of Honosdale, spent Sunday in this city, the guest of C. C. Rose, coal superintendent of the Delaware and Hudson railread, Councilman W. V. Griffiths spent Sat urday and Sunday with the Thirteenth regiment. Pennsylvania infantry, at Camp Meade. He was warmly received by both officers and men of the regiment. Band Master Miles. ex-member of Baner's band, and of which Mr. Griffiths is a prominent member, showed his appre ciation of his former associate by hav-ing his band give a Sunday afternoon cencert for his special benefit, which was excellently rendered. Judging from the excellence of the music Professor Miles and his men are to be commended for the case and grace with which the have overcome the difficulties which coa fronted them. The men of the Thir-teenth as a whole were in excellent health and spirits and seem to take kind-

#### ly to their departure to a warmer eli 1899 COLUMBIA CALENDAR.

The Fourteenth Edition of the Well-Known and Very Useful Little Memorandum Pad Makes Its Welcome Appearance.

The 14th annual edition of the Columbia Desk-pad Calendar, issued by the Pope Manufacturing company. Hartford, Conn., is being distributed. This calendar occupies an unique place among advertising devices. It may be said to be largely the product of the Pope company's own customers, whose contributions in the shape of fitting testimonials to the merits of Colum-bia product, or elever bits of verse about bicycling in general appear at the tops of the various pages over the names of the contributors. The pages for Sundays, the first day for each month, and holidays, present appropriate selections from well-known au-

Any person may obtain a copy b applying to the neaves: Columbia dealor by sending five 2-cent stamps to the Calendar Department, Pope Manu-of the Ladies' section at Blatter's hall facturing company, Hartford, Conn. \* Thursday evening, Nov. 15.

#### PRINCIPAL'S ROUND TABLE.

Matters Considered at the Meeting Held Yesterday.

organization known as the Principla's Round Table held a meeting yesterday afternoon in the high Principals of twenty-one of the city's schools were present. special committee appointed at the last meeting to draft a suitable blank to be used in receiving supplies at the school buildings was presented.

The members of the committee, Professor Graves and Professor Hawker, reported that they had submitted the blank to the supply committee of the board of control and had received as surances from the gentlemen of the committee that they will do what they an to have the board adopt the blank. For discussion the topic taken up was "Public School Bank Deposits."

Miss Josie Lees, principal of No. 19. and Prof. David Owens, of No. 13, led in the discussion. They were followed by Professora Phillips, Jones Crutenden, Hawker and Stone. During the course of the discussion it was shown that in eight school buildings the city the savings bank idea is now in use. In schools Nos. 13, 19 and I of the West Side, where the deosit plan was adopted on the first of the year there are upwards of 600 positors and the deposits amount to nore than \$1,500.

As a result of the discussion it is probable that the savings plan will put in operation in a number of other schools within a short time. At the next meeting an address will be delivered by F. M. Blatchley, of North Scranton, who taught school in Scranton during the 50's. His topic will be reminiscences of Teaching in

#### COUNTRY DANCE AT ARMORY.

Scranton in the '50's.

Gives Promise of Being a Very Enjoyable Event.

The Hay Carnival, better known as Country Dance, to be held at the Thircenth regiment armory next Tuesday vening, is affording considerable comment, and the demand for calico and Cymanthia" bonnets, also boots and Rube" hats is very large; the pleasant arrangement seems to meet with popular approval, owing to the fact that no special stayle is required. It is ex-pected that a very large number will present the regular farm styles, without uniformity, some may prefer to year their Sunday-go-to-meetin. while others will wear plain "shifting" r "working" outfits

It is hinted that some of the memers of the large orchestra are costuming in a very suitable manner, and no loubt their music will be a rare treat. n perfect harmony with the cornstalk,

traw and hay decorations.

By all indications the Columbus counii, Young Men's Institute, will make the "Rustic Carnival" a leading event. Many are coming from the surrounding

#### MEETINGS YESTERDAY.

BAPTIST MINISTERS MIGET.-The laptist Minister's meeting was held yes relay merning with a large attendance resent. A feature of the occasion was a aner on "Education" by Professor Huipaner on "Education" by Professor Hul-ley, of Keystone academy, which was read by Rev. M. J. Watkins, of Factoryville, A discussion followed in which many clerkymen participated. An interesting address was delivered by Rev. Dr. Duna, of Hillsdale college, Mich., on "Educa-tional Qualifications as Applied to the Clergy." The programme for the next meeting was not appropried.

byterian Cleric held its monthly session in Dr. Logan's study yesterday with a trge number of clergymen present. A usual the hour was chiefly devoted to age, employed at the blast furnace, is social intercourse and no topic relating at the Moses Taylor hospital suffering to church work was formally discussed. Among those in attendance were: Rev. Dr. Logan, Rev. Dr. McLeod, Rev. Dr. Robinson, Revs. G. E. Guild, S. F. Mat-thews, Hannon, Foster, Rankin, of Haw-ley; McDowell, of Honeybrook, and D'Anna

M'ALL MISSION MEETING.-Mrs. 8 P. Hull pleasantly externalised the mem-pers of the McAll mission yesterday at ternoon at her home in Green Ridge. A large number of ladies were present. Several articles relative to the work were sead. Mrs. J. A. Price, the president of the local society, and Mrs. A. E. Finn read interesting reports, among which was the report of Mr. Gregg, successor to Dr. McAll. The next meeting will be held in January at a place not yet an

#### NARROW ESCAPE OF TWO YOUNG WOMEN

MOUSE NEARLY CAUSED THEIR ASPHYXIATION.

The Rodent Gnawed a Hole in a Rubber Tube That Supplied a Gas Stove in a Room Adjoining Their Siceping Apartment-One of Them in Addition to Being Almost Suffocated to Death Tumbles Over a Balustrade and Falls a Distance of Twelve Feet.

A mouse almost caused the death two young women, Lizzie and Kate Kelley, of 22s Adams avenue, Sunday

night. They are sisters and their home is in Nicholson, but they are employed in this city and have apartments on the third floor of the frame building the number above mentioned. The der sister is a dressmaker and her ork room adjoins the bed room, which s occupied by herself and the younger sister, who is a bookkeeper for Griffin and Collins, the clothiers.

In the work room is a small gas stove used for ironing and like pur-pozes. It is supplied by a rubber tube onnecting with the gas jet. The last time the stove was used the gas was turned off at the stove instead of at the gas jet. During Sunday night a mouse gnawed a hole in the rubber tube, large enough to permit a full flow

of the gas. About daybreak yesterday morning Dr. T. M. Senderling, whose dental office and living apartments are on the second floor, was awakened by a loud sound as of something heavy falling in the hallway outside his bedroom Hurrying out, he found the younger of the sisters lying on the hallway floor unconscious, Upstairs he discovered the other in a similar condition on the floor of her bedroom.

It was all that Dr. Senderling could do to stay in the room long enough to pick up the prostrate and unconscious form and rush out into the nallway and down the stairs so com pletely tilled were the apartments with the poisonous fluid.

He hastily summoned Dr. Mary A. Shepherd, who occupies the ground floor, and the work of resuscitation was began. For a long time it was feared that succor had come too late, but finally they began to slowly revive and in about two hours were thought past the danger mark. Last night they were still very sick, but nproving rapidly.

It appears that the younger sister awoke and, arousing the other, both started for the door. The older sister fell to the floor before she had gone many feet, but the other staggered out of the door into the hall. In her dazed condition she could not guide her footsteps and colliding with the balistrade toppled over and fell to the floor below, a distance of twelve feet. Remarkable to say, the fall caused no apparent injury.

The after-investigation showed quite onclusively that it was a mouse that had cut the rubber tube. The hole was such as a mouse would make and it could not be accounted for by any other explanation.

#### THREE MEN INJURED. PRESBYTERIAN CLERIC.-The Pres- | They Were Taken to the Moses Taylor Hospital.

nnolly, a man of adfrom injuries received yesterday at his work. He was engaged in front of one of the furnaces when a vast volume of

gas burst through, covering him. His face, right arm and side were burned severely. He will be laid up for some Richard M. Coss, of Palm street, a orkman at the South mill, broke his left leg by a fail last night about 10.30 o'clock. He is engaged at the rall department and was walking on the scaffolding when he missed his step and was precipitated to the floor, striking

on a piece of steel. The Moses Taylor hospita; ambulance was called and he was taken to that institution. James Griffin and Frank Schultz, of the North works, were injured by heavy piece of iron falling on their feet. Their injuries are not great, and they will be about in a few weeks.

They, too, are at the Moses Taylor hos-

## Paine's Celery Compound

Makes People Well.

from a debilitated nervous system is Paine's celery compound, so generally prescribed by physicians. It is probably the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Phelps, M. D., L. L. D., of Dartmouth college first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, biliousness, liver complaint, neurolgia, rhoumatism, all nervous diseases and kidney troubles.

#### DICKSON'S STATEMENT.

Paine's celery compound has succeeded

again and again where everything else has

It Has Reference to the Needs of the Lackawanna Hospital-Policy Is One of the Broadest Liberality.

Saturday's Tritaine contained an article which set forth the needs of the Lackawanna hospital and why additional wards are needed, so that certain kinds of cases can be properly isolated. With reference to the admission of what are usually termed objectionable cases the president of the hospital. James P. Diekson, makes the follow-

In your excellent article on the Luckawanna hospital in Saturday's issue one or two errors crept in, that in justice to the hospital and the public, I feel that I should correct. The article setting forth the needs of the hospital and their aid asked for from the state is not only true, but should be most emphatically emphasized by every person in Scranton who has a spark of human kindness in their makeup, and your remarks on children's wards are

particularly appropriate.
What I would call attention to as being incorrect is the paragraph in which you state that cases of typhoid fever, consumption and diphtheria will not be admitted, nor will cases of alcoholism. Now, as regards typhoid fever, consumption or diphtheria, we have never refused cases of the first two mentioned, that is, typhoid and con-sumption; in fact, we have had and are having constant admittance of these two diseases, and as regards ty-phoid, we during the last two years have rarely had less than from six-teen to twenty cases of this disease.

only refuse consumptive cases shich are chronic, our by-laws being very specific in this case, that we should take no chronic cases whatever, but the fact of the matter is, we are rarely without five or more cases of consumption, or, as it is now called, tuberculosis. These cases we do not take, if it is understood when they are brought there that they are suffering with this disease, because all medical authorities now say that they are con-Now as regards alcoholism, there is

hardly ever a time we have not one or more cases of this kind. We do not admit them as cases under this head. but they are frequently brought to us as simply cases of fever, or from cases of slight accident, and the alcoholism develops after they have been with us a day or two. Now let me say one thing as regards the reason why we cannot accept these cases. In the first place they are very apt to be noisy, such that will disturb the other patients in the ward. In fact they are insane cases and as such, we having anywhere from sixty to seventy bedrided patients, we cannot in justice to these allow them to be inmates of the only wards we have and so disturb some who are suffering with fevers, or just getting over a severe or serious surgical operation, but I want to say high) here that never have we turned out a case on the street of any kind. We have asked that cases of this kind be sent to the poor farm, and until were taken to the poor farm they ad first-class attention at Lacka-

vanna hospital As regards diphtheria, that is purely and simply a contagious disease and we are not allowed under our by-laws to take these cases; however, if they develop in the hospital, we glo everything we can for them, and in fact we do so much that our superintendents and nurses have given up their rooms for these cases and they do everything they can to take care of them.

I can only say, in conclusion, that the Lackawanna hospital has in every instance used every endeavor to take care of not only the legitimate wounded and sick, but have time and time and again taken in cases which, according to the strict reading of our by-laws, should strict reading of our by-laws, should have been put out on the street, bu never in my position as president, which has extended over a term of nearly ten years, have I known a single person to sent away from the hospital whether was a case of contagion, insanity or

We have always taken cure of them until such time as proper provisions could be made, and just as good care made of them as could be done by any institution in the state.

This shows that the institution is us ad as it is possible to make it and emphasizes the necessity of extending to it the assistance so greatly needed.

## CITIZENS PROPOSE TO TAKE ACTION

LACKAWANNA TOWNSHIP AF-FAIRS AGAIN CONSIDERED.

Meeting Held in Dymond's Hall, Moosic, Was Attended by Over Two Hundred Persons-A Subscription Was Started to Secure the Funds Necessary in Bringing About Reform in the Township. Some of the Statements Made at the Meeting by the Speakers.

At the adjourned indignation meeting of the tax payers of Lackawanna township, held in Dymond's hall, Moosic, last night, a subscription fund was started to carry on the investigation into the manner in which township affairs have been managed, and to prosecute the officers who may be shown to have been guilty of wrong

Peter Mullen was elected chairman; Joseph King, secretary, and John Dy-mond, treasurer. Samuel Brodhead. James Levan, Elmer Berlew, Thomas Walsh and David Davis were appointa committee to take charge of the fund and co-operate with the officers in directing the investigation and exceted prosecution.

There was an attendance of over two bundred at the meeting. C. W. Thompm. jr., and Peter Mullen, the pro fectors of the meeting, laid before the essemblage the grounds on which they base the suspicions which led them to begin this movement. The suspicious circumstances mentioned at the last meeting were resterated by the speakers. Mr. Mullen called attention to the fact that in four years the tax payers had been called upon to pay \$55,000 for road improvements, while it was apparent to any man who cared to even casually look into the matter that not over \$1,200 had actually been expended on the roads.

HIGH TAX RATE.

"Forty-two mills on the dollar b what you had to pay last year to keep these sharks in luxury." said Mr. Mul-"Look about you. Who are the rich men of Lackawanna township? With a few exceptions they are the men who have held township offices A great to-do was made last week over the election of a congressman. What is a congressman as compared to a supervisor of Lackawanna town ship? Why, a congressman's salary is only \$5,000 a year."

Mr. Mullen also gave the information that the Delaware, Lackawanna and Western Railroad company, the Lehigh Valley Rallroad company, the Moosic Powder company and other large taxpaying concerns have signified their willingness to join with the citizens of the township in carrying on the inves-

tigation.

He reiterated his statement made at the last meeting that the township officers had a printing press set up in Minooka and that they printed and issued orders whenever they felt like it. They even paid with township orders, he said, the "heelers" who worked for them at the polls. As an instance of what little value is attached to a township order now, he told of being offered he said, the "heelers" who worked for them at the polls. As an instance of ship order now, he told of being offered a \$100 order for \$9.

Mr. Thompson again analyzed the auditors' report recently filed and to which exceptions were made by the Delaware, Lackawanna and Western company and Peter Mulien. Many fishy" items were pointed out and the direct charge was made that both Supervisors Quinn and Toole had illegally charged \$2 a day for their serices, while the law only allows them \$1.30. He also, unequivocally, stated that Supervisor Toole had worked the greater part of last year hauling stone for the foundations of the new silk mill and other buildings in Taylor. The auditors allowed Mr. Toole \$6 a day for himself and his team for about every working day in the year.

COULD GET NO MONEY.

During a season of speculating as to hat became of the tax and license longys—the treasurer never having but became of the tax and license noneys-the treasurer never having any funds-William Springer told of buying worked on the roads for four ears in succession and of his never having been able to get an order cashed. He sued once, and got judgent for the amount of his claim, \$57. He was glad to sell the judgment for

The next meeting will be held at a date to be announced by the chair.

#### SOME DO NOT LIKE OPERA. If They See the Gondoliers They Will Be Cured.

There are some people who don't care such about opera-they don't think they understand it, or they think it ! not funny enough, and so when they ee an opera advertised they stay

Now there are operas and operas. It cas to reach and please the ones who do not comprehend the old style of operatic performance that the authors of "The Gondollers" wrote just such an opera as the one to be given next cek by our local singers. If you think there is no hearty fun in it, buy ticket and attend next Monday night and if you are not more than delighted ive up opera and don't try it again You see "The Gondoliers" once it ! ertain you will want to go again and gain. The sale of sents opens Friday.

#### SCRANTON CAMERA CLUB. Had a Merry Time at Its Meeting

Last Night.

At the regular monthly meeting of the Camera club held last evening. urprise was in store for the member the way of a chafing dish and coffe ewing demonstration. After the busivs meeting a lantern-slide exhibition vas announced and views of the momers and their exploits on the full out ng were shown on the screen

The club journeyed to Dallas and Harvey's lake last month and not only ade a half a hundred excellent views out photographed its members in th perations of photographic fun. Strutton gathering wild flowers, G. W. Stone studying cloud effects, L. A. Os orne wondering what his wife would ay, were subjects of slides, which pro voked great amusement. After the exhibition President Or

borne prepared some fricassed oysters on the chafing dish, which everybody
