PEACEMAKERS ARE SELECTED

JUDGE GROSSCUP MAY BE ON THE COMMISSION.

Efforts to Obtain His Appointment He Is a Close Friend of the President. Who, It Is Reported, Approves His Views as Expressed at Saratoga Recently-Senator Frye Almost Sure to Be One of the Envoys to Paris-General Tracy Another.

Washington, Aug. 24.-From a member of the cabinet comes the statement today that Senator Frye has been added to the peace commission and that one vacancy remains. For that there is talk of Justice White, of Louisiana yet in the past few days considerable pressure has been brought to bear in favor of Judge Grosscup, of Chicago who delivered an address at the Saratoga conference Friday urging the re tention of the Philippines.

Judge Grosscup is a close personal friend of President McKinley, and has been one of his political advisers. His counsel has had weight at the White House on more than one occasion, and it is intimated in administration circles that the president was aware of the character of his Saratoga address in advance of its delivery, and that he interposed no objections to it.

URGED BY WESTERN MEN.

Leading Western men have urged the president to put Judge Grosscup on the commission on the plea that the advocates of expansion should have vigorous representation. As now thought to be constituted, the commission has a substantial majority in favor of expansion.

Secretary Day is the only member who is opposed on principle to retaining more than a coaling station. Senator Davis favors retaining the entire group. Senator Frye, while not so strong an expansionist as Senator Davis, is favorable to a policy which shall involve at least the bringing of the entire group under American pro-

General Tracy, if he becomes a member of the commission, may be counted on to assume as aggressive a position as ex-President Harrison would have

There is reason to believe that the administration has no idea of abandoning any part of the island of Luzon. The problem before it is to secure the permanent peace of the rest of the group without accepting the responsibilities of permanent possession. In other words, the president aims to have the largest commercial advantages with the smallest possible extension of territory.

AGUINALDO'S CRACK BAND.

It Made the Yankee Troops Distend Their Ears in Glee.

Manila Letter in the Sun.

There may not be gains for all our losses, but surely there are for some of them. The thing which we least expected we should find out here is good music. A wonderful band From the Philadelphia Times. marched up the muddy Calle de San Francisco from Aguinaldo's headquar ters this morning and for an hour serenaded General Anderson with playing that would set the music lovers of New York wild with excitement,

The average Filipino does not pre sent the appearance of a musician or a music lover. But for his bright, intelligent eyes he would look like a stupid Patagonian sheep herder. There are few musical instruments in the native villages. Once in a while one runs across a tin-pan-toned cracked piano, horribly out of tune, and two or three places have harps. But this band, composed entirely of Fittpinos. worthy to rank with the bands of the world. It was the famous Military band of Manila, where it used to furnish classic music on the Lunetta when the aristocratic Spaniards went au for their evening drive or promenade And occasionally, or oftener, it was turned out to play while a few dozen of the musicians' people were shot for charge of sympathizing with the insurrectionists or some other trumped up accusation.

In Manila there were seventy-two tached to her waist belt. members. Sixty of them managed to get away with their instruments and music. This morning forty-eight played on the little piazza in front of General Anderson's headquarters. And such playing! It was recompense for every discomfort, every vexation, every disappointment, every hardship 7,000 miles in a troopship, the last 5,000 at half steam in a tropic sea. You shut your eyes and heard the orchestra of the royal opera at Vienna, the great Budapest band, the famous

A man in the darkness of hopeless discase is of all men most miserable. When
doctors and medicines innumerable have
been tried and found wanting, and loving
friends vaiuly urge upon him the food he
cannot eat and which brings him no nourishment or strength, what is to be done?

Men and women who have sunken so
far into weakness and disease that the
whole body seems to be permeated and
poisoned by it have found health,
strength and vigor through the transforming, electrifying power of that wonderful
"Golden Medical Discovery" which Dr.
R. V. Pierce, of Buffalo, N. Y., proffered,
thirty years ago, to sick and suffering humanity. A man in the darkness of hopeless dis-

During all the years since then this marvelous "Discovery" has been building up weak and debilitated constitutions by its weak and debilitated constitutions by its extraordinary influence upon the human, nutritive system. It gives the digestive organism keen power and capacity to appropriate every life-giving element from the food taken into the stomach and transforms it into rich, highly vitalized blood and healthy flesh, bone, sinew and nerve fiber.

Consumption in all its earlier stages is arrested and counteracted by the tissue-building flesh-making life-promoting power of this grand medicine and there is no darkness of bodily ailment so dense but it will shed upon the sufferer the light of renewed hope.

Dr. Pierce's Pellets cure constipation.

military band in Berlin, the Boston Symphony at its best, Seidl's finest work, anything in the world. never a note in front of them, they played what you liked, any part of any opera, the grandest music ever written, or a simple Strauss waltz or a folksong. And the bass drummer was the leader. You will never hear a bess drum really played until you hear that Filipiino do it. He makes a bass drum talk, cry, sing, shout. It fits the mood and movement of the music. It is subordinate or dominant, soft, subdued, or loud and roaring; it laughs and chuckles like a thing alive; it raves and protests like an angry soldier, and all in perfect harmony and sympathy with the rest. The ambition of the average bass drummer is to develop the muscles in his arms. He pounds the uncomplaining drum as if he were swinging clubs for exercise. But with this Filipino it is a science and an art, and he is master of both.

It is a curiously organized bandbass drum, two snares, a lyre, five tubas, eleven saxophones, big and little, eleven clarinets, eight cornets, one ballad horn, and four altos and tenors. They played songs from "Faust," and I sat in the Metropolitan Opera House and heard and saw the vast audience get to its feet with frantic cheers when Calve and the two de-Reszkes finished the prayer song. They played, but no telling describes what they played. Come out when we take Manila and sit under the arc lights on the Lunetta and hear them play for yourself. The 10,000 miles you have come from New York will drift into nothing, and you will hear only the music and be glad you are alive.

SAMPSON SIDES WITH GARCIA. General Castillo Also Says That Shafter Broke Faith.

Washington, D. C., Aug. 24.-Admiral Sampson before returning to New York to see hs family expressed approval of the following interview published in a local paper:

"I was very favorably impressed with the Cubans," said Admiral Sampson. "General Garcia is a grand old man and I learned to admire him during my short stay before Santiago. 1 think it very natural that he should withdraw his men when it seems that he was not invited to witness the surrender of Santiago. It has been asserted that he was invited by General Shafter. As to that I do not know. He said himself that he was not, and under the circumstances it was appropriate that

he should be invited." New York, Aug. 24.-Brigadier General Joaquin Castillo, who accompan-ied General Shafter to Cuba as a representative of the Cuban army and the Cuban civil government, has just returned to this city. He said:

"Before the American forces landed General Shafter and Admiral Sampson met General Garcia at Aserraderos for a conference, at which I was present. General Shafter there, of his own accord, promised Garcia that on the surrender of the city it would be turned

A SELFISH CRAZE.

Woman's Devotion to Her Dog Can so be Called.

Among selfish crazes, the pet dog craze stands pre-eminent. It is not that affection and care for animals which is one of the traits in human nature, but the adoration which makes everyone else suffer, puts children, friends, acquaintances, husband, all in the background of indifference. To such an extent is this mania some times carried, that the ordinary rules of politeness are ignored-rules which in good society have often a prior claim

to the rights of relationship. For example, there was one lady who used always to keep husband, friends and all, waiting for breakfast till she had given her pet pug the kidneys and cream provided for its morning meal and no one was allowed to occupy a certain part of the hearth rug, as that would disturb his dogship; neither ould more than three go for a drive in the carriage, as that would be monopolizing the pug's seat. When this dog died his owner had an in methe edification of the multitude on the moriam bracelet made of black enamel, with his name set in diamonds. An other lady had five pugs, whom she used to lead by five silver chains at-

THEATRICAL.

"A Day and a Night."

When Hoyt's newest work, "A Day and a Night," is presented at the Lyceum Saturday evening, it is fair to presume that it will call out an audience that will wright has written and produced a score r more of successes, but from all re-orts the one that will bring him the most dollars and place him still more rominently before the public as the nost successful author, is "A Day and a Night." In making the many changes and improvements he has since the piece was last seen here, it is claimed that he has never shown a more thorough knowl a piece than in this production.

"The Girl I Left Behind Me."

What is universally quoted as the trongest American play ever written. The Girl I Left Behind Me," is the opendirection at the Academy of Music for three hights beginning August 29, Monday night, with usual matinees. This famous drama is one of the most exciting and thrilling that has ever been played upon the stage and exercises a fascination over all who see it that is marvellous. So skillfully have the authors, David Belasco and Franklin Pyles, constructed their play that the auditor is payer allowed to lose interest. ever allowed to lose interest from begin-ning to end and firmly believes that he s watching the actual exciting events of he story instead of being present at a heatrical performance. 'The Girl I Left Behind Me" will be interpreted by a com-pany of competent and excellent artists while the scenic display will be accurate

THIRTY-SECOND NATIONAL EN-CAMPMENT OF G. A. R. AT CIN-CINNATI, O.

and gorgeous.

Reduced Rates via Pennsylvania Railroad.

For the thirty-second National Enampment of G. A. R., to be held at Cincinnati, O., September 5 to 10, 1898 the Pennsylvania Railroad company will sell excursion tickets at rate of single fare for the round trip.

These tickets will be sold on September 3, 4 and 5, and will be good to leave Cincinnati returning not earlier than September 6 nor latter than September 13, except that by depositing ticket with joint agent at Cincinnati on September 5, 6, 7, 8 or 9, and on payment of twenty-five cents, return limit may be extended so that passengers may remain at Cincinnati until October 3.

THE MARKETS.

Wall Street Review.

New York, Aug. 24.-There were several quite important movements of positive strength in the stock market today, but the preponderating influ-ence of several weak features and the very heavy profit taking by large holders of leading stocks nullified them. A sharp advance in the grangers at the opening due to buying by commission houses, and bidding up of prices by traders, resulted only bringing very heavy offers to realize. There were change of speculative interest from St. Paul and the grangers into some of the lower-priced stock, with dividend prospects. Northern Pacific was most conspicuous in this class and was absorbed in enormous blocks, closing at the top at an advance of the. There was very large demand for People's Gas and marked strength in some individual stocks, but these were not sufficient to offset the persistent profit taking. Manhattan was weak and closed two points below last night. Total sales were 512,100 shares.

CLIMATE OF PHILIPPINES.

Although Tropical it is Healthy Even in Summer. From Scribner's.

In regard to the climate which a forelgner encounters, it is easy to exag-gerate its discomforts; although it is tropical, still even in summer the climate may be called healthy. From December to March there are warm days, with cool nights and little rain. During March, April and May the days are hot, dry and dusty, while the ther-mometer rises to 96 degrees at noon; but the nights are not uncomfortable In the latter part of May and of June there are thunder storms every afternoon with a tremendous downpour of

The greatest heat occurs in these months, the thermometer rising fre-quently to 105 degrees in the shade. July, August and September are the months of the great typhoons, and while Manlla escapes the greatest fury of these, still enough of their force remains to demolish many houses. Dur-ing October and November storms lessen in frequency and severity, and the weather gradually settles into the fine days of December.

WHAT EUROPE HAS LEARNED

From the Philadelphia Bulletin. It is no exaggeration to say that the United States occupies today, in the eyes of the great nations of the globe, a wholdifferent place from that which it held four months ago. Continental Europe clung to the belief that the American people were a collection of traders and money-grabbers, who worshipped the al-mighty dollar and lacked the ability to carry on vigorous war outlde their own territories. Dewey, at Manila; Schley, at Santiago, and the superb daring of Shafters troops in front of the enemy's intrenchments have relegated that belief to the limbo of dead superstitions. The accuracy of American gunners, the skill of American seamanship and the grim tenacity of American soldiers have con-quered a respect that is as wide as the boundaries of civilization. Henceforth the words of the official representatives of the United States at foreign capitals will carry a weight which they have not
