PIPE CONDEMNED. City Engineer Phillips visited South

Washington avenue at the Stafford Meadow Brook again yesterday to make a thorough inspection of the large consignment of pipe that Dunn Brothers received to be used on the Seventeenth main sewer district. As noted in this column yesterday, Mr. Phillips was on the scene where work on the proposed sewer was to be commenced and informed Messrs. Dunn that he would not permit them to go ahead with the work. His reason, as also was stated in The

Tribune, was that the pipe was not as the specifications required, and the material was of inferior quality. After finishing his investigation yesterday Mr. Phillips condemned the seven carloads of pipe now on the ground, and there are a like number en route here. George Rosen, who was appointed inspector of the sewer, stated to The Tribune correspondent last night that he was told by Paul Dunn that a telegram would be sent last night to the manufacturers of their pipe to get ready at once the pipe the city engineer demands for the job.
