

AGUINALDO IS AN ALLY

The Insurgent Recognized by Our Commanders at Manila.

INSURGENTS AS WARRIORS

Washington, Aug. 30.—The war department is in receipt of information which may have a most important influence on the deliberations of the peace commission. An official report has been received which settles the dispute as to whether General Aguinaldo was recognized as our ally during the operations in the Philippines, and settles it affirmatively. Not only was he recognized as our military ally but his conduct and that of his troops drew out the warmest commendation from our commanders in the field.

The insurgents are described in official correspondence as being splendid fighters, and it is added that they have been most useful in the drudging labor of camp and field. In throwing up entrenchments and in performing the other routine work pertaining to a siege they are described officially as fully the equal of the American troops.

The fact that Aguinaldo was recognized as a military ally and that his co-operation was of great value to our troops is to be taken into account in the creation by the peace commission, the extent of the recognition and of the co-operation of the insurgents with the American army is not known, neither is it known how close were the relations between the two armies or what obligations were incurred. But if General Aguinaldo was recognized formally as an ally by the American general it is impossible for the American peace commissioners to dispose of the islands without taking him into account.

The information regarding General Aguinaldo was not received until it had been decided that General Merritt should go to Paris to advise the peace commission. His presence will now be the more necessary, as he can explain the nice points with regard to our relations to the insurgent leader.

Manila, Philippine Islands, Aug. 30.—Opacine, the insurgent leader, is going to Hong Kong in order to confer with the insurgent Junta there. He will receive General Aguinaldo's final instructions by cable. Agonillo, another of the insurgent leaders, is going to Washington.

It is considered probable that the insurgent Junta of Hong Kong will send a delegate to the Paris peace conference. General Aguinaldo remains at Bakoor.

Hundreds of unarmed insurgents visited Manila yesterday.

Rear Admiral Dewey has declined to permit the cordial relationships to resume pending a settlement of the Philippine question.

General Rios, the Spanish governor of the Visayas islands, is reported to have proclaimed himself governor general of the Spanish dominions in the Philippine islands and to have invited the adherents of Spain to rally to him.

Members of the Ninth Were Among Them.

Harrisburg, Pa., Aug. 30.—The Pennsylvania hospital train, containing sick and injured soldiers from the southern camps, reached this city at 2:40 o'clock this morning in charge of Governor Hastings. The train was run over the Cumberland Valley tracks to the door of the Harrisburg hospital, where the streets had been roped off to keep back the large crowd of people which assembled even at that hour.

Accommodations had been prepared for seventy-five patients, but only nineteen were taken from the train here, a larger number than was expected having been taken from the train at Altoona and other stations along the route to this city.

A special train containing men for Wilkes-Barre and Williamsport left at 3:30 in charge of Adjutant General Stewart and Major Simon B. Cameron. The names of the men left in the Harrisburg hospital are:

THE HAZLETON STRIKE.

Miners at Coltraine Colliery Make Demands That Have Been Rejected.

Hazleton, Pa., Aug. 30.—A committee of the Hazleton colliery, the foremen employed at the Coltraine colliery held a conference this afternoon with Superintendent Roderock. The men demanded the reinstatement of the discharged laborer and the discharge of the foreman, Joseph Harris, who dismissed him; stoppage of colliery work by the company for the company doctor; the employment of none but union men; adjustment of a wage scale agreed upon last fall, but allowed during the strike by order of the late A. S. Van Winkle.

Superintendent Roderock refused to grant any of the demands and the committee returned to the mine. The United Mine Workers summoned from the Minesville colliery, also operated by the Van Winkle interest, withdrew. Evening work was done about the mines today. Superintendent Roderock stated tonight that the company will win this strike if it takes six months to settle it. If it takes more than six months the colliery affected will probably be closed down for an indefinite period. The English speaking miners are not concerned in the matter at all, but fear to return to work less they be violently dealt with.

"I believe we are entering on an era of commercial expansion beyond the limits of our territory which will be more far reaching in its operations and more magnificent in its results than any of us can now foretell."

KILLED BY NEGROES.

Story Regarding the Death of Quartermaster Franks.

Altoona, Pa., Aug. 30.—Soldiers passing through Altoona told a strange story regarding the death of the quartermaster, George B. Franks, of Company G, Twelfth New York regiment. The regiment returned to Chattanooga, because of the death of three hospital patients after drinking milk sold by negroes living in the neighborhood, the quartermaster, Company B, would not allow the negroes to sell anything to his company. Friday night a gang of negroes came to the outside of the camp grounds and after beating him nearly to death, threw him under a passing rail road train.

Since then the guards have been ordered to shoot any negro who attempted to cross the camp lines.

GROSVENOR IS WELL SATISFIED

OHIO MEN FIND NO FAULT WITH ALGER.

Grosvenor States That He Never Saw a Body of Soldiers Better Fed and Better Clothed—He Explains the Cause of Disaffection—The Men Much Better Off Than Soldiers of the Civil War.

Washington, Aug. 26.—Representative Grosvenor, of Ohio, called at the war department today in company with ex-representative Thompson to report to Secretary Alger the results of their visit of inspection of the camp at Dunn Loring and particularly the state of affairs in the Seventh Ohio Volunteer regiment. General Grosvenor was emphatic in his approval of what he saw. He said:

"I never saw a body of soldiers better fed, better clothed and better sheltered, than is the Seventh Ohio regiment at present. So much for the general condition. Now as to particulars: There were 1,200 men in the regiment. Except from suicide there have been but two deaths among them since the organization four and one-half months ago. Including the men who were at home to recuperate, there were in the hospitals there were only 41 men not able to report for duty yesterday morning. A finer, abler set of men, I never saw in my life."

Continuing general Grosvenor said that the disaffection among the soldiers was all traceable to the fact that they had not been able to get to the front. On the whole, he (Grosvenor) was satisfied the men were very much better off than were the soldiers in the Civil War. This last view was confirmed by Senator Allen of Nebraska, who called at the war department to get news about the Second Nebraska regiment, which he was told was en route from Chickamauga to Omaha. He expressed the main complaint among the men was the enforced detention at the camps instead of being sent to the front. So far as their physical condition was concerned, while the men had suffered a good deal at Camp Thomas, so far as he could judge from his own experience in the Civil War, they were certainly no worse off than the soldiers then engaged.

LAKE SHORE LIMITED.

It Will Not Be Withdrawn from the New York Central.

Buffalo, Aug. 30.—George H. Daniels, general passenger agent of the New York Central railroad, today when asked what foundation there was for the report that their limited trains would be withdrawn, said:

"The story is utterly false. You can state for me and put as positive and forcible as you can, that the Lake Shore Limited, which is our fastest New York-Chicago train, will continue to run. The Lake Shore limited is a very profitable train and is a necessity."

"When asked if passenger differentials would be abolished, he replied: 'Passenger differentials will be abolished. The inequality of differentials at the present day has left no doubt in our minds that the so-called strong lines deserve protection as well as the weak ones.'"

WEBB HAYES' SCHEME.

He Has Plans for Reconstructing the National Guard.

Cleveland, Aug. 30.—Major C. Webb Hayes, son of the late president Hayes, who is said to be the only volunteer officer that served in both the Cuban and Porto Rican campaigns and who is accompanying President McKinley on his present trip has proposed a plan to the chief executive looking toward the reorganization of the national guard under military law. The plan provides that the president shall appoint an adjutant general for each state, that as many bodies of militia shall be raised in each state as circumstances shall require and that all officers of such militia shall be nominated by the governors of the various states. They would then be under the direct control of the national military and much difficulty experienced when the guard was called into service for the Spanish war, would be obviated. Major Hayes said he disliked to discuss the matter now for the plan was still in an embryonic state and he did not like to go on record until some of the details are worked out.

Major Hayes, when asked what he thought of the charges of starvation from the regiments at the front, said: "Look at me, do I look starved? I lived on the same rations as the soldiers and have grown fleshy on that fare. It may be wrong," he added, "but in my opinion the greatest cause for complaint is summed up in 'cooks and homesickness'." "The government purchased bountifully of all needed supplies. There was some mismanagement in it is responsible to deny, but investigation will show it a case of 'cooks and homesickness' that crippled the army and packed the hospitals."

A conference of great importance was held at Colonel Herriek's home tonight. President McKinley, Secretary Day and Justice White were the conference, and they were closeted together after dinner until a late hour. It was admitted that the conference had to do with the appointment of the peace commission offered by the president to Justice White, but at a late hour it was announced that no definite conclusion had been reached, although hope was expressed that Justice White would see his way clear to accept the appointment. The opinion regarding the

PRESIDENT'S OUTING IS NEARLY OVER

WILL SOON RETURN TO WASHINGTON AND RESUME WORK.

The Contemplated Visit to Canton Will Be a Mere Call—Montauk Point and Camp Wikoff Will Be Visited and an Investigation of Reports Will Be Made.

Cleveland, Ohio, Aug. 30.—While President McKinley very much desired to pay more than a brief visit to his home in Canton he finds that the duties of his office are such that he will be obliged to cut his visit there to a mere call.

The president will spend a couple of days in camp at Montauk Point and Camp Wikoff so as to correctly inform himself as to the condition of affairs and the truth of the reports that have been circulated, from personal observation and contact with the men. The presidential party will be at Colonel M. T. Herriek's residence, "The Overlook," on Euclid Heights, this city, until Tuesday morning, when they will leave for Canton.

Big preparations have been made to receive the president and Mrs. McKinley there by their old friends and neighbors, and the people of Canton in general. It was the intention to make the occasion a civic jubilee. All the hotels in the city were reserved in a measure from the fact that President McKinley and party will only be in Canton for two or three hours, and then will take a train for New York. Undoubtedly the president will be given a royal welcome during his short stopover in Canton. On the eastern trip which is part of the program outlined, the presidential party will hardly stop longer at New York than will be necessary to catch a train for Camp Wikoff and Montauk Point.

The president probably will be in the two places mentioned on Friday and Saturday, leaving Mrs. McKinley in New York city while he will return to spend Sunday and then go back to Washington. The trip from Canton to New York will be made over the Pennsylvania road, departing from Canton during the afternoon of Thursday. Mrs. McKinley, the latter's maid, and Mr. George B. Cortelyou, assistant secretary to the president, will accompany the chief executive to New York.

NO DEFINITE PLANS.

The president really had no very definite plans for spending his time on this trip, he started out "said his secretary today. "He made the plans along the way and has been constantly receiving telegrams and other matters in connection with the war that needed his attention. President McKinley and party had intended spending two or three days with Abner McKinley, the president's brother, at Somerset. But the plans were changed. It is the intention of the president to get as much rest as possible. He probably will return to Washington for a short time after this trip and intends taking a longer vacation a little later this fall."

Colonel Herriek took another drive, this time out into the country. During the afternoon Miss Helen McKinley, the president's sister and Miss McKimley, his niece, of Canton, called at the Herriek home.

Justice White and Secretary of State Day arrived at the house about 6 o'clock in the evening undoubtedly to consult with the president over the former's decision as to acting as one of the peace commissioners.

At dinner with President and Mrs. McKinley, Colonel M. T. Herriek, Justice White, Secretary Day, Assistant President's Secretary Cortelyou, Mrs. M. A. Hanna and Miss Hanna.

Mrs. McKinley was indisposed by a slight cold and remained within doors during the day.

DELAWARE INDUSTRY.

The Implements of a Gang of Counterfeiters Are Discovered by Secret Service Agents at Dinah's Corners.

Dover, Del., Aug. 29.—Secret service agents today made important discoveries at the farm at Dinah's corner, where it was supposed a counterfeiting operation had been in progress and there now is no doubt that Dinah's corner was the business end of a gigantic counterfeiting scheme. Detective Shartzer came from Washington on the early train today and he and Detective Walls visited the farm and explored the house on the grounds.

In the house they found some tools, the character of which indicates that the people who had owned them were preparing to make dollars and half dollars, but as no money of either denomination was found it is supposed that none have been made. Some of the apparatus is in a crude state, which indicates that even the dies were being manufactured on the place. In the wall of the cellar was a large log with a slot in the end into which one of the dies had evidently been placed, as it was a neat fit and would make a good foundation. The officers found buried in the yard 17 counterfeit quarters.

This money with the log, an anvil, a heavy sledge hammer, 30 pieces of steel metal, evidently German silver, and other bits of evidence were brought to Dover this afternoon and photographed.

Detective Shartzer is of the opinion that some of the money was cut out of steel metal and stamped and that the remainder was made in the mould. The money found today resembles that which was obtained when the officers first came here.

CLAIMS THAT THERE HAS BEEN A "PERFECT HYDROPHOBIA" AMONG NEWSPAPERS CONCERNING THE CONDITION OF TROOPS—DENOUNCES STORIES OF CAMP NEGLECT AS UNJOURNALISTIC KNAVERY.

Chattanooga, Aug. 30.—Governor Black was seen tonight by an Associated Press representative and was asked as to the condition as he found them in the camps of the New York regiments as well as those at division hospitals.

Governor Black said there appeared to be a "perfect hydrophobia" among newspapers over the condition of the soldiers, that the press history with such phrases as "hissed with" and "starving" in articles descriptive of the troops. He gave it as his opinion that the matter was exaggerated, "manufactured in newspaper offices" and "the outcome and result of unjournalistic knavery."

"My impression," said Governor Black, "of the camp of the New York troops at Chickamauga is not half as bad as I expected it would be. The unfavorable condition of the camp and hospitals has beyond a doubt been very greatly exaggerated by the papers."

"The division hospital in which the sick soldiers of the Ninth New York infantry are quartered, is certainly in a very bad condition. The present situation of this hospital ought never have been permitted to exist and should be corrected also."

"I think that the troops at Chickamauga park should have been moved long before any sickness broke out in the ranks."

"This sternberg hospital is in excellent condition. I do not see that it could be made any better. It is admirable both in plan and management."

"As to the New York troops at Chickamauga I mean to take as many home to New York as I can. I shall endeavor to have the remainder met and will employ every endeavor to have them moved to northern camps at the earliest possible date."

"The hospitals of the Eighth and Fourteenth New York are much better in every particular than the one in which the sick of the Ninth New York infantry are quartered."

CASE OF PRIVATE NUNN.

The case of Private Nunn of the Ambulance corps who was transferred to the Ninth New York was reported to the governor by Captain O'Connor, of company A, Ninth New York and was reported by the governor to Washington for investigation.

Captain O'Connor's statement that he had found the body of Nunn lying naked in a division hospital two days after death infested by maggots, that an autopsy had been held and that preparation had been made for the care or interment of the body up to the time found by O'Connor. The affair has created a great stir and it will result in the trial of Captain O'Connor by court martial.

Colonel Black and party leave here for Huntsville tomorrow and then they will go to Lexington.
