

EVENTS OF DAY IN WEST SCRANTON

PAVE WILL SOON BE LAID ON HYDE PARK AVENUE.

The Pavement Will Extend from Division to Lafayette Street—Furner of Miss Ellen O'Connell from the Residence, 528 North Bromley Avenue—Services Conducted at St. Patrick's Church, Remains of Mrs. Millard F. Richards Taken to Ashley.

But for the sudden spurt of the Scranton Gas and Water company during the last few days toward getting a larger gas main in on Hyde Park avenue along the portions to be paved, the operations for paving said avenue would have been started this week. The delay, however, will not amount to much, for the company which was awarded the paving contract consider that the whole work can be completed in about three weeks.

Thus once they begin the work will be pushed rapidly to completion and the residents along the paved portion will have the pleasure of knowing that no finer pavement exists elsewhere in the city.

Considerable has been written concerning this proposed pavement, but a final review will not injure it. Few such city improvements required as much labor and other trouble to secure its introduction and two patriotic West Scranton residents did noble work as members of the West Side board of trade with this object in view.

They are A. M. Morse and H. D. Jones. Then, too, when the getting of the pave was an accomplished fact, City Engineer Phillips spared no pains to give the abutting property owners the best that could be gotten at a reasonable expense to parties concerned. That he succeeded will be plainly seen when the work is completed.

The pavement will extend from Division street to Lafayette street. The roadway will be twenty-two feet in width with a nine-foot wide walk on either side. The cost per square yard will be \$142, which covers cutting, grading, gravel, sand, brick, labor and surfacing.

The bricks used in its construction are the best vitrified brick obtainable, having withstood the required test in the city engineer's office. The gravel and sand used as a base will both be up to the test.

In laying the base a cut of thirteen inches on the average will be necessary to establish grade. The ground will then be thoroughly solidified by rolling it with a ten-ton roller. Upon this surface a six-inch deep bed of gravel will be laid, upon which sand will be spread to fill in "voids." The rolling process will be gone through with to tighten sand and gravel into a concrete mass. Upon this base a thin cushion of sand will be spread and then the bricks will be laid. The surface thus obtained will be rolled into proper shape and then a thin layer of liquid cement will be run onto it. This cement will form a surface,

but will fill all interstices and bind the bricks together, thus forming a smooth surface and compact mass.

The curb along the straight, will be four inches thick and two feet deep, projecting above the pave level on an average of six inches. This curb will cost forty-two cents per lineal foot. Its outside edge (edge facing toward street) is beveled, thus adding beauty to the curb face and preventing any chipping where wagon wheels might rub. At all street and court corners the circular curb will be placed. This curb will be six inches thick and two feet deep. This will cost ninety-five cents per lineal foot. To give one an idea how much better this style of corner curbing is over the square corner, you have but to draw a part circle with a ten-foot radius and note the four feet and two inches saved from a square corner ten feet to the side, for turning purposes of traffic. Besides the corner always looks nice and needs little repairing after the scraping of heavy wagons turning on a corner. Twenty-six circular curbs will be put in, this number being required.

Now, at all street intersections, the pave will be so laid that it will nearly reach the sidewalk level, thus doing away with "jump offs" or gratings. City Engineer Phillips is preparing such an arrangement for the roadway leading from the Franklin Fire engine quarters, corner of Hyde Park avenue and Wyand court. Two new sewer basins will be put in along the street, and will be the Pierce Duplex catch basin style. One of these was recently placed at the corner of Wyoming avenue and Spruce street. The present basins will all be remodelled. The cost of this work being included in the paving price.

The trouble of pave repairs which is very evident now, concerning the asphalt pave, will be almost entirely avoided in connection with this pave. City Engineer Phillips had this very feature properly cared for in the specifications. After the work is fully completed an examination will be made under conditions favorable to all concerned. Should the work prove perfectly satisfactory it will be accepted. From this date of formal acceptance the work will be covered by a five-year guarantee, no matter how long the day of acceptance follows after the completion of the work. Then at the end of this five-year term another examination will be made. Should the pave have deteriorated in any manner whatsoever to the extent of 10 per cent, more than the usual wear and tear, proper repairs must be made by or at the expense of the contracting company. Thus in every reasonable sense the city engineer has protected the city and abutting property owners with fair play to the contractors.

The company which was awarded the contract upon their own bid is the Alcatraz Paving company, of Philadelphia, and will be represented here by J. T. Dixey, of Philadelphia. It is expected that they will procure most of their labor right here. The city engineer's force have had the lines and grades ready for sometime awaiting the beginning of the work.

**FUNERAL OF MISS O'CONNELL.** A large concourse of friends, many from out of town, attended the funeral of the late Miss Ellen O'Connell, which was held yesterday morning from the residence, 528 North Bromley avenue. The remains were borne to St. Patrick's church, where at 9 o'clock a solemn high mass was celebrated. Rev. J. B. Whelan, rector, acted as celebrant and was assisted by Revs. D. A. Dunno and A. T. Broderick.

MRS. PINKHAM TALKS TO THE FUTURE WOMAN.

Will the New Generation of Women be More Beautiful or Less So? Miss Jessie Ebnor's Experience.

A pleasing face and graceful figure! These are equipments that widen the sphere of woman's usefulness. How can a woman have grace of movement when she is suffering from some disorder that gives her those awful bearing-down sensations? How can she retain her beautiful face when she is nervous and with pain?

Young women, think of your future and provide against ill health. Mothers, think of your growing daughter, and prevent in her as well as in yourself irregularity or suspension of nature's duties.

If puzzled, don't trust your own judgment. Write to her at Lynn, Mass., and she will tell you how to make yourself healthy and strong.

Lydia E. Pinkham's Vegetable Compound strengthens the female organs and regulates the menses as nothing else will. Following is a letter from Mrs. JESSIE EBNOR, 1715 West Jefferson St., Sandusky, Ohio.

"Dear Mrs. Pinkham:—I feel it my duty to let you know of the great benefit your remedies have been to me. I suffered for over a year with inflammation of the ovaries. I had doctor, but no medicine did me any good. Was at a sanatorium for two weeks. The doctor thought an operation necessary, but I made up my mind to give your medicine a trial before submitting to that. I was also troubled with leucorrhoea, painful menstruation, dizziness, nervousness, and was so weak that I was unable to stand or walk. I have taken in all several bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and am now in good health. I will always give your medicine the highest praise."

Ask Mrs. Pinkham's Advice—A Woman best Understands a Woman's Ills

She is survived by her husband and one child. The funeral will be held today morning. A high mass of requiem will be celebrated at St. Patrick's church at 9 o'clock. Accepted. "Do you love me, sweetheart?" he asked passionately. "I think I do, Henderson," she replied, demurely. "I love you as much as I can, and means as much to me as anything in Boston. It involves so much that is abstract, in Chicago so much that is passionate and in New York, I rather think I could be happy with you, yes, Henderson, I will come to your arms."—Harper's Bazar.

**IN A SEDAN.** From the London Sketch. She was dressed in the exquisite gown—the creamiest silk you may buy. Her shoe was so small that it must have come down from Fairyland up in the sky. Her step it was light, though her tresses were white. (For the fashion decided the plan): And she wended her way to a dance or a play. In the loveliest little Sedan. I happened to meet her one night in the year— (But why need I mention a date?) Suffice it to say that she sat in her carriage with the pride of a Princess in State. And the chairmen who strode through the mob in the road. That followed the gay caravan. Were calling aloud to the curious crowd, "Make way for my lady's Sedan!" They stopped at a spot where a miniature leau. Was waiting her coming with pride; His coat and his wig were as white as the snow. And he carried his hat by his side. As he handed her out with a welcome. My lady abandoned her fan. And, raising her dress like a little Princess. She stepped from her stately Sedan. Ah, me, lack-a-day! it was only a dream Of days that we may not recall; For one is compelled to go on with the stream. While all that I saw was a ball. Where a gay calvaudee in a mixed mass. From Alfred to Mary and Anne. Had made me believe we were just on the eve Of the days of the dainty Sedan. But out in the street I could hear from The rattle of growlers apace. The whirr of the yellow electrical car. While hansom drivers up at the door And "my lady" in socks and the shortest of frocks. And shoes that were possibly tan. Would tell me with scorn when she walked on the moon. What she thought of that "stately Sedan."

DAY'S DOINGS OF NORTH SCRANTON

PILE OF BRICKS CAUSED A SERIOUS ACCIDENT.

Mrs. Catherine McNulty Was Thrown Down and Injured—Birth-day Party Held at the Home of Mr. and Mrs. James Tretheway, of Oak Street—Concert to be Held in the Methodist Episcopal Church on November 11—Some Minor News Notes of Interest.

In neglecting to remove the pile of bricks which was piled on North Main avenue, the result of the commencement of the Providence pave the city is probably liable to be sued for damages on account of the serious injuries sustained by Miss Catherine McNulty, an aged lady, who tripped and fell over the obstruction on Sunday last and sustained serious injuries.

The bricks, which occupied a position at first on the curb, were scattered right and left over the side walk, making it dangerous for pedestrians. Mrs. McNulty was returning from a visit to her daughter, Mrs. John Lynch, of Church avenue, when the accident befell her. The result of her fall broke her wrist and painfully injured her.

She is now in the care of Dr. H. L. Gibbs and suffers intensely from the shock she received. The attention of Mayor Bailey was called several weeks ago to the danger which beset pedestrians and he notified Commissioner O'Boyle, who ordered their removal by the contractor. Immediate compliance with the request did not occur and the bricks are still there.

**BIRTHDAY PARTY.** A very pleasant birthday party was held at the home of Mr. and Mrs. James Tretheway, of Oak street, in honor of their son, J. Harrison Tretheway's tenth birthday. Mrs. Tretheway with the assistance of Mrs. Reese and Mrs. John Tretheway catered to the wants of the young guests. The afternoon was pleasantly spent in different kinds of enjoyment, singing, dancing and games were indulged in and refreshments were served.

Those present were Mrs. N. E. Campbell, Blanche White, Ellen Elmgrod, Alice Shepherd, Lillian and Annie Morris, Lena Webster, Sadie Bierbeck, Grace Wolf, Marie Meyers, Rosalie Williams, Lulu Griffin, Alice Mann, Margaret C.
