"I hope you will excuse me from repeating it, sir," said the young officer, a faint twinkle showing in his eyes.

"Gosh, Mr. Scott," responded Admiral Dewey. "If you can give John a story I will thank you for it."

"Well, sir, do you remember when you said as soon as you could get on the figure 8 you noticed that the Baltimore was going further away than she had been ordered?"

"Yes, I remember that very well," replied Admiral Dewey.

"Well, sir, do you remember what you said as soon as you noticed the position of the Baltimore?"

"No, I have forgotten everything about that except ordering a signal of some kind to be displayed for the Baltimore. What did I say?"

"You said: 'What is the matter with the blasted black smoke? There on the blank a blank backward! Tell the blasted Black Baltimore to close up, Black Bill, tell him to close up.'"

Admiral Dewey looked across the bay toward the city of Manila in a moment and he led the signal from his flag.

"Let's look at the signal book for that morning. That will tell what I said."

The signal book was quickly produced and this was all that could be found referring to the Baltimore.

"Please close up!"
