#### Though it was intended to hold an after-meeting of the members of the First Welsh Baptist church congrega-tion at the close of last evening's regu-lar service, for the purpose of formulating a call for Dr. J. W. Williams, of Swansea, Wales, to the pastorship of the church, no such meeting occurred.

The heavy rain storm which oc-curred about 6 o'clock, the hour of service, detained many of the members at their homes. It is intended that every member, so far as is possible, shall have a voice in the matter and of course this was impossible, under the circumstances, last evening. Action was therefore postponed until after the service next Sunday evening. It is desired on the part of the church officials

SOCIAL EVENTS.

Mr. and Mrs. William Roberts, of Acker avenue, tendered the friends of their daughter, Miss Annie, a reception Friday evening at their residence. Many pleasant diversions were enjoyed and later refreshments were served by Mrs. Roberts. The guests in attendance were: Mr. and Mrs. E. Bow-en, Mr. and Mrs. J. Wardell, Misses N. Williams, A. Both are stationed aboard the "Oregon," known as the navy's "bull-dog." Whelan is a fireman, while his "bunkie" is a gunner. Like the majority of the sailors they are loathe to tell much of the exciting scenes through which they passed. They refer to the accounts already published saying "They're about right." Whelan left here nearly two years ago and was aboard the New York, the flag ship. Just before leavng Santiago he was transferred to the Dregon. His friend has been aboard the Oregon almost ever since she was put into commission. Both are bronzed, hale and hearty. They are here on a five-day furlough. It will be remembered that a letter received from Whelan just after the fight was published in The Tribune a short time ago. CARS ON BROMLEY AVENUE. Gradually the rails for the Lafayotte street extension of the Swetland street line of the Scranton street railway are being placed in position. The work was begun some time ago, but frequent ielays have interrupted the immediate carrying out of the work. The poles and wires were erected and strung veral months ago. The rails are now in place extending from the old terminus on Swetland near Bromley, along Bromley to within 100 feet of Lafayette street. The grading and filling along the track is also completed well along Fromley avenue. Saturday evening the Swet-land cars were run along the new line for the first time. It is the intention to run the cars hereafter to a point ticable.

# A Word on Weaves and Shades

Common sense is the leading characteristic in the textile world this season. Generally speaking weaves are plain, and the colorings strictly in keeping with the more sombre days to as near the end of the work as praccome. True, there are extreme novelties for those who care for them, and a few striking effects in imported cloths, but the prevailing tendency is decidedly in favor of plain good fabrics, a quiet indistinct mixture which are much better adapted to the latest productions of the worlds leading modistes than any thing else could be.

## The New Materials Shown Include

Pelis Snitings, extra a superior covert Kammgarn cloths, Two tone White Cords, exquisite Poplins, Mozcovitae Suitings, English Broadcloths, French Whip Cords Banock brown mixtures, Lansdownes, Plain Serges, Henriettas, and the entire line of staples in new color effects.

HURT IN THE MINES.

Daniel Miller, a driver boy in Storrs No. 2 colliery, was injured by a large piece of rock falling from the roof and striking him on the head. It caused

a rupture of a blood vessel. Young Miller had driven into chamber with a car. Just as he reached the interior the rock descended on his head, felling him to the ground unconscious. He was found bleeding profusely from the nose. Immediate action was taken in removing him to his home, in Dickson City, Dr. Bellheimler, who examined him, found his condition serious from the copious flow of blood.

He was in a weak condition last evening and had but little chance of recovery. The rock inflicted an ugly gash, pressing the skull down on the artery, thus causing the rupture.
