CARBONDALE.

IThe Carbondale correspondence of The Tribune has been placed in the hands of Mr. J. M. Forbes. All complaints as to irregular delivery, etc., sho news ttems, should be addressed to Roberts & Reynoids, news agents.)

A FIRE ON LINCOLN AVENUE.

What might have been a very serious blaze but for its being discovered while yet incipient, started in the Schroeder building on Lincoln avenue yesterday morning shortly after two o'clock. Officer J. J. McHale was making his rounds in that quarter when he ticed the bolazing fire. He hurried to the Mitchell hose company's quarters and succeeding in arousing the sleeping ffreman, who soon had the hose attached to the fire plug at the corner of Main street and Salem avenue. The wind was blowing at the time in a terrifle menner and had not the officer discovered the fire when he did there might have been a destroyed block. It was found upon investigation that the insulation had been worn away from the electric wires where they entered the building and a hole about six inches in diameter had been burned through the walls, which is about five inches thick. The rain blow through the breech and wet the floor, to which fact Mr. Scroeder probably owes the undestroyed condition of his building today. The wiring in the structure an old style used by the Electric light company some years ago and was not heavily insulated.

ANOTHER CAVE.

The people residing on the city's South Side are becoming greatly plarmed over the caving of the earth's surface in that vicinity. The Tribune told a few days ago of the serious de-pression which almost swallowed the couse of Mrs. Winifred Byrne and left Cottage street in such a way as to cause the suspension of any and all traffic on that much used theroughfare. Another cave-in took piace in front of the property ewned by Thos. Farrell on Thursday afternoon. sidewalk sunk to a depth of almost six feet. The parents of children who attend No. 5 school are much concerned over their safety, although it In said that the miners are still enraged in taking coal from that immediate vicinity. It is said that the school property rests on an uprobbed However, it would probably be wise for the proper authorities to Investigate the matter and find out to their satisfaction whether or not the lives of the school children are at all menaced as is rumored.

A RUNAWAY YESTERDAY.

Yesterday morning the handsome black team belonging to James Barrett, the South Main street grocer, aused considerable excitement Main street by making an exceedingly lively dash down that thoroughfare. The street was crowded with pedestrians and it is surprinsg that no one was injured. Several persons had narrow escapes from being trampled under the

hoofs of the maddened animals. The teams was standing on North Main street near Altken's corner and ran from that point to the slight in-cline on Pike street, where they were captured. The animals likely escaped Davis will occur tomorrow afternoon injury, but the wagon was slightly at 2 o'clock. Buried will be made in damaged, as was the harness. The the Forest Home cemetery. team is one of the finest teams in the city and are very spirited and have prominent young men, has been prorun away on several previous occasions, moted to the position of assistant out-The damage to the wagon was exceed- side foreman at the Bellevue colliery slight and before the day was over it was in use.

SEVENTH AVENUE CLOSED.

The drivers in the city experience great inconvenience through the closing of Seventh avenue bridge, and the avenue itself from the bridge to Mill ing th past week. street, thus suspending teaffic on lower River street. The contractors have taken the required steps so as to be th is done excepting a small space

will be entirely completed and open for public traffic in a very short time, providing the weather remains tavorable for outdoor work.

ELROY STOCK COMPANY.

The Elroy Stock company will be the attraction at the Grand all next week. This company which plays at popular season when they played here. They are great favorites with Carbondale theater-goers and will no doubt have large audiences during their stay here. diagram opened for Monday night's performance, "A White Squad-ron," and a great number of seats have

LOCAL AND PERSONAL.

A large number of prominent society Main street. people were in attendance last night at the informal dance given in Burke's hall by the Elite Doncing class. The class has given a number of dances brilliant affairs, but the one last atc. evening fairly outdid anything before attempted in its line by that organization. A number of out of town persons were in attendance.

YOU CANNOT CURE PILES

By Internal Remedies.

The only way to cure piles in every form is to use a remedy like the Pyramid Pile Cure which is applied directly to the parts affected and its wonderful bealing effects are felt on the first application because the medical properties are rapidly absorbed by the sensitive membranes of the rectum and the cure is speedily made, and almost before the patient is aware of it, every

trace of piles has left him. This is one reason why the Pyramid Pile Cure has been so successful. It is applied directly where is is needed and where it will do the most good. Not by the roundabout way of the stomach nor by the harsh, barbarous methods of various surgical operations and so

Its adventages over all other pile cures are these; It cures without pain, the cure is lasting, it contains no poison and is the quickest and cheapest cure yet found. It is made by the Pyramid by Mrs. McPherson and sister. Drug Co., of Marshall, Mich., and sold by all druggists at one dollar per pack.

WYOMING SEMINARY.

Lieutepant Ramon Gillott, of the Cuban army, arrived in Kingston this week and is stopping at the seminary with his brother, Prof. Pedro Gillott. He is one of the political prisoners reently released from the famous Span ish prison Ceuta, off the coast of Africa, He is 22 years old, but has experienced more than one man's share of the ex-cifing incidents of life. He joined the uban army at Guantanamo, two years and a half ago. He was in our battles and was taken prisoner years ago. He was sentenced to e shot, but sentence was afterwards mmuted to life imprisonment at hard abor at Ceuta. In this prison he was bliged to work from 2.30 in the mornng until 7,39 at night. The men were kept hauling stones to build fortifications, and often many of the prisoners ainted. The men were half starved. Many attempts were made to escape. out of no avail. The peace commissioners asked for the release of these political prisoners and the United States transported them to America, Lieutenant Gillott will take a course in Einglish and business at the seminary, This afternoon the seminary-foot ball team on Wyoming field. This will be the mest interesting game of the season, as the Syracuse team is conceded to be the strongest team in New York state, with the exception of Cornell. It is expected that the foot ball enthusiasts from all over the valley will be in attendance.

The concert last evening was one of the finest musical treats of the season. It was given in the chapel for the benefit of the Athletic association. The artists were Miss Orra Barnum, soprano: Miss Annette Reynolds, contralto; Mr. O. Reywood Winters, baritone, and Mr. Thomas R. Williams, tenor, assisted by

Miss Elizabeth Parker, reader, Basket ball will soon be the rage, for the 'Varsity team. It is hoped that number of good games will be ar-

unged this season. Next week will occur the annual game of foot ball between the Seniors and Juniors. This is always the most hotly contested game of the season, Juniors are confident of success, and the Seniors know they can whip mensiy Juniors, Birah! Birah! Birah! Biree! Bangety-Bang-up-19C. PECKVILLE.

The Libby Glass-Blowers will held forth at the Wilson fire company's hall Monday, Tuesday and Wednesday afternoons and evenings. Come and see these scientific glass workers blowing, weaving, knitting and spinning glass into handsome designs. Admis-

sion to cents All earpenters are requested to be present this evening at the Wilson are company hall for the purpose of organizing a carpenters union.

The lighting up of the street lights Thursday was done against the wishes of the borough's electric engineer. Martin Harloe. The line had not been finished and no insulation had been placed where the wires came in contact with trees. The heavy rain made it dangerous, as the electric fluid became grounded at two different points on Main street and the wires were melted and fell upon the ground, making an electrical display that could be seen for miles, Although several persons were in close proximity to the falling wires no one was hurt. It would be a good idea to first get the line in a safe condition before trying it again.

Peckville Baptist church, Rev. J. S. Thomas paster-Services tomorrow at 10.30 a. m. and 7 p. m. Morning subject "The Things That Are Above." Evening subject "Salvation Through Sabbath school at 11.30, Croydon, Obedience. a, m. All are welcome.

All the Gold in the Sea Would More Than Build One. From the Tit-Bits.

It is little realized that the sea is treasure house of gold, so incredibly rich as to far exceed the wildest dreams even of a mad millionaire. Although in every thirteen tens it only holds one grain of pure gold, its bulk is so vast that its 400,000,000 cubic miles of water hold in solution gold of the value of £1.025,000,000,000,000. If this gold could be rescued and dis-

tants of the earth, each man, woman and child living would have a fortune of £683,333, or roughly 5% tons of sovereigns, and would enjoy the comfortable living income of £525 a week, or more than the annual income of five cabinet ministers of the first class. Let us coin in fancy the sea's gold and pile our myriads of sovereigns into one stupendous column. tower of geld, standing on a base i quarter of a mile each way, would soar into the clouds to a height of 14,-828 feet, or 904 feet lower than the

tributed equally among all the inhabi-

and cart away our tower of sovereigns we should require the services of 3 2-3 borses for every man, woman and child in the world. If we make a carpet of our marine overeigns we should have more than sufficient to cover an area 1.000 miles long and 183 miles wide; in fact, to plate" with sovereigns the whole Great Britain and Ireland, Holland Belgium and Portugal, with a rem-

summit of Mont Blanc. To demolish

nant of over 6,060 square miles of gold to spare. With our golden treasure we could make a girdle around the equator nearly eight miles in width, or as wide as from the Thames to Edmonon, or southward, to the outskirts of

Similarly we could construct a roadray to the moon 364 yards wide, along which 150 carriages might be driven abreast in comfort.

We could make a railway track of gold to bridge the 91,725,000 miles which divide us from the sun. Our golden track would be 114 feet wide; and if in 1724, when George L had still three ears to reign, an engine had started on its long journey from earth to sun. and had raced night and day over its yellow track at the rate of sixty miles an hour, it would only reach its destination as these lines are being printed. As a final flight of astronomical fancy let us construct two ralls of sovereigns each 2 1-2 inches wide, and on this track let us take a journey to Neptune.

2,755,000,000 miles away.

We should have quite sufficient sovereigns for this purpose; but, journeyhour, it would take us 5,242 years to reach Neptune, by which time it would be too late to think of the return jour-
