

LOOKING AFTER CUBAN GARRISON

THEIR PROTECTION AGAINST DISEASE A HARD PROBLEM.

The Yellow Fever Now Prevalent and Malignant—Results of Col. Hecker's Examination of the Conditions—The Proposal of a Native Gendarmerie.

Washington, Oct. 17.—It is said at the war department that nothing has occurred to change the plans already framed for the movement of troops to Cuba. It was not intended that the occupation of the island should begin immediately, except at such towns as Manzanillo and perhaps Havana, where the marine regiments could be used to advantage.

Colonel Hecker's investigation into the situation has been of great value to the department, disclosing as it has the views of a thoroughly practical man based on keen observation. But Col. Hecker's primary object was to locate camp sites for the occupation of the island, and he is proceeding in exact accordance with his instructions.

The condition that he found, it is said, thoroughly warrants the belief that the war department will be obliged to face the most difficult problem that has arisen in connection with the handling of troops in order to insure the protection of the health of the soldiers.

It has been evident that the men must be isolated for some time in their camps to avoid the danger of infection, and the department is not quite clear that any useful purpose will be served by placing soldiers where their services can be of any avail. While the war season has now almost reached its end in Cuba, it is said that the yellow fever is more prevalent and more dangerous in type just now than at any time during the year.

These conditions, however, will not continue long, and it is believed that the number of men who have progressed far it will be possible to have several divisions of troops safely camped on Cuban soil.

A proposition that is now under consideration looks to the employment of the Cubans as local gendarmes. It is urged that they would be more serviceable in maintaining order in the towns than American soldiers, unacquainted with the Spanish language and Cuban customs. The United States government in this way would also be able to pay the men a small salary to the extent of their services.

It is said that the health of the troops will be held until after the event jubilee at Philadelphia, as they are to take part in that demonstration.

Major Edie of the medical department, who has been stationed at Lexington for some time, was at the department today, and says the health of the troops there has been steadily improving. It is said, however, that it will be too cold for the troops to occupy tents during the winter season in the Kentucky highlands.

FOUR MEN KILLED.

Reading, Pa., Oct. 17.—Four men were killed by the explosion of a Wilmington and Northern freight engine at Joanna station this afternoon. The dead are: William Hefferick, engineer, aged 35; George Mills, fireman, aged 25; Willis Weard, brakeman, Harry Hyndman, conductor. All lived at Birdsboro, this county, and all were married and leave families except Hyndman. The bodies were horribly mangled.

It is believed the water in the boiler should have been changed. Investigation will be made. The engine was hauling a dozen coal and freight cars. They were piled on top of each other, pieces of the engine scattered in all directions, and the bodies of the men hurled some distance. The coroner went to the ground tonight.

The dig under which all women should march in the name of good health. A woman owes it to herself, her husband and children to enlist in the ranks of Dr. Pierce's Pink Pills for Pale People.

Health in a womanly way may be traced to weakness and disease of the female organs that are the vestibule of human life. No woman can enjoy good general health who is dragged down by continual pain and any local weakness. Troubles of this description utterly unfit her for wifehood and motherhood. Dr. Pierce's Favorite Prescription gives health, strength, elasticity and vigor to the special organs concerned. It makes a woman strong and healthy in a womanly way. It gives her the power to resist pain and an opportunity to build up. It makes motherhood safe and comparatively easy. It transforms weak, sickly, dependent women into happy, healthy wives and mothers.

It is a woman's business to give you, but to tell you what you want.

ONE IN EVERY FOUR. THE MARKETS.

One Person in Every Four Suffers From Piles.

About one person in every four suffers from some form of rectal disease. The most common and annoying is itching piles, indicated by warmth, slight moisture and intense, uncontrollable itching in the parts affected.

The usual treatment has been some simple ointment or salve which sometimes gives temporary relief, but times gives permanent cure can be expected from such superficial treatment.

The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every form of piles, hemorrhoids, protruding, the first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles.

Many physicians for a long time supposed that the remarkable relief afforded by the Pyramid Pile Cure was because it contained opium, or some similar drug, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from cocaine, opium, or in fact any poisonous, injurious drugs whatever. Sold by druggists at 50 cents per package.

Send to Pyramid Co., Marshall, Mich., for free book on cause and cure of piles.

IN THE PLAY HOUSES.

"Under the Red Robe." The stage version of Stanley Weymann's intensely interesting drama, "Under the Red Robe" was presented at the Lyceum Theatre last night by the company headed by William Morris, a finished actor, whose conscientious work has long made him a favorite in this city.

The King Dramatic company, which is an exceptionally good repertoire organization presented "Hands Across the Sea" last night at the Academy of Music last night. The company will continue at that house for a week and from the excellence displayed last night it is safe to predict that the theater will be crowded at each performance.

In the "Gay Morning Glories." The "Gay Morning Glories" opens at the Gaiety theatre a number of very entertaining and original sketches. The bill is headed by Coley and Mamie Grant, colored, whose songs and dances were received with great favor last night.

The last half of the performance is devoted to the pranks of the "Red Birds at Sea." The red birds are everything that is full and hearty. The company will give performances at the Gaiety until Thursday.

"The Little Host" Tonight. Bright lights, little but so funny situations, a plentiful sprinkling of simple and catchy music, beautiful young women, a fine supporting organization, picturesque scenery, love and fun galore are what is claimed for Della Fox's new operatic comedy, "The Little Host," which is to be presented at the Lyceum Theatre on Thursday.

"Prisoner of Zenda." The announcement of the engagement at Lyceum on Thursday of the great Lyceum Theatre, New York, success "The Prisoner of Zenda," will be hailed with delight by the masses of our best theater-going citizens, for it is the play of the season, under the personal management of Mr. Daniel Frohman, which will stamp it as being one of the best of our theatrical offerings. Although last year was the fourth year of the career of this remarkable play, and most plays are considered to be most profitable when they are first produced, the play's success was so great that it has been decided to give it for another year. Special care has been taken to make the production this year stronger than ever. The leading role, the dual one of Rasputin and the King, will be assumed by Howard Gould, whose clever personation of it in the past has so materially added to its success. The scenery is fine and requires a special baggage car for its transportation.

"A War Correspondent." Burr McIntosh, who will be in Scranton Friday and Saturday, October 21 and 22, will play "A War Correspondent" at the Lyceum Theatre. This comedy, "A War Correspondent," is well known to Pennsylvanians for many reasons. Several years ago it was the champion sprit of both Lafayette and Princeton colleges and while at the former was catcher on the varsity nine besides having a year's experience in the military and holding the first intercollegiate medal. Since those days he has won a good position both as an actor and newspaper writer. In the latter capacity he has been best known for his efforts on college football and rowing. He has now added to his list of war correspondents. The first photographs from Cuba printed in this country were taken by Mr. McIntosh. In fact they were printed four days in advance of the first intercollegiate medal. For what his success may be in the future, thousands will best remember "The Original Taffy" who holds the undisputed position of the first southern dialect actor on the stage. Now he will himself as a Cuban war correspondent.

THE MARKETS.

Wall Street Review.

New York, Oct. 17.—A scrutiny of the list of changes in prices today will show that nearly all of the railroad stocks dealt in have not gained as a small fraction. Considering the number of unsetting episodes in the day's market, these gains, though small, indicate a strong resisting power in stocks. Although the opening was slightly higher in sympathy with the rise in London the tendency of prices to set back early in the day under the influence of a break in Tobacco on apprehension that the supreme court would deliver today a decision unfavorable to the railroads to test the legality of the Joint Traffic Association. Although this decision has been anticipated and although the opinion is almost universally held that it is to be unfavorable to the railroads in consonance with the decision in the Trans-Missouri case, the bull party shows great timidity as to the effect of the court's ruling. The comers are subjected to attack by the bears and the valuation of the stocks lowered to an extent surprising even for these much belabored securities. The covering by the bears in the comers worked recoveries ranging up to 2 1/2 in New Jersey Central, and the news that there was no decision in the Joint Traffic Association case induced covering by room traders in the general list. Total sales were 47,800 shares.
