Much Sickness Prevails Even Among the Immune Regiments--In View of the Spirit Shown by the Cubans It Is Not Likely That It Will Be Necessary to Send a Large Force to Garrison the Island-Not More Than 25,000 Men Will Be Required.

REPORTS FROM SANTIAGO

Washington, Sept. 26 .- Nothing has been heard from the American military commission itself since the cablegram yesterday relative to the Comal. The authorities here feel that by consenting to the entry of the vessel with food supplies, the Spanish officials in a large manner rid the question of evacuation of the urgency that was attached to it. So long as the Cubans, starving and naked, were denied the relief that might come to them from the United States government and the Red Cross there was a powerful reason for insisting upon the immediate evacuation of Cuba by the Spanish government officials in order that, taking possession ourselves, we might succor the distressed Cubans. Now, however, that our government is free to do this under existing conditions, there is not the same necessity for haste and the war department will not be obliged to force American troops in numbers into Cuba in the very worst part of the season, so far as health conditions are concerned.

The daily reports that come to the department from Santiago make it apparent that even among the immune regiments, made up as some of them are of negroes, supposed to be almost exempt from attacks of climatic fevers, much sickness prevails and it is only a fair assumption that the ordinary troops would suffer more were they now sent into Cuba.

COMPROMISE EXPECTED.

Therefore, while the American and Spanish commissioners are still seeking to reach an agreement as to the time allowed for evacuating the Island, it may be said that the president expects that the result will be a compromise between the dates mentioned on each side, and that the movement will begin towards the later part of October and be concluded soon after the new year.

This will accord very well with the

Democratic representative from the

Third district. The county ticket nominated was as follows: District attorney, James M. Beck; city controller, John M. Walton; recorder of deeds, Robert Dornan; clerk of the quarter sessions, Henry Brooks; coroner, Dr. Samuel G. Dixon; judges of the Orphans' court, William N. Ashman, Clement B. Penrose. All the Republican candidates for state senator were nominated except George E. Holtzworth, in the Second district, and Secretary of the Commonwealth David Martin, in the Eighth disrict. Samuel E. Hudson was placed against the former and R. Bruce Burns against Secretary Martin. Legislative candidates were also nominated.

COMMENCED

The Session Yesterday Was Strictly Secret-A Change of Meeting Place Adopted to Provide More Room-The Scope of the Investigation Discussed and Letters of Inquiry Framed Addressed to the Various Departments.

Washington, Sept. 26 .- The commission selected by the president to inves-tigate the conduct of the war held its

first formal session today with all the members present. The meeting was in the room of the fortification and ordnance board of the army, but it was found to be too small for the purpose of the board and it was announced that further meetings would be held in apartments secured in the Lemon building on New York avenue. Today's meeting was strictly secret, no reporters or others not connected with the board being admitted.

Today's session was confined to a meeting of two hours' duration, after which an adjournment was taken until 10 o'clock tomorrow. The proceedings were limited to the outlining of a general policy and the formulation of letters of inquiry which will be made publie tomorrow. The letters which have been decided upon are to be addressed to the secretary of war, the quartermaster general, the commissary general, the surgeon general and the chief of the ordnance department of the army. They will consist in the main of inquiries intended to bring out all the facts that can be given relative to the organization of the volunteer army. These officials will be asked to give specific information so as to cover each of the departments in question concerning the condition of the army both at the beginning and the close of the war. For this purpose a date in April has been selected as the one for the beginning of preparations and another in August for the close.

THE QUESTIONS.

The questions are so formulated as to all out answers covering the organization of camps, the purchase of supplies and the making of contracts with transportation companies, and also to show the methods adopted for furnishing supplies to the various commands

plans of the war department as it will enable it to avoid sending to Cuba any considerable number of soldiers until the healthy season is well under way. It is the present purpose to make the replacement of the Spanish forces in detail, not sending over any large expedition, but establishing a garrison at one point after another, beginning probably at the western end of the island. The authorities have reached the conclusion, in view of the spirit shown by the Cubans as reported to it that it will not be necessary to have nearly so large a force to garrison the island as was at first anticipated, and it is thought now that no more than \$5,000 men will be required.

DEATH IN THE RING.

Doc" Payne Will Probably Not Survive Joe Butler's Blows-The Seconds Are Under Arrest.

Philadelphia, Sept. 26 .- It required ess than two rounds tonight at the Arena for Joe Butler, the local colored puglist, to put "Doc" Payne, McCoy's sparring partner, out of business, but in that time Butler gave an exhibition of the foulest kind of fighting and it was only with the aid of the police that he got safely away from the crowd of over 2,000 persons who were waiting for him in front of the building. The men were to fight six rounds. As the bell sounded for the first round Butler rushed fiercely at Payne, and there were frequent rapid and wicked exchanges. In the middle of the round Butler deliberately forced Payne against the ropes and in a clinch threw him and began to punch him. Referee Schlichter separated the men and declared the round ended, but the colored fighter went at his opponent again and landed three or four hard punches, Payne was groggy when the bell

ounded. Notwithstanding the fouling in the first round, the men were allowed to

face each other for the second time. Butler and Payne fought fiercely for a minute, when the local man again began his rushing tactics and landed a heavy right swing on Payne's jaw. The latter fell like a log and had to be carried from the ring. He did not regain consciousness for over twenty minutes.

Under the police arrangements with the management, no decision is given at fights in this city, or else Payne would have been declared the winner.

Some time after the fight it was deemed advisable to send Payne to a hospital. He was delirious, and after an examination by three doctors they were unable to determine exactly what injury he had received. It was feared that concussion of the brain had re-

sulted and the physicians would hold out no hope for his recovery. "Jack" McDonald, Butler's second,
