Special to the Scranton Tribune. since, Farmer Wentworth, residing near Sherman, while on his way to his oat field noticed something pro truding from the ground. Upon examination it proved to be a huge bone, and, curious because of its abnormal size, he carefully removed the surrounding earth. It was a mammoth tusk, nine feet, four inches long and twenty-five inches in circumference. mastedon were found near the same spot eight years ago. The tusk is probably from the same skeleton. It .is supposed that mastedons were found in this section during the glacial peried. The soil was at that time supposed to be soggy and treacherous,

and the supposition is that in many cases the mastedons floundered and Videed in the valleys and on the hills. Both bones were found in clay soil, ways found.

Wall Street Review.

New York, Aug. 31.-Today's stock market was quiet and remarkable for the listnessness and heaviness of the standard securities as it was for the animation most of the railway shares were semi-stagnant all day and most of them closed at small net losses and without side fluc-tuations for the day of only a small fraction. The great combination of iron and steel companies were one of the notable influences which caused active strength in a number of stocks. Those already and Wire company advanced 3a4%, re-spectively, on rumors that it was to be included in the consolidation. Possibly the large buying and sharp gain of the Cleveland, Lorain and Wheeling stocks were connected with the same cause. The movement in Northern Pacific was also a special one and was caused by a report still at Columbian Grove. He spends special one and was caused by a report about eight hours per day in a boat, that a reserve surplus to insure the preferred dividend was in contemplation. People's Gas was very largely dealt in The Susquenanna. The Tunkhannock, Nicholson and anesboro railroad is a long time a bad been adjusted. The buoyancy of this were conspicuous movements in a numtal sales were 387,700 shares.

There was a great crowd at the Dimock camp meeting on Sunday. THE BULLDOG CAUGHT THE FISH

A few mornings since Jack Dodge and his dog, of Starucca, were hunting on the banks of the Starucca creek when suddenly the dog stood at attention and then made a mad dash into the water and grabbed a large fish in his teeth. Dodge encouraged the dog by shouting at him to hold on and finally the dog crawled out of the water with the fish in his mouth a proud conquerer. The finny
