

AMERICAN IMPORTS INTO CHINA

THEY CONTINUE TO INCREASE RAPIDLY.

Reports Received by the Treasury Bureau of Statistics Show That Imports of Other Countries Are on the Decrease—Oil Trade, However, Is Encouraged by Russia and Sumatra.

Special to the Scranton Tribune.

Washington, Oct. 14.—American imports into China continue to increase, while those of other countries decrease. This is shown by the statement of the Chinese trade reports for 1893, just received by the treasury bureau of statistics. The document in question is a large volume of nearly 1,000 pages, and contains reports from the custom officials of all the ports of China, and also a general statement from the statistical secretary of the Chinese customs service.

Mr. Taylor's statement, however, contains a warning to American exporters of kerosene oil that their trade in China is being endangered by Russian and Sumatran oils. The oil of America is finding vigorous rivals in Russian and especially Sumatran oil.

The reports of the commissioners of customs at the various ports also contain many statements of interest to American manufacturers. Commissioner Lay of Newchwang, says on the question of growth of American trade in cotton cloths: "The rapidity with which English drills have been disappearing may be seen by noting that the importation of such goods amounted to 58,000 pieces, while during the period under review (1892) only 3,000 pieces arrived."

The King Dramatic Company, which has won great fame by its perfect presentation of famous scenic melodramas, will open its week's engagement at the Academy of Music on Monday evening with a grand production of "Hands Across the Sea."

"Under the Red Robe," which made so pronounced a success at the Empire theatre, New York city, running for two continuous seasons, will be the attraction at the Lyceum on Monday.

"The Little Host," which John C. Slavin, one of the comedians the most important is kerosene oil, the increase in the importation of which is something phenomenal, having risen from something over half a million gallons ten years ago to over two and a half million gallons in the year under review.

Commissioner Carrall, of Chifou, says: "In cotton goods the most noticeable increases in importations come under shirtings of all kinds, 17,961 pieces; American drills, 36,704 pieces, and Japanese yarn, while decreases are shown in English and Indian drills and sheetings, handkerchiefs and towels, 5,281,000 gallons of American kerosene were imported during the year, against 2,388,250 gallons in 1892; while arrivals of Russian kerosene (677,800 gallons more than doubled the record of the previous year.)"

Commissioner Hughes, of Wuhu, says: "In cotton goods the most noticeable increases in importations come under shirtings of all kinds, 17,961 pieces; American drills, 36,704 pieces, and Japanese yarn, while decreases are shown in English and Indian drills and sheetings, handkerchiefs and towels, 5,281,000 gallons of American kerosene were imported during the year, against 2,388,250 gallons in 1892; while arrivals of Russian kerosene (677,800 gallons more than doubled the record of the previous year.)"

THE MARKETS

Wall Street Review.

New York, Oct. 14.—Local stock market 8:50 a. m. Rains, common to good, \$3.00; 1/2 coverings, the highest in the history of the port—3,830,000 gallons arrived. The American production stands at the head, 1,738,600 gallons, followed by Russian, 803,770 gallons, while Sumatra amounts to 744,400 gallons. The trade in American flour fell off considerably as the large rice crop obligated the necessity of purchasing foreign flour.

IN THE PLAY HOUSES.

"El Capitán" Last Night.

At the Lyceum last night Sousa's opera, "El Capitán," was produced. It has been here before, when it was sung by De Sylva and the other members of the original company. Many who witnessed last night's performance heard the original company sing the opera and were prepared to institute comparisons. There was quite a general agreement that the company now at the Lyceum gives a performance that suffers little when contrasted with the work of the original company.

The chorus is large and contains many good voices, and the leading characters are all in capable hands. The opera is handsomely staged. It will be repeated at the Lyceum this afternoon and evening.

The Closing Attractions.

At the Academy of Music tonight the Spears' Dramatic company will close its engagement. This afternoon "Monks in the Convent" will be presented and tonight "Silver Jack."

King Dramatic Company.

The King Dramatic company, which has won great fame by its perfect presentation of famous scenic melodramas, will open its week's engagement at the Academy of Music on Monday evening with a grand production of "Hands Across the Sea."

"Under the Red Robe," which made so pronounced a success at the Empire theatre, New York city, running for two continuous seasons, will be the attraction at the Lyceum on Monday.

"The Little Host."

John C. Slavin, one of the comedians the most important is kerosene oil, the increase in the importation of which is something phenomenal, having risen from something over half a million gallons ten years ago to over two and a half million gallons in the year under review.
