Best in the world. The New York Sun of Nov. 19, 1898, says:

The soloist of yesterday's concert was Leopold Godowsky, a planist of great merit. In manner and feeling he is very simple, sincere and modest; in the setting forth of his artistle abilities he seems bound by the highest and best methods. Godowsky is a most reliable and agreeable player, one who gains more and more fully every moment the confidence and sympathy of his audience. His rendering of the Saint Saens Concerto in G minor-on a plane, it may justly be said, of which the tone was delightful-made a charming interlude between the orchestral pieces," Godowsky used the Knabe Piano.

She was an elderly lady with distinct views on the sphere which small boys should occupy, and she decided that she couldn't, like the wicked, stand in slippery places, and so elected to walk down the middle of Clay avenue where the hill is steepest. There was a constant procession of sleds, great and small, speeding down or being dragged up that hill by their owners. The elderly stories of the tall buildings of the city, lady's determination to take the midd'e of the road interfered with the process sion for a time and there were many "Hi there's!" Look out!" "Get out of the road." etc., all of which the disturber of the occasion distinctly [gnored. Disposed of Probably Due to the Measures-Mr. Lansing Introduces an Ordinance Designating City Depositaries-New Fire Limit Ordinance Passes Third Reading and

Goes to Common Council.

Last night's meeting of select counil was characterized for its brevity and utter absence of strife or debate. Both these features were probably due to the absence of any very important business

Mr. Lansing introduced an ordinance designating the depositories of city funds in the hands of the city treasurer, providing for the verification of

his cash accounts and for the realization of interest upon unexpended city The ordinance names the First National Bank, Third National bank, Traders' National bank, Lackawanna Trust and Safe Deposit, Merchants' and Mechanics', Scranton Savings, County Savings, Dime Deposit

and Discount and the West Side banks time shall the city treasurer have on deposit in any one bank more than 20 per cent, of the gross amount of all

city funds in his hands. A resolution introduced by Mr. Rocho and adopted was as follows: That the chief of the fire department be * * directed to report to councils if the present fire apparatus of the city is capable of combating fire in the upper and, if not, to recommend what addition to present equipment is necessary for meeting such emergencies. He is also required * * * to recommend such changes in the construction of

such buildings as will confine the fire to the buildings and to protect them BRECK COURT PAVE.

From the Barber Asphalt Paving ompany was received a proposal to pave and grade Breck court, south of Spruce street, for \$2 per square and to set straight and circular curb for 53 and 98 conts respectively per lineal foot. It was the only bid divod.

Mr. Melvin's resolution authorizing lease with the Blair estate for the 'rystal hose house on Linden street for five years was adopted. It con-tains the provision that the rental shall not exceed \$1.200 per year and that the estate shall have repairs and improvements made in accordance with

the plans of the building inspector. The new fire limit ordinance, which was introduced by Simon Thomas as long ago as last May, was called up for third reading. It was finally approved and will now go to the lower branch for three readings. The meas-

ure prescribes "Limits within which buildings shall not be constructed or reconstructed, nor into or within which the same shall not be removed, except of non-combustible materials with fireproof roof, and fixing the penalties for
