night in Chief Hickey's office in city hall. A report of the Columbia company trouble has not come to the chief, and in its absence the matter was not brought up for discussion. What was of most interest before the meeting was the Lebanon rumpus in which Chief Hickey has been made to figure. He received a tele-gram yesterday from the parties concerned in the presecution offering to drop the matter for \$50. The proposition found favor with him, not because of its justice, but as the cheapest and easiest way out of the difficulty. The board also thought it

Doctors at the Hospital Suspicious of a Patient.

A man giving his name as Ludwig Paulesen was brought to the Lackawanna hospital Wednesday night from Petersburg. He was conscious only part of the time during yesterday and last night. Yet he does not appear to have any injuries or bodily allment that would put a person in such a condition. The doctors at the hospital are not altogether convinced that he is not faking. His temperature is normal, his pulse normal, and his breathing is regular. Neither does he appear to be

poorly nourished from lack of food. Patrolman Goerlitz was notified Wednesday that a man had taken fits five or six times in as many hours. He sent for the patrol wagon to take him to the police station, and when it arrived Paulesen, if that's his name, was taken with another fit. He was brought to the hospital instead.

It would not be the first time that a man swooned purposely to have some whiskey rammed down his throat to bring him about. But it is rather strange for a man to be attacked with fits five or six different times in an
