AS TO THE LIBRARY.

City Teachers Are Called Upon to Give a Statement.

There has been much talk at some of the recent school board meetings pertaining to the question of who owns the public library and what should the funds be used for. The former mem-Bers of the board who were instrumental in organizing the library association have requested a statement of the funds from the teachers who are supposed, and do own the library, although some parties believe that the Alumni association have some capital invested in it. The city superintendent schools has prepared a statement of the expenditures and the amounts realized through different sources for the maintenance of the building.

The statement shows that since its incorporation the library has cost \$2,495.89 and during that time moneys have been realized from different ventures to the amount of \$2,932.48, leaving a balance of \$435.68 in the treasury. which as yet is unexpended. The statement is timely and is itemized.

The petition asking the teachers for a statement is signed by S. A. Mc-Mullen, H. B. Wilbur, P. M. Campbell, Martin Finlan, James F. Boylan, John Collins, Patrick F. Coogan and M F. Norton. These men are all represontative citizens and it is doubtful if such were not the case that the teachers would have troubled themselves in regard to the statement.

MUCH DISSATISFACTION.

The Residents of Sixth Avenue Want the Street Opened.

The residents of Sixth avenue de clare that they will rise in their might and open that thoroughfare for public traffic if the city does not take some sort of action on it in the near future, The city engineer says that he believes all work on improvements should be suspended until spring. If such is the case, and Mr. Frick's opinion should be of some value, then something should be done toward re-opening this avenue which is almost completed. A prominent resident of the blocked street said. "I am tired of the present state of aftairs and refur to submit rsuch longer. To put a ton of coal in at present costs me five dollars, and if street isn't opened soon I'll open it paysoff.

Jenkins, of Unioudale, performed the ceremony that made them man and The bridesmaid was Miss Ruby Yost, of Dunmore: the groomsman, Mr. John West, of Dunmore, and D. Stanley Evans, of Forest City; Glern Herring and F. C. Herring, of Dunmore, acted as ushers. The church was tastefully decorated with paims and chrysantherouns. As the bridal party entered the choir sang a marriage hymn, and the organist. Mrs. E. F. Aldrich, played softly during the service, The bride's costume was of cream lansdowne, with point lac- and pearl trimmings. The brides maid was dressed in organdie over Nile green slik, and carried pink chrysanthemums. The male members of the party wore the conventional black. Funeral of Mrs. Dobbie-Changes in Valley Coal Company-Important Meeting of the Elks.

The funeral of the late Mrs. John Dobbie took place yesterday afternoon from the family home on Butler street and was attended by a large concourse of sympathizing relatives and friends f the family. The services were conducted by the Revs. N. G. Parke and J. J. K. Fletcher, and a quartette from the East Side Presbyterian church sang. Mr. Fletcher delivered a sermon appropriate to the sad occasion, and Parke, who haptized the deceased In her childhood, made an address, which was a review of her excellent Christian life, and were words of condolence for the afflicted parents and young husband. There were numerous

floral gifts strewn upon the casket, which were mute and beautiful tokens f affection from sorrowing friends, and the long line which tollowed the remains to the Pittston cemetery, where interment took place, attested to the esteem in which she was held. The afflicted friends have the sympathy of all in their affliction.

GENERATED IN THE HUMAN BODY

The Result of Imperfect Digestion of Food

Every living thing, plant or animal, ontains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Ptomaines) are usually the result of Imperfect digestion of food; the result of indigestion or dyspepsia. The stomach, from abuse, weakness

does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, naking it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches and pain in the eyes. Bad digestion irritates the heart, causing palpitation and finally bring ing on disease of this very important

Poor digestion poisons the kidneys ausing Bright's disease and diabetes. And this is so because every organ very nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak

nerves and muddy complexion. The great English scientist, Huxley, said the best start in life is a soun stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactle and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack. The regular use of Stuart's Dyspep-sia Tablets will cure every form of

stomach trouble except cancer of the stomach. They increase flesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result
