THE FAIR FLOURISHING.

The Mitchell Boys Are Encouraged by Their Success. The main topic of conversation now that the gravity abandonment has rather died out, is the Mitchell hose company's fair, which is crowded each evening to the doors. The entertainment carried on each evening is of a high class order and the door prizes are being tried for. The Mitchell boys are on of the most popular organizations in the city and is attested by the manner in which the people turn out.

The work of Professor Stone, the hypnotist, is in the nature of a revelation to many who do not believe that such an accomplished person in his line dwelt in this city. He had his subjects completely in his power and their pranks kept the audience in a roar of laughter from start to finish. The professor will endeavor to entertain another audience tomorrow night, when several new subjects will be introduced. The programme for tonight is an especially praiseworthy one.

TWO MARRIAGES.

St. Rose's church was crowded yesterday evening when many anxious to witness the double wedding which was solemnized by Rev. T. F. Coffey at five o'clock. The wedding party comprised of but four people as the couple acted in turn as bridesmaid and groomsmen for the other. Miss Mary E. Carden and William H. Mahady were the first to be made man and wife. The bride was attired in a becoming gown of blue tulle trimmed with white and white silk and a hat to match. Her sister, Margaret E. Carden, who was wedded to Alexander J. Flannery, was attired in a gown of blue tulle that enhanced her natural beauty. It was trimmed with white and white silk. A reception was held at the bride's home on Dundaff street after the ceremony, in which but the immediate family participated. A large circle of friends wish the couples a happy married life.

BURIED YESTERDAY.

Mrs. Patrick J. Finnegan was buried yesterday morning in St. Rose's cemetery, the funeral moving from the house shortly after nine o'clock. The procession proceeded to St. Rose's church where a high mass of requiem was solemnized. Rev. W. A. Nealon preached a fitting eulogy in which he addressed words of consolation to the bereaved family.

The cortege was one of the largest seen in this section for some time, many people from out of town being in attendance. The pall-bearers were P. M. Nealon, Bryan Byrne, M. M. McDonald, Thomas Golden, John Kelly, Stephen Nealon, George Shaff and M. Loftus. A number of floral offerings were sent in by friends of the family. They were profuse and beautiful.

GRACE VAIL BURIED.

The many friends of Miss Grace Vail followed her remains to the last resting place in Brookside yesterday afternoon. Services were held at the house at 2:30 o'clock by Rev. T. E. Jenson. The pall-bearers were Edward Orths, Orville Swingle, James Keglar, August Brunner, Charles A. Rander and William Skelly. The beautiful flowers were borne by Misses Nina Roid and Susan McIntyre, companions in life to the deceased girl.

ELROY STOCK COMPANY.

Each performance of the Elroy Stock company increases the number of patrons to the Grand, where that company is filling a week's engagement in this city. Yesterday afternoon a large audience saw "Mrs. Whitehouse, of Washington, D. C." while the opera house was crowded to its utmost capacity last night. Miss Church and Mr. Cooke are great favorites in this city, judging from the applause of the audience last night when the "Rough Rider" was given. The "Police Patrol" is on the boards for tonight.

A BAD CUT.

Warren Pierson, of Lincoln avenue, was cutting an ax near his home yesterday when the implement slipped and cut his hand severely. Dr. Lowry was called and found it necessary to take twelve stitches in the wound before it was closed. The ax narrowly missed cutting the ball of his thumb off, and if such had been the case, a terrible accident would have occurred. As it is, it will be some time before he will be able to use his hand.

A DRAMATIC INCIDENT.

A Lecturer Discovers His Danger and Loses His Life. It is the scene in a lecture room of a medical college in New Orleans. The professor is lecturing before an intelligent class of medical students. He is describing the human body, its defects and the danger by which it is surrounded. In order to illustrate it he has fluids from the human body, which he is subjecting to chemical tests.

"Gentlemen," he said, "I have described to you the appearance of the human fluid in a diseased state; I will now show you how the same fluid appears in a healthy state," and he subjected his own to the test. As he held it up to the light for a moment his hand trembled, he caught his breath, he paled and exclaimed: "Gentlemen, I have just made a most horrible discovery. I myself have Bright's disease of the kidneys." In less than one year he was dead. The above dramatic and strictly true incident shows the terrible danger and mysterious nature of this modern disease, which may well be called the demon of the present century. It steals into the system like a thief, manifests its presence by the commonest symptoms and fastens itself upon the system before the victim is aware. It is nearly as hereditary as consumption, quite as common and

PECKVILLE.

A regular adjourned meeting of the council was held Tuesday evening to clear up the electric plant bills and to find ways and means to continue the work of lighting up that portion of the borough not classified in the original contract with the Scranton Electrical Construction company. The first order of business was the reading of the monthly report of S. B. Williams, burgess, who in his message, stated that he had withheld the resolution pertaining to the hiring of Robert Kiple as lineman from the last meeting so as to be able to do a little figuring and that he had found that the borough could not go ahead and supply the citizens of Blakely with electric light until they had placed the matter before the people and got their vote upon the subject and therefore placed his veto upon the resolution. Council sustained the veto. Resolutions to engage E. M. Barnes and E. N. Jones as engineers, and for the acceptance of Fifth street, and the rate of wages to be paid engineers, \$65 and \$63 passed second reading. The secretary did some figuring and stated that already \$12,717 had been expended on the electric system, and it would take some \$3,000 more to finish the work as mapped out. Before the people could be served with commercial lights transformers would have to be purchased. This alone would cost \$1,000 and as they had already spent \$2,507.17 more than the appropriation the future looked dark for the electric light plant. Mr. Parry stated that the only way out would be to place the matter before the people and vote for bonding the borough for the sum of \$5,000, making the total bonded indebtedness for the erection of the plant and its accessories, \$2,000. Mr. Moultes stated that he thought the plant should be closed down until the matter was settled as the wages of the engineers alone would amount to \$25 per month, and as there was no revenue coming in until transformers are purchased it would only run them further in debt. Mr. Platt, of the Scranton Electrical company was asked in regard to furnishing the necessary transformers. He stated he would only be too glad to do so, but he could not do so there would be no security in such a transaction. The matter was left in statu quo until next meeting. A communication from Mrs. Mary Richards asking for exoneration from the town was laid on the table. The electric light committee was instructed to take down the street lights on the east side of Main street where the lights were doubled up and place them elsewhere in the borough where poles were placed. High Constable Wornouth was given permission to use the tool house for the housing of stray animals gathered in by him. A resolution cutting off the services of Electrical Engineer Harlow on Nov. 20 passed first reading. On Thursday evening the Building Trades union will hold a meeting at the home house. Some fifty people were present at the last meeting, and it is expected that all the carpenters of the borough will be present on that evening when a permanent organization will be perfected. Mrs. Dr. King Vail sustained a paralytic stroke on Monday evening. The right side of her body is helpless. Dr. Sicker is in attendance and has hopes of her recovery from the stroke. The burning of a small shanty on the bank of the river Tuesday night was the cause of the fire alarm sounded at 10 o'clock. As the building was of no account the fire company did not respond. They were aware of the location of the fire before the alarm sounded. Mrs. W. F. Ketchum and daughter, Madeline, are spending a few days with Unimolde relatives. President James W. Smith, of the borough council, is spending a few days at Winchester, Va. Gilbert Taylor, operator at the Delaware and Hudson station, is spending a week's vacation with relatives at Scott. Mr. J. Solomon, of Wilkes-Barre, is doing duty at the depot in Mr. Taylor's absence.

Mrs. Richard James, of Peckville, spent yesterday with Mrs. George Mumford.

It is nearly as hereditary as consumption, quite as common and

fully as fatal. Entire families, inheriting it from their ancestors have died, yet none of the number knew or realized the mysterious power which was removing them. Hundreds of people die daily by what is called heart disease, apoplexy, paralysis, spinal complaint, rheumatism, pneumonia and other common diseases, when in reality it is Bright's disease of the kidneys. These are solemn facts, but all the more serious because of their solemnity. There never has been but one remedy known for the cure of Bright's disease, or even for its relief, and that remedy has become the most popular of any preparation known to the world. It is Warner's Safe Cure. It has taken men, and women, too, who were in the lowest stages and restored them to perfect health and strength. It will invariably check the first stages of this terrible disease, if taken in time. It is endorsed by physicians, approved by scientists and used by the best people in the land. It is a scientific preparation and owes its popularity wholly to its power. It can be procured by any reliable dealer, but great care should be exercised to secure the genuine and not permit any unscrupulous dealer to sell anything in its place.
