### A FAKIR.

Young Fellow Going About the City "Doing" Citizens.

A young fellow of somewhat prepossessing appearance, is going about this city selling what he calls the "Lightning Repeating Solution." He visited several houses on River street yesterday afternoon and succeeded in disposing of numerous bottles of his worthless stuff. He is a glib talker and shows what the solution will do on a piece of silver. It produces a brilliant shine which will last for about fifteen minutes, after which the lustre leaves the metal as it had been previous to the application. He represents himself as being the agent for "Roger Bros.' 1847" silver, which is well known throughout this section.

He was dressed nicely in a light colored suit and russet shoes. His face was intelligent looking and he had a prominent mustache. One housekeeper on River street took four bottles of the "repeater" at twenty-five cents a bottle, the agent stating that the regular price is fifty cents. She vows that if she sees him again she will entirely "replate" him with the compound.

### STREET CAR OFF.

Shortly after 4 o'clock yesterday afternoon a trolley car was passing the silk mill and it ran off the tracks. The motorman was watching a youngster who was walking near the tracks and failed to notice a small block which had been placed across one rail by some of the boys of the neighborhood. The car ran off, but no serious damage was done. Several passengers in the car received a thorough scaring. The company's employes worked for about an hour before they succeeded in replacing the car. Traffic over the road, however, was not delayed to any great extent.

### SPOONERS' PRODUCTIONS.

The Spooner Comedy company who are playing at popular prices in the Grand, this week, presented the new naval drama, "Hobson's Choice," last night to a large and enthusiastic audience. The play was exceptionally well staged and greatly pleased the persons fortunate enough to see it. Truman Johnson, Edna May and Cecil Spooner are old favorites in this city and their work last night was thoroughly appreciated. A matinee will be given today.

### WILL NOT TAKE IT.

V. H. O'Hara, who was the successful bidder for the laying of a new concrete walk around the city building and removing the old one and placing it on River street, has written a letter to Mayor O'Neill apprising him of the fact that he made a mistake in bidding as low as he did. He wants the contract cancelled. A special meeting of the council will be called tonight for action on the matter.

### GEORGE A. HONEY.

George A. Honey, a well-known and widely-liked young man, died Monday night at 7:30 o'clock. He is survived by his father and mother, Mr. and Mrs. James Honey, and a sister, Carrie. The funeral will be held tomorrow afternoon, interment to be made in Brookside cemetery.

no business of public import was effected.

## INTENSE SUFFERING.

From Dyspepsia and Stomach Trouble.

Instantly Relieved and Permanently Cured by Stuart's Dyspepsia Tablets.

A New Discovery, But Not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: "The patient was a man who had suffered to my knowledge for years with dyspepsia. Everything he ate seemed to sour and create acid and gases in the stomach; he had pains like rheumatism in the back, shoulder blades, neck, limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night."

I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a fifty cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given and after he had used four boxes he was in good health and fully cured.

There was no more acidity or sour water in the stomach, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, healthy flesh.

Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids for any condition of the stomach with perfect safety, being harmless and containing nothing but vegetable and fruit essences, pure pepsin and Golden Seal.

Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach however slight or severe.

Stuart's Dyspepsia Tablets are made by the Stuart Co., of Marshall, Mich., and sold by druggists everywhere at fifty cents per package.

Attention to the adjoining buildings. A slight breeze was blowing and the adjoining house, owned by Fred Johnson, was soon on fire. The fire crept slowly over the common building and then leaped over to the double house owned by Mrs. B. Higgins, of Carbondale. Then the firemen turned their attention to this structure but could not stay the conflagration until the building was completely gutted. How the fire originated is not known. Mr. McCafferty loses the contents of his store and a pool table which stood in the rear room. Mr. Johnson was insured with the George S. Dunn agency, six hundred dollars on the building and four hundred dollars on the household goods. Mr. Johnson is one of the party that went to the Klondike last spring. Mrs. Johnson has been very ill during the past week and it was with difficulty that she and her children were rescued from the burning.

Neighbors broke in the door and found her and her four little children fast asleep, unconscious of any danger.

## REGARDING STATE REVENUES.

They Are Raised Mainly by Taxation of Corporations.

Colonel W. A. Stone, at Pittsburg. The state distributes more than half of the total revenue raised each year among the common schools of the state, and other educational institutions. It appropriates large sums to the support of hospitals and other charitable institutions. Less than two million dollars of the total annual revenue of eleven millions is expended for strictly state purposes, and even out of that the salaries of the judges of the county courts and the salaries of the county superintendents are paid. There is not a state in the Union that has so clean and favorable a record in the distribution of state revenues as Pennsylvania under Republican administrations. The money appropriated for common schools relieves the tax-payer, who otherwise would have these moneys to pay, and by Republican legislation the corpora-
