied for fifteen minutes. In front of the First National bank William Evans' dray wagon and horse stood. The rear of the runaway struck the dray and shot horse and wagon into the middle of the sidewalk. At William Brunig's bakery a farmer with a wagon load of produce tried to scare the mules wide of his wagon by cracking his whip at them.

They retaliated by cracking the hind wheels of their vehicle against the

A Pretty Wedding Solemnized-Per-

A very pretty wedding occurred on

Monday evening at the residence of Mr. and Mrs. Thomas H. Jenkins, of

Union street, when their daughter,

Miss Mary Jenkins, was united in

bonds of holy matrimony to Mr. Wat-

kin Morgans, a popular young man of

Hyde Park. Rev. Dr. H. H. Harris, of the Calvary Baptist church, per-

formed the ceremony, which was wit-

nessed by a very large concourse of friends of both principals. The inter-

or of the parior in which the service

was conducted was prettily and very

appropriately decorated. The bride was

attired in white trimmed with lace and

carried a bouquet of roses. She was

attended by Miss Lizzle Urweider,

whose costume was similar to that of

the bride. Mr. Richard Jenkins, broth-

er of the bride, was best man. Miss

Lydia Haskins played the Mendelssohn

wedding march. At the conclusion of

the ceremony a wedding supper way

served, and a reception followed. They

to the nerve-centers. There never was any other medicine

so scientifically devised for the express benefit of womankind; there never was any other which accomplished this purpose so completely and permanently. It is a temperance medicine, not a mere stimulant. There is no alcohol in it, no narcotic drugs. The persistent use of preparations containing such agents is liable to awaken a morbid, intemperate craving. The "Favorite Prescription" develops no bad habits. The health it bestows is natural, genuine, vigorous and permanent.

We recommended it to one of our neighbors and she tried it and the result is a fine big boy. Her two bables before this one were born dead, after she had suffered untold misery. She feels very grateful for the 'Favorite Prescription." A PLAIN DUTY. Fivery husband who feels that his wife's health demands the attention of an expert, scientific specialist, and

every alling woman who is down-hearted and discouraged with weakness and incapacity in a womanly way, should feel absolute confidence in writing to Dr Pierce about these troubles. He will answer all such letters phomptly and earnestly; and will give

carefully considered, fatherly, professional advice without charge. He will prescribe simple and inexpensive selftreatment whereby any woman, in the privacy of her own home, may, in almost every instance, effect a complete and permanent cure. Any reputable dealer can supply you

with Dr. Pierce's Favorite Prescription. A dealer who doesn't supply it to you doesn't want to. Some dealers would rather sell you a substitute on which they can make more than the fair profit which this great standard "Prescription" allows them. Your health or judgment is of no account to such a dealer. This kind of substitute is an insult to your intelligence. Show him that you know what you want. Insist on Dr. Pierce's Favorite Prescription, and you will get it.

THE BIELE OF THE BODY.

One of the greatest medical books of the present century is Dr. Pierce's thousand-page illustrated Common Sense Medical Adviser. It has been termed "The Bible of the Body"-because what the Bible is to the soul this book is to the physical man. Twothirds of a million copies were sold at \$1.50 each. The profit on this enormous sale induced Dr. Pierce to issue a new edition in paper-covers which will be sent absolutely free-one copy only to one family-on receipt of 21 one-cent stamps, to pay the bare cost of mailing only, enclosed to World's Dispensary Medical Association. Buffalo, N. Y. Or send 31 stamps if a heavier, handsomer, cloth-bound copy is desired.

In one chapter of this grand book nearly a hundred pages are devoted to the consideration of the diseases of women; with an account of many severe and obstinate cases which by means of Dr. Pierce's scientific, common-sense treatment were promptly relieved and permanently cured.

woman whose life is embittered and poisoned by the weaknesses or diseases peculiar to her sex, cannot but feel that this penalty which nature has inflicted on her is more unreasonable than the despotism of a Spanish tyrant. How startling it seems that a true woman, capable in heart and soul of being a loving wife and mother, should, by sheer physical incapacity, be deprived of the crowning happiness of

womanhood. A QUESTION FOR HUSBANDS. This is something for every husband in the land to consider, and then determine if there be not something more

than fine furniture and beautiful surroundings needed, and which he can furnish to brighten his wife's existence, and to make his home, as it should be,

the ever-living source of comfort and No one can give an ailing, sensitive woman too much sympathy. The best of husbands cannot half appreciate what she suffers. If the doctor is called in, ten to one he will not diaglose the case correctly. The ordinary local practitioner has no special knowl-

edge of special diseases. He will probably prescribe for "indigestion" or "liver complaint" or "heart trouble," and never once reach the real fundamental trouble lurking in the organs distinctly feminine

If every ailing woman could know what Dr. Pierce's wonderful "Favorite fifth child and the only one who came Prescription" has done for countless thousands of her suffering sisters, female complaints would become almost unknown throughout the length and breadth of this country. This extraordinary "Prescription" is the outgrowth of thorough education, deep research and an almost unparalleled experience.

Its originator, Dr. R. V. Pierce, of Buffalo, N. Y., has devoted a long life of earnest effort to the study and treatment of the various diseases peculiar to women.
