CARBONDALE.

[The Carbondale correspondence of The Tribune has been placed in the hands of Mr. C. R. Munn. Salem avenue and Church street, to whom news items may be addressed. All complaints as to irregular delivery, etc., should be made to Roberts & Reynolds, news agents.]

DEATH OF MRS. BASSETT.

A Well Known Resident Passes to Her Eternal Rest.

Mrs. Jane Bassett died yesterday morning at ten o'clock at her home on Thorn street.

She was born in Scranton August : 1863 and was therefore thirty-five years of age, She was formerly Miss Ida Austin and had lived in this city for the past eighteen years. Previous to her marriage to Mr. Bassett which occurred February 17, 1882, she resided with her cousin Mrs. G. W. Samson on Canaan street.

As a member of the Methodist church of this city she commanded the respect and esteem of a great number of friends in her church work and was identified with good and charitable deeds all through her life and there e.. many others than her immediate associates who will mourn her loss as skind and loving friend.

Hart.

backed

Mr.

She is survived by her husband and two children: Ophelia, aged two years and Jane seven days, one brother H. P. Austin, of Scranton, two sisters, Mrs. W. S. Williams, of Binghamton, and Mrs. J. T. Snover, of Hallstead. The funeral services will be held at the house Monday afternoon at two o'clock and interment will be made in the Brookside cemetery.

ANOTHER ORNAMENT.

C. O. Mellon's New Residence a Desirable Addition to City's Homes.

Within the past five years several beautiful residences have been erected which enables Carbondale to boast of homes which compare favorably with any in the country. That of C. O. Mellen now in course of construction on Lincoln avenue and Springstreet, will be a lasting ornament. The first story of Forest City white stone has been completed and the second story is well adanced. The house will be under roof in a few days and ready for occupancy in the late fall.

When finished the residence will present an imposing appearance . The tower will be two stories of stone while the body will be shingled above the first story. The third story will be en-closed by a steep roof, embellished by dormer windows. Stereo-relief work will form a portion of the exterior ornamentation. Massive blue stone steps eighteen feet long will lead to a ten foot porch which will run the entire length of the house.

At the entrance to the reception room will be a Dutch door and at the rear stained glass window. The parlor and library will be finished in white wood and the dining room in oak.

BICYCLE RACE MEET.

Will Be Held at Alumni Park About the Middle of September.

Six young men of this city have assumed the responsibility of giving the ing people of this vicinity a bicycle race Evening "The Suppliant for Admismeet at Alumni Park about the middle of September. street. A party of ladies spent yesterday at Crystal lake. They were: Mesdames H. A. Willman, W. S. Badger, George Walters, Rodgers, Wm, Bell, Charles Davis, Osborne, H. D. Swick, and Mrs.

McDonnell, of Avoca. The condition of Oscar Manus is unhanged. There appears to be no hope whatever of his recovery.

Mrs. George Pendred, jr., who has been seriously ill, at her home on Second street, is very much better.

OLYPHANT.

An alarm of fire was sounded from box 25, at 12 o'clock Thursday night. The home of Patrick O'Malley, of Welsh Hill, caught fire from the stove pipe. The fire was extinguished before the fire company reached the place.

Belinda Carrol, of Carbondale, is visting friends in this place. Miss Mary Dougher, of Wilkes-Barre,

s spending a week here with relatives. C. M. Hathaway, jr., is spending a few days at Lordsville, N. Y.

THE TIGER RETREATED.

How an Acrobat Scared a Man-Eater Out of His Wits.

From the Cornhill Magazine.

It will be necessary for the sake of my story to mention a certain peculiarity of tigers. It is admitted by most experts, among others by professional tiger tamers, that this ferocious beast is at heart an arrant coward, and seldom dares, unless rendered desperate, to attack a strange and unknown animal, especially if it appears to be large. The man was a contortionist. When not actually engaged in his labors he

would often go for long strolls in the field to keep himself in trim. One day he happened to wander farther out than usual. The country was rather open, with an occasional tree here and there. It was also undulating, so that as he walked along he would sometimes disappear from sight behind a ridge

and then appear on the next. On this eventful day, just as he reached the top of a mound, what was his dismay to see a tiger right ahead of him, and not more than five or six hundred yards away. Before he could hide himself below the mound the tiger had caught sight of him and began to bound along toward him at top speed.

Having no means of defense, there was nothing for him to do but start a race toward the nearest tree. The tiger, however, was by far the better unner of the two, and was visibly gaining on his competitor. The man realized that long before he could each the goal the tiger would be upon

him. What was he to do? In sheer desperation, he resolved upon a desperate scheme as his last and only resource. Just as he disappeared from the tiger's sight for an instant over a

ridge he halted, stretched out his legs at right angles, curled down his head between his legs, so as to look at the rear, and extended his arms upward far and wide in a fantastic manner, like the sails of a windmill. The tiger

containing \$70 square miles, upon which is situated the famous leper settlement. Northwest of Molokai is the island of Oahu, containing 609 square miles, and on the southwest coast of which is situated Honolulu. The highest mountain peak on Oahu is 3,310 feet high. Northwest of Oahu is the island of Kauai, containing 599 square miles. It is tropical in character, fertile, and abundantly watered. as is Oahu. Southwest of Kauai is Nilihau, containing 97 square miles. Southwest of Nilhau is the islet of Kaula. The islet of Lehua is north of Niihau. The most northern of the group is the islet known as Modo Mann or Bird island. POPULATION.

According to the census taken on Sept. 27, 1896, the population of the group was 109,020, only one-third of whom were females. There were 31,-019 Hawaiians, 8,485 part Hawaiians, 24.407 Japanese, 21,616 Chinese, 15,191 Portuguese, 5,260 Americans, 2,257 Brit-ish, 1,432 Germans, 101 French, 378 Norwegians, 455 South Sea Islanders

and 600 of other nationalities. Honolulu had a population of 29,920. The people were engaged in the following pursuits: Agriculture, 7.570; fishing and navigation, 2.100; industry, 2.265 commerce and transportation, 2.031; liberal professions, 2,580; laborers, M.438; miscellaneous pursuits, 4,310, As to religion there were: Roman Catholics, 26,363; Protestants, 23,773; Mormons, 4,886 Buddhists and other ults, 44,306; without indication, 10,-

192. In 1850 there were 178 schools with 10,000 pupils. In 1894 there were 51 vessels belonging to the islands, of 21,549 tons. There are about 71 miles of railroads in the islands of Hawaii, Maui and Oahu. There are telegraphs in Maui, Hawaii and Oahu, their total ength being about 250 miles. Nearly every family in Honolulu has a telephone. The city is lighted by electricity and has street car lines. The various islands are connected by tele-Although the soil of the islands is

olcanic it is very fertile. Sugar is the principal crop raised for export. In 1896 the exports of domestic products were \$15,436,000 in value, of which \$15,-408,000 went to the United States. The principal exports were sugar, for \$14,-932,000; rice, for \$195,000, and bananas, for \$125,000. The total value of the

mports for 1896 was \$7,165,000, of which \$5,464,000 came from the United States \$756,000 from Great Britain, \$299,000 from China, \$276,000 from Japan, \$114.-000 from Australia, \$148,000 from Germany, and \$108,000 from other countries. The total receipts of the government in 1896 were \$1,997,818 and the expenditures \$1,904,191. The amount of the public debt on December 31, 1896, was \$4,136,174. The army consists of a regiment of eight companies numbering 476 officers and men. From these facts and figures an intelligent idea can be gathered concerning the island territory which is henceforth to be under the flag of the Stars and

Send for pamphiet. said: "On becoming a mother-in-law the torment of being a daughter-in-law hove in sight in a few seconds. At | Wm. Q. Clark, 326 Penn Ave, Scranton Pa, is forgotten!"

Like in some other countries, the mother-in-law in India is the bete noir of the daughter-in-law's existence, says the New York Press. Her duty of dealing strictly with the young girl, who has only lately experienced a mother's petting, may make her appear harsher than she really is; yet when all has been said in her favor it must be candidly admitted that she is excessively hard and unsympathetic, and that the girl's dislike of her is quite reasonable. Every proverb which speaks of her gives expression to one and the same sentiment-she is unpopular because she is harsh toward her suna (pronounced "soon"). her daughter-in-law. For a few years at least the sasu (mother-in-law)

reigns supreme, and as another prov-erb expresses it, "The daughter-inlaw must dance to the mother-inlaw's music." In some phases and sayings the sasu is represented as attacking her suna indirectly; if she did it directly she knows the girl would complain to her parents of harsh treatment, So she grumbles at the cooking-pots, or she lectures the fowls as to what duties are expected of a young wife; but it is all meant as a cap to fit the daugh ter-in-law's head. Hence it is said: "The words are addressed to the fowls, but the daughter-in-law takes notice of them;" and again, "Talking to the saucepans, it affects the daugh

ter-in-law." If the young wife has any spirit left in her this continual nagging can have only one effect. It developes a rebellous course of behavior, and it makes her thoroughly detest the home she is in and all the people belonging to it. Of the two homes with which the young wife is connected, her mother's is the one she loves, her mother-inlaw's the one she dislikes. "Thorns prick her," it is said, "on going to her mother-in-law's; but she feels delight in coming to her mother's." In the

latter home she is sure of affection and of freedom from drudgery, and a willing ear will be lent to her tale of bickerings, quarrels and ill treatment. "Happiness in a mother's house, pain is another in a mother-in-law's,"

proverb to the same effect. The young wife has one consolation; it is that the sasu does not live forever. A day comes when the sasu gets old and infirm, and, although there is no little kindness and gentleness in the average Hindoo home, yet the aged ones among the people do not always receive the care they might. So, as the sasu gets old, or, when her husband dies and she becomes a widow, the daughter-in-law has a fair opportunity of practicing "tit for tat." As years pass by the wife finds herself grown to middle age, with sons

about her, for one of whom a young wife is soon brought home, and she in her turn becomes a sasu. All the unpleasantness she herself had to bear when first married might be expected to awaken a little sympathy in her mind for the girl brought to her to train; but, human nature being what it is, no sooner does she become a sasu than she begins to look back on the treatment she received as being quite correct after all, and straightway she begins to practice it herself. For it is

is a proparation of the firing by which its injurious effects are removed, while the valuable medicinal properties are re-tained. It possesses all the sedative, anodyne and anti-spasmodic powers of Opium, but produces no sickness of the stomach, Eo vomiting, no costiveness, no becadache. In scute nervous disorders it is an invaluable remedy, and is recom-mended by the best physicians. s an invaluable remedy, and i mended by the best physicians
