the residence of Mr. and Mrs. George Fellows, of 329 Tenth street, was illiantly illuminated last evening upthe occasion of the musicale given their daughters, the Misses Gertrude and Effic Fellows. The guests were received by the Misses Fellows, assisted by Mrs. W. D. Griffiths.

The rooms were artistically decorated with cut flowers. The attendance was very large. The exercises as carried out were of the first order. Piano duets were played by the Misses Pearl Jeffreys and Mattie Pool and Alice Williams and C. Haas, Vocal selec-tions were rendered by the Misses Elizabeth Heiser, Clara Haas and Mattie Pool and S. W. Hagernan, Miss Lois Fellows played a piano solo and a violin solo was given by John Thomas.

At a seasonable hour cake, ice cream and lemonade were served. A silver at Harford. offering was given at the door as the guests departed, for the benefit ofclasses Nos. 6, 19 and 32, of the Simpson Methodist Sabbath school, these Hampton street, are fishing at Silkclasses being taught by the Misses Fel- man's lake. lows and Mrs. Griffiths.

MANY VISITORS.

If each section of the city's suburbs furnished the same proportion of vis-Iters to the central city as this side did yesterday, there must have been an enormous crowd viewing the parade. From the time that the Forest band appeared at the Franklin Engine company's quarters and later marched down to the Columbia chemical's quarthence proceeded together to the humanity filled the sidewalks leading to Lackawanna avenue.

The afternoon, usually quiet, was oppressively so yesterday and last evening, where nightly hundreds promenade up and down Main avenue, one could walk a half block without meeting a single person. Now and then the quietude, unnatural as it was, would be broken by the sound of cheers or singing, as a carriage with several occupants, or a group of uniformed firemen, would pass by.

COMING GRAND BALL.

The large committee on arrangements from the Father Mathew society is actively engaged in the preparations for their great annual event, a grand ball. This year this affair will be held in Mears' hall, Thursday evening, Oct. 10, and it is proposed to make it a more elaborate affair than ever before. The society also intends participat-

ing in a body in the big parade in the afternoon of that day at Pittston,

hall of the Young Women's Christian association was well filled last evening on the occasion of the educational rally. Miss Franc McAlpine presided. Miss Charlotte Savage, the new general secretary, and Miss Mickle were seated on the platform. Miss Savage read from the Scriptures and Rev. Richard Hlorns offered prayer. Mrs. H. L. Harding played a piano solo.

J. U. Wagner made the address of the evening which was replete with scholarly thought. In the course of his talk he made the statement that the discovery of America grew out of the crusades. In speaking of the object of the Young Women's Christian association be declared that the highest development of the human mind is that which rests on a moral basis. In conclusion he asserted that America has reason to be afraid of Germany because ours is essentially a reckless spendthrift nation while Germany is the most economical in the world.

Mrs. Harding rendered pleasingly the Narcissus, efter which Miss made a pleasant address. Mrs. M. W. Lowry sang two solos very sweetly Miss Mickle, the physical instructor, addressed the audience in an interesting manner urging the young women to enter the gymnasium work.

Refreshments were served at the meeting. The educational classes will open next Monday evening. Mrs. W. H. Whittemore will be in

charge of the elementary English branches. Mrs. F. P. Hamilton will teach French. Mrs. Konler will have the German classes and Mrs. Hattle Hughes will teach art needle work.

THE TWO VIOLENT DEATHS.

Coroner Longstreet Investigates Them Yesterday.

Coroner Longstreet vesterány viewed the remains of John Harrison, the Green Ridge school boy killed by being run over by a wagon and impanelled a jury consisting of W. H. Wedeman, M. H. Carpenter, C. L. Teete, Isaac Bumbaugh, Solomon Miller and F. G. Rarrick to conduct an inquest. They will meet in the arbitration room of the court house Monday night.

The coroner decided no inquest was necessary in the case of Miner Rogers, the insane patient at the Hillside home who hung himself Thursday morning. He exonerates the home authorities from all blame in the matter and after a careful investigation was satisfied that the accident was not due to any lack of precaution on the part of the superintendent.

no other conditions. The judges were all officers of the National Guard, Major W. S. Millar, inspector of the Third brigade, and Captains W. A. Raub and Fremont Stokes. They awarded the prize to Century company, of the South Side. Their report was as follows:

Your committee appointed to award the Scranton Tribune prize to the best ap-pearing fire company in line in today's parade beg leave to report: That we are unanimous in our opinion that the prize should be and is hereby awarded to the Century Hose company with the Nay Aug Engine company a close second.
Respectfully yours,

W. S. Millar, Frement Stokes, W. A. Raub.

THE FAVORITES.

Judging from the opinions expressed n and about the reviewing stand after all the companies had passed by it was probable that the Centuries would get the plum. The judges considered "general appearance,"
"strength," "alignment," "cadence"
and "steadiness." In all these particulars the winning company was almost perfect. An allowance of 20 per cent, was made for each point considered, a total of 100 per cent.

Nay Aug company might have been closer choice, but for the treak made by two sets of fours in getting into line after saluting the reviewers. It would be unfair to mention any one or few of the other companies. They all looked and marched well

After the parade many of the companies had "open house," which in the fire department means liquid and solid efreshments and music, Chief Hickey, the district chiefs, the joint fire de partment committee of councils, councilmen and other city officials visited a number of these places. It was not possible to inspect them all. The visiting included the Volunteer Firemen's association headquarters, at 214 Linden street, Hook and Ladder company Franklin company, Columbia company and Relief company.

The police were inspected at 2 o'clock The members of the department were drawn up in double company formation with the four lieutenants in front The formation was made by Sergean, Deiter, who has been conducting the police drills for several weeks. Near the men on foot were mounted Patrolman Dyer and Sanitary Policeman Burke, also mounted, and the patrol wagon with Sergeant Ridgway as driver, Mayor Bailey and Chief of Police Gurrell passed in and out of the ranks, and when they had finished the former briefly conveyed to the force his compliments through Chief Gurrell.

The men were in full dress, long coats, black helmets and parade sticks and belts. Above each star was worn a rose bouteniere.

Later, when the police formed for the parade, part of their number were detached for patrol duty along the line of march. Enough remained for four platoons of eight men each, each platoon in charge of a lieutenant. The men made a spanking and businesslike appearance, which won for them deserved applause from all along the marching route.

For the first time in the history of the department, its members appeared with service stripes, chevrons and other insignia of service and rank. The service stripes of Chief Gurrell and 'aptain Edwards were of gold braid. those of the lieutenants of silver, and those of the patrolmen of light blue. The sergeants' sleeves displayed light blue chevrons. When the uniforms o the ranking officers are all decorated the chief's collar will contain gold stars, the captain's two gold bars, and the lieutenant's single gold bars.

NOTES OF THE DAY. At Mechler's hall, Tenth ward, in the

ening, Relief company gave its twenty-third annual ball. Niagara company carried its prize banner for quick-hitching. The company holds the record, 13% seconds, for hitching and leaving quarters with its

horses, men and apparatus. The new 3-horse-hitch of Hook and Ludder company was seen for the first time in public. Hereafter the truck will be drawn in service by three large grey colored horses.

Among the visitors in the carriages were Chief Patterson, of the Pittston department: Dr. C. W. Buffman, of

New York. Many members of the Wilkes-Barre and Pittston departments and from smaller towns up and down the valley were in the city. Though they were here only as individuals they were ought out and entertained with the brimful hospitality which has helped

make Scranton's firemen famous. Quite a number of favored juvenile 'firemen" rode on the hose carts or marched with the officers. All these oungsters were in uniform.

The ball of the Columbias in Music hall last night was-well, it was a firemen's ball. The place was jammed with fire laddles and the fairer sex. Four members of Crystal company ow home on furloughs from Camp Meade, rode in a carriage and received applause from all along the parade oute. They were George Robling, of Company C. and Charles Hamilton, Carl Gunster and Charles Hines, of ompany B. Another soldier-member of Crystal company, John Gaines, of Company B, was color bearer for the

PREPARING TEA R MARKET. Machinery Versus Hand-Unscien-

tific Methods Still Employed in China and Japan Which Are a Menace to Health. Of recent years much has been writ-

en of the various methods in vogue in tea-growing countries of preparing tea for market, and from a health standpoint it has come to be a matter of much interest to the consumer of tes. The matter has been discussed by medical journals all over the country, and upon investigation they have shown by reference to the reports of consular agents, published by authority of the United States Department of Agriculture, that the mode of prepar ing tea in China and Japan is not only unhealthy, but uncleanly as well. The rouble in those countries is that the tea industry is a household industry; it is not conducted on a large scale years I have been disfigured with Tetter on my hands and face. At last I have found a cure in Dr. Agnew's Continent. It helped me from the first application, and now I am permanently cured." Sold by Matthews Bros. and W. T. Clark.—18.

necessity done by hand, as it does not pay to use expensive machinery where in individual cases only small quantities of tea are to be rolled, dried, fired, etc. This carries with it all the uncleanly and unpleasant features incident to the old manner of manipulating tea by hand.

There is little doubt that the discussion of this matter had much to do with the recent legislation that has perforce stopped the importation of much impure and unwholesome tea but legislation here cannot stop the method of preparing tea in foreign countries. All we can do here is supervise, and while tea which has a ertain percentage of dust (shown by a sleve test) or which contains a certain percentage of extraneous matter (shown by a chemical test) cannot come into the country, the law does not keep out the sweat-tainted and dirtladen teas, the condition of which is entirely due to the manner of prepara-
