Washington, Sept. 30.-Major General Fitzhugh Lee was at the war department today. After a brief interview with Secretary Alger the general said that the secretary desired to see him again after the cabinet meeting. General Lee says that he will go to New York, visit his son at West Point, and then return to Washington. If there is no pressure for his immediate re-turn to Jacksonville, he intends to spend a few days in the Virginia mountains, on the recommendation of his physician. General Lee has been suffering somewhat from malaria. There seems to be no doubt in official circles that General Lee is scheduled to go to Cuba. Some question has arisen, however, as to the point in Cuba that he will occupy.

The American troops now occupy fully two-thirds of the island. The Spanish Island, running in a semicircle south of San Juan, is narrowing daily and the Spaniards are receding

towards the capitol. American business men are flocking here, seeking for markets or looking for business chances. They are investigating the prevailing conditions, but the island is not yet ripe for business operations of any great importance and many of them are returning disappointed to their homes. Rumors of outlawry in the western part of the island continue, including the burning of horses and the maining of cattle.

PEACE COMMISSION.

tions-Reports of Statements of Their Instructions by Spanish Commissioners Repudiated.

Paris, Sept. 20 .- The United States peace commission has taken possession of its working quarters, a suite of seven rooms on the ground floor of the Hotel Continental, at the corner of the rue de Rivoli and the rue Royal, commanding the Tuileries gardens and formerly used by the ex-Empress Eugenie. Later they were occupied by the Behring sea commission and by United States Commissioner Peck, who has just moved into his offices on the exposition grounds. American flags drape the entrance of the peace commission's apartments.

The clerical force of the commission has been systematized and is now. working bustly. The spirit of the Paris press is daily rendered into English for the information of the commissioners, and the same thing is done with the newspapers of Madrid. Many ooden boxes of records, data and authorities affecting the case of the United States were unpacked today and carefully arranged.

The American commission held its usual session this morning. It is believed the commissioners are crystallizing their plans and arranging all the details of the work which will be taken up when the commissions begin their joint sessions

This is the first inclement day since the commission has been abroad, and the wives of the commissioners and other members of the party are devoting it to visiting the Louvre and other places of interest.

The Spanish commissioners formally

deny the various interviews and paragraphs purporting to give the substance of their instructions, which have appeared in the newspapers. The secretary of the Spanish commission said to the representative of the Associated Press, with the American commission given any interview and all which have appeared in print as to our instructions We are here to defend our selves, and, naturally, we are not willing to give any of our weapons to our opponents."

REIGN OF TERROR AT PANA MINES

CITIZENS ARMED TO THE TEETH AWAIT EVENTS.

Striking Miners Carrying Shotguns and Rifles Parade the Streets Awaiting the Arrival of Blacks from Springside and Penwell Stockades Who Had Threatened to March to the City and Drive Out the Whites.

Pana, Ill., Sept. 30 .- Last night was a terrorizing one for the people of Pana. Two-thirds of the residences were unoccupied. Each of the houses occupied contained a group of families. In some cases all the residents of an entire block spent the dark hours in one home, armed, terrorized and awaiting attacks expected to be made on their homes by the negroes imported from

All night the striking union miners reinforced by brother miners from other towns, armed with shotguns and rifles paraded the streets and in some cases lay in ambush and on house tops and in alleys awaiting the coming of the blacks from Springside and Penwell stockades, who had announced an intention to march into the city and drive out the whites. But the deputy sheriffs were successful in keeping the negroes under control and within the stockades. Many shots were fired in the vicinity of the mines throughout the night, but with what results could not be ascertained. Today, in response to Sheriff Coburn's urgent appeal, Battery B, of Galesburg, and two companies of Hamilton's Sons of Veterans were on the way to Pana. They are by the governor's instructions to protect lives of citizens and their property, but under no consideration to assist the mine owners in operating the mines with imported labor. Many visiting miners, heavily armed, arrived here to day and later with 200 local miners left the city for Shelby county, three miles east, to intercept a Baltimore and Ohio train said to be conveying sixty negro miners to Pana to take union men's places. The purpose is to stop the train, unload negroes and at the point of guns, march them east. Sheriff Coburn will dispatch a posse to the county to prevent a hold-up of the train within Christian county The miners are anxious to compel the negroes to turn back till the soldiers arrive. On arrival of troops in Pana it is intended to have all citizens, white or black, disarmed by the militia. "I never refused. On the contrary, when the sheriff last Saturday made requisition for 200 rifles, I forwarded by rush order the 200 rifles and 2,000 rounds of ammunition and had all on the train for Pana within one hour from the time of the requisition and the sheriff received them that evening by the Baltimore and Ohio Southwestern

train. Continuing, the governor said: "Yesterday I received an urgent telegram from the sheriff, asking for troops and saying he had done everything to protect life and property, but the conditions bad reached a point where he was unable to cope with the difficulty onger and that serious riot was imminent unless he received state aid by or before Friday evening. After several telephone conversations with him became so impressed with the importance and needs of the situation that I ordered the Galesburg battery and two companies of the Sons of Veterans' regiment to report at Pana for riot duty by the first train. I directed Captain Craig, in command, to arrest and disarm all persons carrying arms and hold such arms until further orders; to protect citizens and their property and to maintain order, but not to allow any portion of his command to aid mine owners in operating their mines with imported labor.

"This habit of importing labor into our state to take the places of our citisens has to stop, if I have power to abate it."

FEARED A "HOLD-UP."

St. Louis, Sept. 30 .- A special from Pana, Ill., says: Two hundred Pana miners held up a special Baltimore and Ohio train at the line of Shelby and Christian counties at 2 o'clock this afternoon. The train

was carrying sixty imported negroes for work in the Pana mines. At the point of guns the miners compelled the negroes to unload and started to march them to Tower hill to ship them back to Washington, Ind. The miners had handkerchiefs over their faces when they held up the train, which was delayed but a few moments. Sheriff Courtwright is said to be on the way to Tower hill with a posse to release the negroes. A clash between the miners

Walter Putterbaugh, who brought the negroes from the south, left the train at Flora, being fearful of a hold-up and knowing that he would suffer rough treatment at the hands of the

and deputies is expected.

The Burden of the Speakers Thoughts Was the Charge Made by Chairman Elkin-A Letter from Dr. Frey Forms Ammunition for the Heavy Oratorical Artillery The Whole State Offended.

Harrisburg, Sept. 50.-Ex-Postmaster General John Wanamaker, of Philadelphia, and Senator C. C. Kauffman, of Lancaster, addressed a mass meeting at the court house tonight in the interest of good government. The meeting was in charge of the United Lodges of Railway Employes and was presided over by Samuel H. He and Senator Kauffman will speak tomorow morning at Millersburg and in the afternoon at Williamstown, .

Mr. Kauffman was the first speaker and read an affidavit made by himself denying the charge made by Chairman Elkin, of the state Republican committee, last night in a speech at West Chester that he (Kauffman) had one of the extra employes of the senate and receipted for part of the money due this employe. Kaufiman states that he was offered by a member of the senate state committee a place for one of the Chicago platform Democrats to- his constituents and told that it would not be necessary for him to be assigned to any committee or stay in Harrisburg, and that he refused the offer because he did not propose have any man accept the place unless

The fact is, this state of controversy, might be prolerged indefinitely but 1 have had some consideration for the bad fix into which the Republican party is stantly driving Itself. The truth M. S. Quay's statements settle where the end of the Quay machine was, but more than this I have had for months a sworn statement of a gentleman who was present when the present Republican guber-natorial candidate demanded from Cotonel Stable his signature to indorsing Senator Quay for the nomination for the presidency and threatened him with defeat if he refused. What did that threat mean but that the machine would throw itself against him. Let us sum it up. We have the threat of the machine made by W. A. Stone; we have the written let-ters of M. S. Quay; the affidavit of Mr. Frey, who was tempted by Senator Quay with promise of office, which may be used as occasion requires; and finally and sadly enough, for the Republican party, the ignominous expulsion of an old soidier, Colonel Stable, himself defeated for conorable office, and the election of a

Democratic congressman. Taking this one case as illustration of a spirit of the Quay machine, and a hundred others can be given if needed, where the machine turned into defeat Republians that they could not own and elected Democrats that they would be more serviceable to them, ending with the noto-rious Crow shrievalty fight in the last presidential campaign bartering with the Democrats, whereby McKinley's major-ity was reduced 30,000 and the present elfort to disrupt the Republican party in the city of Philadelphia under the mask of the Crow Citizens' ticket, and then form your own judgment as to whether citizens like your speaker, remaining con-stantly in the Republican party and pleading for reform of its methods, as most disloyal and hurtful to its inter-ests than the office holders' oranization which does not hesitate to sacrifice Re-publicanism, and honor, and party to

maintain its organization. WHOLE STATE OFFENDED.

"Fellow citizens, the whole state is offended by this tremendous insult to its common sense. The Quay machine has an incurable disease. The cordon of office doctors stand around the sick old ti ng and the public see plainly that they are dosing it for fees and killing it with blundering experiments. "Hundreds of thousands of throughout this commonwealth will

make its funeral a festival. "Residents of Harrisburg, you have lived next door to the house of incurables for forty years, and you have endured more of the dishonor and shame than any other city. must be a point beyond which you cannot go. Have you not come up to
