A NEW INDUSTRY.

Carbondale to Have a Washery Near the Racket Brook Breaker.

Carbondale is to have a new inclustry in the nature of a washery to be erected by the Delaware and Hudson Canal Company near the Backet Brook broaker culm pile. The lumber is being unloaded for the structure each day. A large force of men will be employed in the building of the washery, which, when completed, will be the size of a small breaker. This is a welcome piece of news for the residents of this city, who are plunged into despondency through the alleged abandonment of the grayfry railroad. The industry is a windfall, as it will furnish steady employment for a number of men when finished. The clum pile mentioned is one of the largest in the state-if not the largest-and ments goes the name of C. C. It will be a long time before the whole Shayne. Many a woman throws away the flower of her youth—her beauty, her amiability and her capacity for wife hood and mother-hood—without realizing it. There is no sadder sight than that of a young woman who has for years been bearing up bravely and silently under physical fortures that would drive a man to the mad house. Thousands of women suffer in this way and ask neither aid nor sympathy. They tealize that they are the victims of weak ness and disease of the distinctly woman! ganism. They do not consult a physician cause of the well-founded fear that he will insist upon disgusting "examinations and "local treatment." Dr. Pierce's Favorite Prescription does away with al necessity for these ordeals. It cures in the necessity for these ordeals. It cures in the privacy of the home. It restores health and strength and vigor to the delicate or gaus concerned in wifehood and mother-hood. It tones, invigorates and builds up the nerves and transforms nervous, over-wrought, sickly invalids into healthy, happy wives and mothers.
