#### Waite Stock Company.

At the Academy of Music this week will appear Waite's Stock company, supporting the beautiful Annie Louise Ames, who is no stranger to the theatre-goers of this city. This company vill open its engagement this evening and give two performances each day hereafter for the remainder of the veek. A feature that is sure to please will be the selections of the orchestra, under the direction of Mr. Fulton, which is superior to the orchestra usually carried by traveling companies. Miss Ames will appear every matinee as vell as evening performances. The exquisite costumes she will wear were made expressly for Miss Ames by Adolph Kriveruk, the court costumer of Vienna, who for the last twelve years has made all the court costumes worn by royalty of Austria.

Of the many farces, farce-comedies, omedies and farcical comedies which nave been produced during the last ten years, the comedy of "Where is Benson?" by John Fowler, stands out preeminent above them, like a diamond May shining in the gaslight. ### "The Knickerbockers."

This week's attraction at the Gaiety heatre is none other than the famous 'Knickerbockers," under the direction of Messrs, Roble and Dinkins, "The Knickerbockers" have always been known as one of the leading road attractions in this country, and this season the management have outdone themselves in putting together a show better than the best. The people are clever the comedians funny the girls pretty, the scenery gorgeous, the costumes handsome, the music catchy and the dances are up to date. #### PROFIT TO NEW ORANGE LOT BUYERS.

It is safe to say that all lot purchasers will receive good profits on their investments, and that some will receive very large profits from their holdings. There is no lot which cannot be used for building purposes, and we believe there is no lot that will not bring the investor larger returns than a similar sum invested in any other safe and secure manner.

### WHY WILL LOTS ADVANCE?

The establishment of manufacturing plants at New Orange, with the capacity to employ ten thousand people, the building of belt road and trolley lines, the location of factories and the construction of houses for residents, building of business blocks to be occupied for stores, the building of hotels, churches and school houses, invariably brings about an appreciation of the values of real estate in close proximity to the place where this change is going on, doubling, quadrupling or increasing ten-fold because of the concentration of interests.

# THE MARKETS.

Wall Street Review.

New York, Oct. 29 .- With the exceptio nof last Monday the average of prices on the stock exchange have shown a net advance for each day since Wednesday, Oct. 19. There was a general expectation, therefore, that there would be the selling to take profits today which is customary amongst professional traders at the end of the week. The buoyant tone of some of the specialties held the market firm in the first hour of the short session. Consolidated Gas and Third Avenue jumped six points, the former on talk of the termination of the local gas war. Tobacco continued its aggressive advance on the strength of the developments showing the acretions of plug tobacco companies. The stock was very active and large blocks were absorbed to make way for the upward course of the stock. The process of bidding up the price of the federal steel securities also continucd. Advances in these and in Metropolitan Street railway, New Jersey Central, Minnesota Iron and International Paper preferred were between one and two points. Meantime the Philadelphia papers with reference the railway list was very dull and to "The Jolly Musketeer," which will showed only slight changes, although nearly all changes were gains. There was a general reaction in the railroad list in sympathy, but railroad stocks generally were not active and losses were confined to fractions. Total sales were 215,500 shares.
