GENERAL SUMNER IS APPOINTED
HE WILL BE THE COMMANDER OF THE FIRST DIVISION.

Regimental Quartermaster H. B. Cox Has Rejoined the Regiment After a Long Period of Illness. Soldiers Have Organized Two Football Teams and Had an Interesting Contest the Other Day—Some of Late Gossip of the Camp.

Special to the Scranton Tribune. Camp McKenzie, Augusta, Ga., Dec. 14.—Major General S. Sumner, formerly colonel of the Sixth United States cavalry, the newly appointed commander of the first division, is expected to arrive here in the course of a few days. He is now at Fort Myer, Washington, D. C., preparing to report here soon. The lumber for the company kitchen has been received and the cook shanties have already been erected. Regimental Quartermaster H. B. Cox, after an absence of three months from the regiment on account of sickness and a narrow escape from death, returned to camp last night. He is now in splendid health.

Sunday was a comparatively quiet day in camp. The Young Men's Christian association and the church-goers were about equally divided. The others who were not on details sat in their quarters and read or wrote letters. In the afternoon the Thirtieth was the arena for half of the men of the Third brigade, and for the elite of Augusta. A special and elaborate musical programme had been prepared by Chief Musician Miles, and it was advertised beforehand, so that when the concert was begun at 3 o'clock in front of headquarters hundreds of interested spectators, soldiers and civilians, had gathered. Each number was interpreted and rendered with an artistic finish which delighted the hearers and evoked generous applause.

MR. THOMAS SANG. Morris Thomas, a member of Company C, but now a mounted orderly to Major General Young, who gained quite a reputation as a soloist in the Penn Avenue Baptist and the First Presbyterian churches, and at Sunday's concert fully sustained his reputation. The citizens present were more than pleased with the concert, and the Thirtieth and its excellent band are now popular topics of conversation with the people of Augusta.

A few days ago a football gridiron was mapped out on the regimental drill grounds; goals were erected, and yesterday afternoon two teams, recruited from the entire regiment, met for the first time since our arrival here and gave a splendid exhibition. The personnel of the teams was as follows: First Team—Corporal Russ, of A.

Good Day

Every Day vs. Holiday Goods

Just now this is particularly a Christmas store, but the blaze and glory of the Christmas goods do not blind us to the demands of everyday wearables. We hear and heed the voices that ask for Underwear, Dress Goods, Suits, etc. Regardless of what may be in the foreground, this is and always will be an everyday store.

About Some Silk Waists

It will hardly be believed that so much goodness and style could be distributed at present prices. But the time for these handsome silk waists is short, so we shortened the prices. You desire exclusiveness, of course. In this stock there are some duplicates, but it's principally an assortment of one-of-a-kind styles. All the desirable shades in desirable materials are shown—the best styles represented.

Small Furs and Large Ones

Not the cheap kinds that get ragged and matted and rough in no time. But, of the good kinds that do not cost much, we have a rich gathering. All of the fashionable furs are here, not in the uncut skins, but in the witchery of collarettes, scarfs, capes, muffs and jackets—carefully put together and finished with an inner beauty that is in keeping with the exterior luxury. You've seen our show? Diplo! that thought. Ours is a sort of combined performance. New features in furs come each year, and go likewise. A "fur" that met your approval but out-reached your price perhaps was here last week, but this week has found an owner. Another, equally as satisfying and within the limits of your economics, has replaced it. Come and see.

New Prices for Tailor-Made Suits

A month hence you'd expect January prices on women's suits, but hardly now, at the height of the mid-season. Yet here and there on many of the more expensive and elaborate finished silk lined suits January prices have appeared—prices that are at least a third off the regular asking. These are lowered because we've not been able to find purchasers to fit the suits. But, if you're fitted, it's all the better for you.

left end; William Beckman, of C, left tackle; Joseph Leonard, of D, left guard; Corporal William Williams, of F, center; Victor Thomas, of A, right guard; Sergeant Clarence Seward, of D, right end; Rowland Rice, of A, quarter back; James Hughes, of D, right half back; Sergeant Eugene Fellows, of F, left half back; Musician Thornburn, full back.
Second Team—Charles Adams, of D, left end; Corporal Joseph Crowley, of D, left tackle; Frank Stipp, of D, left guard; Sergeant Lorenzo Bisbee, of D, center; J. Donald Hull, of A, right guard; William Myers, of D, right tackle; Patrick Cummings, of A, right end; Edward Finnegan, of D, quarter back; Corporal Ralph Gregory, of D, right half back; Harry Smith, of D, left half back; Corporal Ezra Rippie, of D, full back.

OFFICERS OF GAME.
Empire—Captain Decker, of F, Referee—Dr. Merriman. Timekeepers—Private Perry Bowman, of D, Linesmen—Sergeant William R. Newman, of F, and Corporal Harry Drake, of C. Two halves of fifteen minutes each were played, and during that time the work done by both sides was quite lively. In the first half, on a fumble, Thornburn made a touchdown and a goal was kicked by Rice, giving a score of 6-0 in favor of the first team. No other points were made.
A large amount of heavy clothing has been received.
A more commodious guard house for the Thirtieth has been suggested by the division officer of the day. The change will be appreciated.
Sergeant Bert Murphy, of D, acting as the division color sergeant, is now able to attend to his regular duties after a short spell of sickness.
Musician J. W. Simrell, of the band, writes some very interesting camp letters to the Great Bend Plain Dealer.

Corporal George Thomas and Private Thomas Morgan, of E, which company is now at Summerville on provost, were in camp yesterday, and dined with the "Bachelors' club," of H, whose members are Corporals C. S. Bailey and W. L. Pinn and Privates C. S. Morgan, A. H. Price and C. M. Lent.
Private Patrick Quinn, of B Company, who contracted fever at Camp Meade, while he was detailed at the Division hospital as an assistant nurse, has returned to camp fully recovered.

ARTISTIC GARDENER.
Musician Louis B. Decker is evidently an artist as a gardener. He has fixed up the band's street in a way which attracts attention. After having raked it over and over in every imaginable form, he drew very exact lines on the ground showing the combination—"B-Band." In those lines he has placed, at regular intervals, branches of the celebrated Georgia pine which he has trimmed with a scissors. This piece of work is the admiration of all who have seen it.
Private Paul Hummel, of Hummelstown, Pa., who left with the regiment when it started South, has been mustered into the service and has become a member of Company C. Private Hummel is quite an addition to the band, as he is an expert clarinet player.

INDUSTRIAL JOTTINGS.
Intention of Erie and Delaware and Hudson Companies to Make an Excursion Resort at Elk Lake.
Coal Prices Increased.
The residents of Honesdale are preparing to celebrate over the fact that they are to remain in communication with the outer world," says the Carbonade News. "At a conference in that borough between Second Vice-President H. G. Young and Superintendent C. R. Manville, of the Delaware and Hudson, and the Erie vice-president and head civil engineers, it was learned that the Erie railroad intends running their road into the Delaware and Hudson depot, and thus do away with the "but" travel of two miles between the present Erie depot and Honesdale. And the Erie and Delaware and Hudson will build a steam road from Honesdale to Elk lake, which place is to be fitted up for a pleasure resort in the place of Shohohol. Glen, as the latter place has practically become a thing of the past for excursionists. Elk lake will make an ideal picnic resort, and when fitted up in the manner proposed by the officials it will be second to none in this region.
"From Elk lake the road will be extended to Farview, and connect with the Gravity light track, which will be widened to standard gauge, and the curve at Shepherd's creek made larger for steam cars. It is true the Erie road will transport Delaware and Hudson coal to tide water, for a while anyway, but it is more likely that the Delaware and Hudson will deliver it to that company at Honesdale when the new road is in operation between here and Honesdale.
"H. G. Young, when in conversation with several prominent Honesdale citizens, remarked that the people of Honesdale would be throwing roses instead of stones at him when they found out what he was going to do for the Maple City."

PRICES GOING UP.
"Facing to the cold weather the anthracite coal companies have decided to make an advance in the price for all sizes alongside the wharf at New England points of 25 cents a ton, to take effect immediately," says the Philadelphia Press of yesterday. "Even at these figures the wholesale selling price is 25 cents below the circular price, but it is understood that it is the intention of the operators to make another advance within a very short time.
"Facing to the shortage of cars there is a great demand for all sizes throughout the anthracite and bituminous trades and many of the mines are being worked only part of the time as the amount of coal produced cannot be handled and there is no place to store it. A high official of one of the leading companies said yesterday that his company was selling all the coal it could mine, although considerable of it was being let go at a low figure. It

is understood that the reading company has been for some time past holding on to its coal, as it does not wish to sell it at the present ruling price.
"The new price which went into effect yesterday relates only to coal at points in the New England district and does not apply to the city and line and tidewater trade."

MINE ACCIDENTS.
During the year ending Dec. 1, 1898, there were 1,467 persons injured or killed by accidents in the anthracite coal mines of Pennsylvania, as against 1,578 for the year ending Dec. 1, 1897. Of the 1,467 accidents the number that resulted in deaths was 277. By reason of these accidents 294 women were deprived of their husbands and 270 children were made orphans.

THIS AND THAT.
The Delaware, Lackawanna and Western station at Danville was destroyed by fire Tuesday afternoon.
The Continental mine was idle half a day this week owing to a breaking of some breaker machinery. The Archbald mines were idle one day last week.
It was announced at Easton yesterday that the Lehigh Valley Railroad company will hereafter build its locomotives instead of buying them. The big building in South Easton, in which passenger cars are built is to be converted into an engineering shop. About 100 additional machinists will be employed. The car department will be moved to Sayre, Pa.
If a man holds a responsible position upon the Lehigh Valley railroad, such as trainmaster, train dispatcher, yard master, engineer or conductor, he must be the owner of a first class watch. His time piece must also be inspected semi-annually by a company official. If the watch passes inspection the owner is given a certificate as to its accuracy, which holds good until the next period of inspection arrives.
"Do you approve of compulsory education?"
"Well," said the man who had settled down late in life, "it is about the only way to learn the value of a dollar."—(Cincinnati Enquirer.)

BABY'S FACE

LOOKED LIKE RAW MEAT.
Our baby's face and neck was all raw meat, and something awful to look at. The way that child suffered, mother and child never had any rest day or night as it constantly itched, and the blood used to flow down her cheeks. We had doctors and the dispensary with no result. By using CUTICURA RESOLVENT, CUTICURA Ointment, and CUTICURA SOAP, the child was entirely healed.
